

**SYLVA HERE AND THERE**

(By John Parris, Jr.)

Another glorious Thanksgiving has passed into oblivion. As usual everything was quiet. We were blessed with ideal weather for Thanksgiving. We are certainly thankful to be here—and in so wonderful a town.

I would like to see young and old yoking their heads off at a football game. That's just what you would have seen if you had been at the S. C. I. Sylva High game. Memories of days gone by came back to many of us. At some time played on the gridiron. There were many who wished that they could have once more donned the garb of the gridster and taken part in the plays that once were so familiar to them.

Through this column the Sylva High football squad wishes to thank the people of Sylva for their ample support throughout the football season.

The Mayor of our town was invited out to a banquet Thanksgiving night. He made a speech! From what the Mayor said he had a pretty good time.

More rain! We are certainly glad in more ways than one for it. It looked as if we were going to be without water. The town supply was getting low.

The Sheriff's department keeps dragging in a still every day or so. From the many stills that have been captured it looks as if the making of whiskey will soon go on the rocks.

An incident of eighteen years ago caught my eye as I was glancing through a supplement to The Jackson County Journal of 1913, entitled "The Murphy Division." A well-dressed gentleman dropped off a Southern passenger train at the Sylva station. He transacted his business and having a little leisure time on his hands, he decided to look the town over. When he had finished his round he was overheard talking softly to himself:

"Yes, sir, it's Sylva for MINE. I was here three years ago and I'm here now; but it ain't the same town. There's a different feeling in the air, seems like, and I don't believe there's another such bunch of live wires anywhere else on the Murphy Division as these men here!"

The gentleman raved on about our town and as he closed his oratory he was again heard to say: "Sylva certainly does look good to me."

What if that gentleman could see our town today. It has grown into a city since the complimentary gentleman saw it. It takes other people to really appreciate the things which are so close to us.

**A Cartload of Maine Potatoes for the President**

"Way Down East they still use the slow, patient ox for jobs that call for heavy hauling. Maine's great money crop is potatoes. So Lenville Hawkes of Cumberland Center loaded 40 bushels of spuds into this 10-year-old ox-cart, yoked up his team of white-faced Hereford steers, and started to take the load to Washington as a gift from Governor Gardner to President Hoover. City folks who had never seen an ox-team crowd around the rig as it was photographed in Times Square, New York, and wondered what the long road in the driver's hand was for.

## CAMELS are KEPT Fresh!

**You probably know that heat is used in the treatment of all cigarette tobaccos.**

**But you know too that excessive heat can destroy freshness and fragrance.**

**That's why there could be no truly fresh cigarette except for scientifically developed methods of applying heat.**

**ACID STOMACH**

**EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which will neutralize acid. The best corrective is Phillips Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.**

One spoonful of Phillips Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods once you learn how quickly this method acts. Please let it show you—now.

Be sure to get the genuine. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.
