And don't you know THE BROWN DAIRY here is just one of the best dairies in the country, conducted by my friend N. C. BROWN. A man of conscientious scruples and ripe experience in dairying. J. P. HASKETT, Merchant, buyer and shipper of poultry and produce. "Perhaps no rural industries have paid so well or brought more prosperity to this section than has poultry suggested Uncle Bill. "Certainly now has offered the farmer-poultry man so regular a cash weekly income. This fact is conspicuously brought out in the active volume of eggs and poultry marketed through the favorably known and live firm of J. P. HASKETT, well known active buyer and shipper of poultry, eggs, produce, etc. Here the producer may bring his products a short haul at a saving of time, risk and expense and receive current cash price any day in the week he chooses to market, where he may realize quickly of his production. And whether good rubber heels, soling or half soling, stitched on with hot waxed thread, or an invisible patch on ladies' fine shoes, it makes no difference with Ed. Mashburn. He is just naturally there when it comes to fine shoe repairing of any kind. And nobody ever accused him of trying to get rich off just one customer," declared Uncle Bill.

MESSER LIES IN AIRPLANE CRASH

Rogers Messer, Asheville Fireman and a son of Chief W. R. Messer of the Asheville Police, and Mrs. Messer, was killed at the Black Mountain airport, Monday evening, when a monoplane, which he was driving, crashed to the ground.

Young Messer, who was 27 years of age, was a popular member of the Asheville fire department, and a licensed pilot. His mother was, before her marriage, Miss Lula Rogers of Cullowhee, and he leaves a large number of relatives in Jackson county.

Death was due to severing of the jugular vein by the control stick and smashing of the skull by the instrument board as the five-cylinder engine was telescoped into the control seat and cabin. Messer had just taken off in the presence of Charles "Trooper" Clayton, motorcycle officer, and Brian Sanborn, manager of the airport, Clayton having accompanied Mr. Messer to Black Mountain.

The engine was functioning properly, Mr. Sanborn said. It was the consensus, however, that the plane was turned too quickly and at too low an altitude. Messer had the throttle wide open in an effort to lift the nosing over ship at the time of the crash. Having stalled in the turn, it was thought Messer found it impossible to right the ship before it plunged into the ground at the eastern end of the airport, about 100 yards off the runway. The engine sank two or three feet into the soft earth and the ship was a total wreck. It was necessary to cut and hack away a portion of the cabin of the plane to extricate the pilot. The plane did not catch fire.

The funeral was held at the home, and interment was in Green Hill cemetery, West Asheville, yesterday afternoon.
