Castles in Spain are largely vacant, these days.

The Spanish Main has shifted to the legislative halls in Madrid.

Believe it or not, nearly a week of Jackson court has passed without either rain or snow. However, we are not vouching for next week.

Maybe all these internal wars the Chinese have been holding for ten years have only been a sort of training to take on Japan.

Sink favors abolition of grand juries. A few more passes and the ancient bulwarks of the people's liberties will be sunk.

We are for the Legion, but it does strike us that they could have found something more important than beer to be patriotic about.

Spain has rejected Catholicism as the state religion. Maybe now you know why Bishop Cannon went to Europe, this summer.

Bayonets about the Louisiana capitol must recall to the old timers the days when Phi Sheridan held sway in those parts.

A million and a half dollars for a victory fund is the goal of the Democrats. Want to pay off the mortgage on the old party and make her own again?

"If we can't protect the young girls of the country, we might as well close our courts and quit"—Judge Harding speaking from the bench.

Huey Long is going to be both Governor of Louisiana and United States senator, even if he has to hold on to both positions with force of state militia.

1500 Western North gathering in a convention. The assembly will be of different mind from the long-drawn-out one in Raleigh.

Judge Harding, in his charge to the grand jury, took occasion to stress the sanctity of an oath and the importance of jurors. The address was timely, impressive and well-taken. It is a pity that all the people could not have heard it.

Wisconsin came to the relief of the Republicans and gave them a majority of one in the House; but there are other special elections before the coming of congress. It may be anybody's house, and chances are that after it has been in session 30 days nobody will want it.

The only objection we can find for doing away with battleships and armaments is that if we stop building them, we will throw a lot more people out of jobs. Everybody except the soldiers got rich during the ships, guns and munitions war, making army camps, battle-

No wonder those Iowa farmers are so mad that state troops had to be called out to keep them quiet. They have enough to be worried about without the state sending vets around to inoculate the cows. Funny thing that when a fellow is worried sick over one thing, somebody begins to pester him about something else.

The new plan for us to get out of the financial difficulties in which we find ourselves is for the owners of the money to lend us enough to pay them what we owe them and start all over again with a clean slate. The big interest payments, however, go to the big boys, and we little fish continue to do the paying.

We, as a newspaper writer, paragrapher, and such, insist that the lawyers took an unfair advantage of Brother Wambolt of the Asheville Citizen staff, when they demanded a bill of particulars. That is an old dodge of lawyers, when their clients are in a tight place, and they used it both logically and with telling effect in the instance under consideration.

GOOD WILL

Good will is the thing that the higher officials of the railroad companies especially desire at this time when railroad profits are dwindling and motor transport is taking railroad business.

Last week a young man named Deitz was killed on the Southern tracks near Marion. The office of the division superintendent wired to

Sylva for information as to where the family of the young man could be found. The writer of this article and the editor of this paper, together with Rev. Thad F. Deitz, and others took considerable pains to find the information. The writer was requested by the railroad agent at Sylva to call the division superintendent at Asheville as soon as the information was secured. In compliance with that request, the writer called Mr. W. F. Cooper, division superintendent of the Southern at Asheville, informing the telephone operator of the nature of the call. Mr. Cooper instructed the operator, so she informed the writer, to tell the writer to call his office at 8:30 the next morning. This was in the face of the fact that a young man was dead. He had relatives somewhere, who would want to know the sad intelligence. People who had no interest in the case except the natural human impulses of kindness, who thought they were doing a service to the family of the young man, and to the railroad company, were arrogantly told to await the pleasure of his majesty the division superintendent, to further put themselves out by calling him again, at such time as the call would meet his will and personal convenience.

It is occasional instances of such conduct on the part of petty officials of the railroad companies, such as division superintendents and the like, that block the higher officials in attaining their most coveted desire, the good-will of the people. That good-will will do more to bring back prosperity to the railroads than any other thing, and without it, they can never again be the sources of revenue to their stockholders that they once were.

