Now, aren't you glad you have no castles in Spain?

The Communists and Fascists are engaged in bloody civil strife for the control of Spain. Both systems are despotic and utterly foreign to both American minds and American practice. We should be thankful, humbly so, that our lot is cast in favored America, and should strive to maintain our ideals against all encroachments. In the meantime, all Europe is wondering if the Spanish civil war is the detonator that will set off a general explosion, of which all Europeans have long been fearful.

A young Negro hull boy has been arrested and has confessed to the murder of Miss Helen Clevenger, in her room at the Battery Park hotel in Asheville, last month. He will be put on trial next week on two capital charges, murder and burglary. There is general satisfaction that a solution of the horrible and baffling crime has been reached. But, why were there 12 master keys capable of opening any room in the hotel? It was obvious from the first that some employee of the hotel, some guest familiar with the conditions, or some outsider who got information from inside killed the girl. Why, out of the 50,000 people in Asheville, who were neither guests nor employees of the Battery Park, was Mark Wollner arrested? Why was Prof. Clevenger held in jail for a time?

**BARNETT WILL SPEAK HERE**

activities, so that the trend of wages is upward.

The outcome of the internal warfare in the ranks of organized labor, between the A. F. of L. and John Lewis' C. I. O., which means "Committee on Industrial Organization," becomes more acute, with each side trying to get back some sort of a commitment of backing from the Administration. Miss Perkins, the Secretary of Labor, is keeping on neutral ground in this situation.

Organized Labor is not satisfied with the fuller explanation which Gov. Landon gave, in his letter to Norman Thomas, the Socialist leader, clarifying his position in regard to labor. The attitude of union labor leaders is that a "company union", that is, one confined to the employees of a single company, is something not to be tolerated, no matter how free the employees may be left by their employers to organize as they see fit. Gov. Landon has not denounced company unions, though fully conceding the right of union organizers to use any form of persuasion short of coercion to induce workers to join their unions.

For the first time since President Wilson went to France to negotiate the peace treaty a President of the United States while in office set foot on foreign soil, when President Roosevelt paid a visit to the ceremony of Lord Tweedsmuir, Governor General of Canada. American newspaper men who accompanied the President were glad to have furnished to them an

English translation of the part of his speech which he delivered in French for the benefit of the people in old Quebec, whose official language is still that of France.

of the rest of the world in lighter-than-air craft and is recovering the leadership that she held before the war in heavier-than-air navigation.

I was reminded of a remarkable prophecy written nearly 150 years ago by an almost forgotten German author, Jean Paul Richter. Richter died in 1825, and years before that he wrote that the time would come when England would be master of the sea, France master of the land, but that Germany would be a ruler of the air.

I don't know on what Richter based that prediction, but it has come near to being a reality.

**WASHINGTON crossing**

We crossed the Delaware River at the very spot where George Washington crossed it in a rowboat on his historic retreat from Trenton. The bridge at Washington's Crossing connects two state parks, one maintained by Pennsylvania and the other by New Jersey.

Paradizing the Delaware River on both sides are canals, dug by early colonists to provide safe navigation no matter what the stage of the water was in the river. Both canals have been long since abandoned except as millraces for occasional sawmills and gristmills along the bank. The State of Pennsylvania is making a park a hundred miles long out of the banks and bed of the old Delaware Canal, to provide picnic and recreation grounds and smooth safe waters for canoeing.

Even an abandoned canal has its uses.

**SOCIETY HEARS MRS. SMITH**

An unusually interesting meeting of the Methodist Woman's Missionary Society was held, yesterday afternoon, at the home of Mrs. Cary Allison, the chief feature of the program being a talk, by Mrs. John Wilson Smith on "The Women of India." Mrs. Smith, who before her marriage was Miss Mary Candler, has spent the past eighteen months in India, and enthralled the members of the society and guests with her vivid portrayal of life and customs in India, where women are little more than beasts of burden.

The devotional was led by Mrs. J. D. Cowan, and the business and program were followed by a social hour, during which the hostess served delicious refreshments.

**Why Gulf is the Gas for August**

"COMON IN, FELLAS, and cool off!"  
Most days are hot in August. Gasoline must be refined specially for this weather. If it isn't, part of the fuel goes out the exhaust unburned, wasted . . . and you don't get the mileage you should. Use That Good Gulf Gasoline in August. It's refinery-adjusted for summer weather—"Kept in Step with the Calendar"—all of it goes to work, none of it goes to waste.
