### TOULS RULL IN

In recent years there have been many dagasting things said and done by young tooks who like to shock their elders, and who have no reverence for anything on this terrestrial sphere, and little for things above.

But of all the impertment, irreverent pieces of disgusting y bad taste, the organization of young college students into "Veterans of Future Wars", and a demand for a bonus in advance, certainly goes beyond all limits of decency. That men have died and worms have eaten them, for love of their country and the lift so of its institutions, its sacred honor, and its liberty; that the very ease, comforts, and opportunities which they enjoy were bought at the price of death, blood and untold suffering, hardships, filth, misery, and agony of body and soul of men and women who have gone before, is to these would be humorists something of which to make a joke.

If many youngsters need to learn one lesson more than another, it is that there are some things that are sacred, and that "Fools rush in where angels fear to tread".