The writer thought at the time that he had information that would be wanted immediately by the officials of the railroad company, who would pass it on to the immediate family of the unfortunate young man. We still think so, and we did not then nor do we now, relish being told by his highness to call him at his office some 14 hours later with the information that had been secured at the cost of time, gasoline, and inconvenience, all of which had been given gladly and willingly by the writer and Mr. Deitz.

"YELLOW JACKETS" TO PLAY HAYESVILLE HIGH

The S. C. I. "Yellowjackets" are hard at work polishing up the attack to be used against Hayesville on Friday afternoon of this week. Defects in play, uncovered in the three games played so far, are being ironed out and the coaches predict a smooth working machine with plenty of drive for this week.

The "Yellowjackets" have given a good account of themselves thus far. Against the highly touted Copperhill (Tenn.) High team, in a game played under the flood-lights, the "Jackets" ran up the greatest number of first downs and kept the ball in the enemy's territory during three quarters of the game. The Tennesseans scored their touchdown late in the game on a pass of some forty yards. Receiving the next kick-off, the "Jackets" pushed the ball into the shadow of the enemy goal only to be stopped by the whistle. Against the Teachers College, the "Jackets" showed that they could hold their own against the running attack of a much heavier and more experienced eleven, losing to the College team by 12 to 7.

Last week witnessed the beginning of what is expected to be a winning streak, the start being made at the expense of Murphy, 6 to 0. Murphy failed to register a single first down while the "Jackets" were making half a dozen. They were unable to penetrate Murphy's pass defense, losing the call five times by interference.

The opposition for this week is going to be stiff. For three years Hayesville has run rough-shod over all opposition, dropping two games last year for their only losses in that length of time to high school opponents. Under the tutelage of a new coach this year they are threatening the skies of all teams in Western North Carolina with championship dreams.

The game will be played on Allison Field, starting promptly at 3:30 o'clock. Admission will be twenty-five cents to everybody.

RECOVERING FROM PNEUMONIA

Friends of William Curtis, and of the family, will be glad to learn that he is rapidly recovering from an attack of pneumonia, which developed on Wednesday of last week. William is the oldest son of Mr. and Mrs. Henry O. Curtis, and is a student in Sylva Central High School.

CARD OF THANKS

I wish to express to all our friends our sincere appreciation of their acts of kindness and thoughtfulness, at tragic death of my son, Howard Deitz. Mrs. Luther Deitz

POISON in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels themselves. Its natural, mild, thorough action and its pleasant taste commends it to people of all ages. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstores sell.

"More genuine satisfaction than any car I ever owned"

THE FORD is good-looking. It is safe. Comfortable. Speedy. Reliable. Long-lived. Economical. Everything a good car should be.

There is, too, an added something about it that brings enthusiastic comments from every one who has ever driven a Ford . . . the joy it puts in motoring.

"I have been a car owner continuously for nearly 20 years," writes a motorist connected with a leading university. "During this period I have bought eleven new automobiles. Eight of the eleven were in the middle-price field, one cost three thousand dollars, and the last is a Ford I purchased thirteen months ago.

"In the light of this experience I can say in all sincerity that I have derived more genuine satisfaction from the Ford than any car I ever owned. In

saying this, I am thinking in terms of comfort, safety, driving pleasure, ease of control and economy. My next car will also be a Ford because it will give me what I want at a price I can afford to pay."

When you get behind the wheel of the Ford and drive it yourself you will know it is a truly remarkable car at a low price. You will like it when you first buy it. You will become more and more enthusiastic the longer you drive it.

After thousands of miles of driving you will say "it's a great car." Its economy will save you many dollars.

HARRY BUSHMAN, M. Healthy, G.

School Janitor "Glad He Did It"

He suffered for years from stomach and kidney trouble that had reduced him to a constant rheumatic condition, which made it seem almost impossible for him to go on. Then he heard of MALVA.

This is the story of Harry Bushman, Janitor, Assumption School, Mt. Healthy, Ohio.

"I am now on my fourth bottle of MALVA, the wonderful new family medicine, and the change it has worked with me is almost miraculous. I hope any of my friends who see this statement, and are ill, will not hesitate in beginning to take MALVA at once. I'm glad I did it."
