TODAY and TOMORROW

SKILL still an asset

Throughout the depression, a friend tells me, his industry, which is the largest of its kind, has kept all its skilled workers on full pay. "We can't afford to let them go," he said. "There are too few men who can work accurately in terms of a thousandth of an inch, and modern industry needs more and more of them."

Henry Ford has to train boys in his own great industrial school, to have a large supply of highly-skilled technicians, capable of building the automatic machines which enable the unskilled to produce accurately-machined automobile parts.

For every really skilled hand-worker out of a job there are, I venture, a hundred college men looking for work. And when industry picks up again it will be the skilled mechanics who will be put to work first.

Nine high school graduates out of ten, probably 95 out of every hundred; would be better off and have happier, more productive lives if they were apprenticed to one of the trades that require a combination of intelligence and manual skill, instead of going to college.

PRICES on farm products

There is only one way in which prices of farm products can be kept at levels which will enable farmers to earn a surplus above his bare living. That is for farmers to combine and sell their produce only through their own marketing agencies, fixing the prices themselves.

Farmers are the only class of people who are permitted to combine to maintain prices under the anti-trust laws. The whole purpose of the Co-operative Marketing Act, under which the Farm Board was created, is to help the farmers do just that.

If politicians would keep their hands off and not try to feather their own nests at the expense of the farmer the plan would work. Common sense and business methods are all the farmers of the United States need.

FOOTBALL then and now

At Rutgers University the other day I saw a tablet in the gymnasium recording the fact that on that spot, in 1869, was played the first intercollegiate football game, between Rutgers and Princeton. There were 25 men in each team and the game, recently imported from England, was more like soccer than like the varsity game of today.

It was a good many years after that before anybody thought of charging admission to a college football game. As soon as that custom became established the game ceased to be a sport and became a commercial enterprise, which has no more proper place in education affairs than horse racing has. But probably more young men go to a particular college because of its reputation in football than are attracted by the quality of its teaching staff.

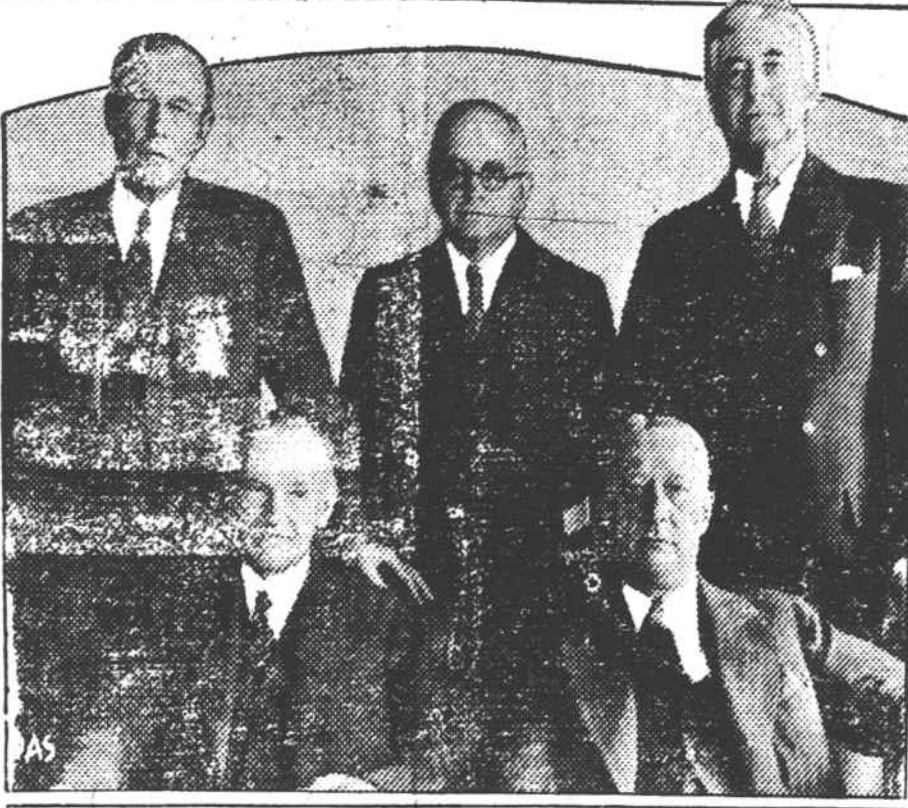

Ships . . . their speed

When we read that Gar Wood has run his Miss America speedboat at the rate of 120 miles an hour it is natural to wonder why it takes the fastest passenger ship afloat nearly five days to cover the 3500 miles between New York and Cherbourg, France. Doubtless a ship could be built which could cross the ocean at a speed around 100 miles an hour, provided nothing broke, but it would not be worth while. To gain such speeds practically every available space inside the hull would have to be crowded with machinery.

