Had your census taken?

We scrap a pair of ships in the
navy parity agreement.

After all, it is better to scrap our
ships than to scrap our neighbors.

Few men are taxed with alimony
unless they have the money.

Waynesville has grown to be a city
of 2,406, and gained 265 feet in altitude.

As a child the main impression the
historical Pilgrim made on us was
contained in the grim.

"India Tense as Revolution
Grows", and the worrisome part of
it is that it is the present tense.

Buncombe is a strange county—
even a graveyard can provoke a pro-
tracted community row.

We hope that target practice isn't
included in the curriculum of that
New York school for brides.

Perhaps one reason why so many
people are interested in school teach-
ing is that it is about the only line
in which salaries and wages haven't
been cut during the slump.

If the Senate does not confirm
Judge John J. Parker as associate
justice of the Supreme Court, every-
body will know why, and nobody in
North Carolina, Democrat or Repub-
lican, will feel good over it.

The census is taken as the basis
for readjustment of congressional
representation. That is the mandate
of the Constitution. Yet, since the
1920 census the House has remained
unchanged; so why go to the ex-
pense of this one?

Speaking of moral issues; we said,
when America refused to join the
League of Nations and to assume her
place in the moral force of the world
for peace and justice, that we were
pitching our tent toward Sodom; and
now take a look at us!

The amendments are the only part
of the Constitution that keep the
people in turmoil and bedevil the
cautious politician into sleepless
nights, wondering what he should do
or say to get the most votes. The
men who framed the original did a
fine job.

Republican State Convention in
Charlotte resolved the "superior
moral force" of the Republican
party. Our understanding had al-
ways been that it was political, not
moral differences that divided par-
ties; but it the Charlotte convention
wanted to draw its garments about
it and resolve that it is thankful
that it is not as other men are, we
shall offer no objection to its doing
so.

CENSUS TAKING

All civic organizations everywhere
strive to increase the population of
their towns; and all towns and cities
are anxious that the census show
them to have great numbers of people.

We have often wondered why,
since the greatness of a town or a
country can not be measured by nu-
merical count; but by the happiness
of the people.

According to Holy Writ, there are
more people in Hell than anywhere
else in the Universe; but nobody
wants to go there.

China has the largest population
of all the nations; but who wants to
move to China?

New York is the largest city in
America; yet few of us would ex-
change our lot in our small towns
or smiling countryside for the side-
walks of New York.

Some of the most disagreeable
and offensive localities are the most
densely populated; and some of the
most delightful places on the earth
are where there are few people.

It is not in numbers, but in qual-
ity of population that we are to find
the measure of the greatness of a
town.

It is the simple things of life that
are good, and true, and great, and
afford true happiness and lasting
joy.

Then, why all this pother about
wanting our towns to be big in num-
bers? We are continually getting all
hot and bothered and making a great
do over things that don't amount
to as much as a nice hill of beans.

PARKING PARKER

The assertion contained in a tele-
gram from the secretary of the Soci-
ety for the Advancement of Colored
People to Governor Gardner, that
lives and property of Negroes in
Greensboro and Winston-Salem are
in danger from white Republicans
trying to coerce Negroes to sign en-
dorsements of Judge Parker, is not
only a ridiculous falsehood out of
a perverted mind and a twisted soul,
but is an insult to the State of
North Carolina and our people. What
are they trying to do? Resort to old
Thad Steven's ancient standby of
"Southern atrocities"? The Negro
organization has long been an impu-
dent intruder into political affairs;
and we hope that it will not be able
to boast having blocked the confir-
mation of a North Carolinian appoint-
ed to the Supreme Court.

easily solved; but as it is, the homes
of the community are being crowded
with students. Members of the fac-
ulty are opening their homes to stud-
ents in an effort to help accommo-
date the unexpected numbers. Presi-
dent and Mrs. Hunter will have a
half dozen or more students in their
home. Applications are still coming
in.

FOR CLERK SUPERIOR COURT

Having been urged by many
friends from all sections of the
county, and believing myself well
qualified for the position, I hereby
announce my candidacy for the office
of Clerk of the Superior Court, sub-
ject to the action of the Democratic
primary. I was born and raised in
Jackson county and in the princi-
ples of the Democratic party, and I
earnestly solicit the support of all
Democrats in the primary. If nomi-
nated, I will make a determined fight
for election, and if elected I will try
to the best of my ability to fulfill
the duties of the office courteously,
honestly and efficiently.

FOR SHERIFF

Upon solicitation of many friends
from my own township and various
parts of the county, insisting that I
make the race for sheriff, I have de-
cided to announce my candidacy for
that office, subject the action of
the Democratic primary.

STUDENTS CROWD CULLOWHEE

Cullowhee, April 24—From pres-
ent indications, the community of
Cullowhee is going to be taxed as
never before in its history to care
for college students for the next six
weeks. The largest number of stud-
ents ever attending Western Carolina
Teachers College at any one time be-
fore was 356, in the first summer term
in 1928. No term in the regular ses-
sion ever approximated this figure in
enrollment. However, it now seems
certain that the new students enter-
ing on the 28th will give an actual
enrollment for the third quarter of
400 or more.

If the new dormitory, Reuben Rob-
ertson Hall, now under construction
could have been ready for occupancy,
