Raleigh, March 8 .- The one thing hat has been occupying the minds of the members of the General Assembly, as well as the executive officers of the State, for the past few days is the financial erisis in the na tion, which resulted in virtual bank ing holidays in every State in th Union, and the declaration of a mod ified holiday by President Roosevel:

On last Saturday the General As sembly passed, in about 15 minutes a bill de'egating to the commissione of banks authority to limit with drawals of funds from any or al banks in the State. On Monday the legislation was supplemented with :

bill which validated the action of Governor Ehringhans in declaring : bank holiday for Monday, Tuesday and Wednesday and authorized banl holidays by proclamation of th Governor at any time when, in hi discretion, such action may becom necessary to conserve the interests of the depositors in banks of the Stat He is given plenary powers ov banks. It is hoped by this means the prevent bank failures and to save th deposits of the people in banking in stitutions. A similar bill, giving an thority to the Insurance Commission er to prevent cancellation of insur ance policies during banking holiday and times of stress was enacted; a was a bill to conserve the assets of building and loan associations.

The crisis has been looming large on the horizon day by day and weel by week, since a financial stringency in the city of Detroit, forced a banl holiday in the State of Michigan The movement spread from State to State until it enveloped the entir nation. North Carolina was one o the last states to declare the holiday which was forced to prevent with drawal of funds from this to othe States. With New York and I'linoi both operating on the holiday basis