The new Italian liner Rex, largest ship to be built since the war, is about as fast as it pays to make ocean liners; she can keep up a continuous speed of 27 knots, or about 51 land miles per hour, and in her 880 feet of length can find room for more "pay load" in passengers and cargo than any other ship afloat, although two or three are larger.

When the time comes, as it will, when people can afford to do some more expensive experimenting with huge flying boats and dirigibles, the speed route across the Atlantic will be through the air, and passengers will be found who will pay enough for a quick passage to Europe to make such ventures profitable.

Massie Furniture Company, of Waynesville, has leased two store rooms from J. S. Higdon, in the New Jackson Hotel Building, and they are being renovated, preparatory to the opening of a furniture business in that location. The opening date of the new furniture store has not been announced, but will be within a short time, according to Mr. T. N. Massie, Jr., a member of the firm. Mr. Massie will move to Sylva and make his home here, he states.

The Massie Furniture Company has been in the furniture business in Waynesville for the past 20 years, and has operated successfully there. The Sylva store will handle a complete line of home furnishings, Mr. Massie says.

WESTERN CAROLINA CLASHES WITH BILTMORE SATURDAY

Coach C. C. Poindexter has been drilling his Western Carolina Catamounts hard this week for their game Saturday at Cullowhee with the Biltmore Bull Dogs. The Catamounts have been playing away from their Cullowhee fair for the past three Saturdays and are anxious to show the student body and home folks what they can really do. The Western Carolina team lost a hard-fought game to the heavy and experienced Carson-Newman team last Saturday. The Catamounts were outweighed at least twenty pounds to the man, but put up a gallant and determined fight every minute of the game. Coach Poindexter's boys made fourteen first downs, gained 233 yards from scrimmage and completed passes for a total of 91 yards. The Cullowhee outfit missed an opportunity to score by dropping a pass in the end zone.

Following the Biltmore game Saturday, Tennessee Teachers will furnish the opposition in the Homecoming attraction on October 29th. Details are being worked out to take care of the largest crowd that ever attended an athletic event in Western North Carolina. Former students and friends are expected back in large numbers to see the game and the many improvements that have been made at the school. November 5, Hiwassee will be played at Cullowhee in what promises to be another feature game.

Coach Poindexter and the college officials are counting on the backing of the people of Sylva and Western Carolina. The number of games that will be played at Cullowhee next year will be somewhat determined by the attendance of the home games this year.

The game Saturday with Biltmore will get under way at three o'clock and a nominal admission fee of twenty-five and forty cents will be charged.

Roosevelt Continues To Lead Hoover In Nation Wide Presidential Poll

40 YEARS AGO

Tuckasee Democrat, Oct. 19, 1892

Mr. F. Merrick is here today.

Mr. W. R. Hooper, of Cashiers Valley, was here this morning.

Mrs. Hastings and Mrs. Johnson, of Dillsboro, were here Friday.

L. M. Davis left Friday for a visit to his father's home at Greer, S. C.

Miss Fannie and Bertie Rogers were visiting Mr. Miller's family Sunday.

Bro. Boone, of the Courier ran over to see the Democrat a few minutes Friday.

Mrs. Stedman and Charlie left Monday to attend the centennial celebration at Raleigh.

Messrs. Marion Ashe, A. J. Long, Sr., and H. S. Rogers are delivering some fine apples here this week.

Messrs. W. E. Moore and John B. Ensley favored us with a call Friday, as did also Messrs E. D. Davis and Joe.

The anxiety of Mr. L. J. Smith to hear Senator Ransom was so great that he went to Waynesville yesterday to meet him.

Capt. G. E. Knight dropped in on us for a short time Thursday. The Captain is rather lonesome these days his family being away on a visit to Virginia.

'Squire W. P. Jones, of Wilmot, spent several days here last week brightening up the storehouse of Smith & Morris with the skillful touch of his paint brush.

A party of our young folks enjoyed the magnificent view from "Black Rock" last week, and Miss Mamie Stedman is away with a party from Dillsboro on a visit to the Smokies.

