# (By DAN TOMPKINS)

Raleigh, February 27 - Senator Chester Cogburn, of Canton stated today that he probably will not introduce the bill that h asbeen requested by a large number of citizens of Balsam, to cut off upper Scott's Creek township in Jackson County and annex it to Haywood. He stated hat there is considerable sentiment iso in Haywood for the proposed reasure, but that he is telling the olks in Waynesville that he will not ntroduce the measure in the Senate, ecause even if it should pass the pocy, it will meet with opposition n the House from the Jackson Repreentative. He takes the position that here would be little likelihood of the House passing the measure over the position of Jackson County and its Representative in the General As-

sembly. Dan Tompkins, Jackson's Repreentative, informed Senator Cogburn a reply to his question, that he would nost certainly oppose the bill, should i be introduced, not only in the Senite Committe to which it would be referred, but also in the House of Representatives, in the event the Jenate should pass it. He expresses nimself as being in favor of the Balamites being given the road and he school facilities to which they are entitled; but as being loath to give hem up as citizens of Jackson. The op of the Balsam range, and Balsam Gap are the natural boundaries, and the Jackson representative wants the line between Jackson and Haywood to remain where it is, and where it has been, ever since Jackson county was formed, nearly a century ago.