Miss Gertrude Buchanan and Neal went over to Asheville Friday to meet Mrs. Buchanan, who has been visiting relatives in Thomasville. Mrs. Buchanan brought to her husband a bright little daughter.

SILVER SITUATION MAY BE CAUSE OF LOW PRICES

The conviction is growning that the low price of silver, which is the only money available to half of the world's population, is at the bottom of the low price of commodities generally. If silver were restored to its average price of 60 cents an ounce, it is pointed out, the low-exchange nations of the world which are on a silver basis, like China, would no longer be able to produce commodities at half the cost of producing them in America and England, and sell them in the world market in competition with goods produced on the gold standard of values.

Likewise, the people of those countries, with the buying power of their silver money doubled, would be in a position to buy and pay for commodities produced in the gold standard countries which they can not now do to any great extent.

If the United States were to notify European debtors that it would accept silver at, say, fifty cents an ounce, in full payment of debts and interest, it would force those nations into the silver market and the price of the white metal would instantly rise to its old level.

Not very much has been said yet in public about this plan, but it is being urged from several quarters and there is a chance that something of the sort may come about.

Mrs. Wayne Rhinehart of Canton is visiting at Mr. D. L. Oxner's.

The nation-wide Presidential Poll by some 2,000 weekly newspapers, of which the Journal is one, discloses the hint that when the last vote is cast for Hoover or Roosevelt on November 8th, the small town and country America vote is going to be a big factor in the final count.

Returns from sixteen states in this weekly newspaper poll shows Roosevelt leading Hoover in popular vote by almost exactly the same percentage as prevails in other straw-vote polls conducted in cities and large population centers. However, the weekly poll brings out the fact that the country vote differs drastically with city vote in certain states.

Both the Literary Digest poll and the Hearst newspaper poll show Roosevelt leading in Illinois. The weekly newspaper poll shows Hoover sentiment running strong in small towns there, leading by more than 3 to 1.

Returns from sixteen states have been received at Publishers Auto-caster Service offices in New York, the national headquarters for the Weekly Newspapers' poll. These returns show Roosevelt leading Hoover, 24,911 votes to 19,289. Roosevelt is shown leading in 11 states and Hoover in 5 states. Here are the figures.

State	Hoover	Roosevelt
North Carolina	355	1,978
Minnesota	301	279
Kentucky	1,188	2,346
Florida	97	217
Illinois	4,414	1,452
Massachusetts	522	670
West Virginia	126	1,246
Ohio	2,101	4,305
New Jersey	97	23
Colorado	431	537
Wisconsin	279	1,397
Maine	997	701
New York	1,956	2,085
Pennsylvania	1,784	1,698
Kansas	1,167	1,831
Iowa	3,473	4,146
	19,289	24,911

Roosevelt: 56 per cent votes cast. Hoover: 44 per cent votes cast.

Three Polls Percentages

In its total of 730,837 votes received, The Literary Digest shows Roosevelt with 404,992 votes to Hoover's 325,845. This is 55½ per cent of votes cast for Roosevelt and 44½ per cent for Hoover.

The Hearst Newspapers poll, during the second week in October, showed 403,928 votes cast; Roosevelt with 234,278 votes and Hoover 169,650; 58 percent for Roosevelt, 42 per cent for Hoover.

The Weekly newspapers poll with its total of 44,200 votes, 24,911 for Roosevelt and 19,289 for Hoover; shows Roosevelt receiving 56 per cent of the votes cast to Hoover's 44 per cent.

Summed up . . . and by combining all of the states where Hoover is shown leading in the three polls he is leading in 13 states. All polls show Roosevelt leading in the other 36 states. Under such summing up here is the way they are running as the campaign swings into the stretch.

Roosevelt ahead in Alabama, Arizona, Arkansas, California, Delaware, Florida, Georgia, Idaho, Indiana, Iowa, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

Hoover ahead in Colorado, Connecticut, Kansas, Maine, Massachusetts, New Mexico, New Jersey, Rhode Island, Vermont, Minnesota, Illinois, Pennsylvania.

Jackson Vote Is Light

In the Journal's poll the vote in this county has been light. 17 ballots have been cast for Roosevelt and 1 for Hoover. The Republicans in this county have so far failed to register their preference in the nation-wide poll being conducted by the weekly newspapers of the country, to test the sentiment in the small town and rural districts.
