Buncombe Dry Vote Raises Issue In State

with Buncombe county registering a majority of nearly six thousand against the establishment of ABC Stores, the wet and dry issue was brought squarely before the State again.

The control advocates have been trying ever since the 1935 General Assembly to get a foothold for the ABC stores in the great west. In every county in which an election has been held, west of Durham, the prohibition advocates have won victories. Mecklenburg and Catawba both turned thumbs down on the proposal, and several counties east of Raleigh voted against the control stores. The advocates of control pinned their hopes of getting a foot- used between Olivet and Qualla, and hold in the west upon Buneombe. An election was called in Swain, just to the west of us, and the sentiment appeared so overwhelming against the control stores, that the board of elections called off the referendum. That left Buncombe still to vote, and city districts have always been more favorable to the legal sale of liquor than country districts. Asheville is grown to be a sizable city, and the ABCers had hopes there. The city failed to give anywhere near as large an ABC majority as they had hoped, and the country districts and smaller towns of Buncombe piled up staggering majorities for the status quo.

The dry line in the west remains intact. If it had been broken, the probabilities are that other western counties would have said "what's the use?" and would have established ABC stores in the near future. But that is all in the past. Bun-

combe held the line for the drys, Any when it failed to crumble over there, the hope of liquor control anywhere in the west went a glimmering.

COUNTY'S YOUNG TROOP TO BOOKS

It was back to school today for most of the school children and teachers of Jackson county. All schools in the county opened, except those at Sylva, Dillsboro, Qualla, and Cullowhee. Sylva, Dillsboro and Qualla will open on Thursday, August 31, and the Cullowhee school will run wtih the college year, as usual. Superintendent Moses has just returned from High Point, where he got three new buses for the countyschools. Two were new buses, to be

at Webster, and one is a replacement, for use at Sylva. The county buys all new buses, and the State makes replacements.

A vocational agriculture teacher has been assigned to Glenville High school, and additions have been made to the manual arts department at Sylva, and in others of the high schools.

The first of the teachers' meetings of the year was held at Sylva last vocate of Cullowhee College Removed to Sylva from week, and the speakers were Prof. John S. Seymour, of Western Caro-Webster, with Court House, in 1913. lina teachers college, who spoke on "Needed Changes in Education"; and Dr. Willis A. Parker, who spoke regarding extension work.

Not only that. The fight that certain western members of the General Assembly of last winter put up against beer and wine and again

letting down the bars an hard liquors, aroused much of the State, and the tremendous majority Buncombe piled up, leads many people to believe that these westerners were really speaking and voting the sentiments of the people of the mountains. That has given heart to the drys throughout North Carolina and has thrown a fear into the legal lique advocates that it may not be long until the whole State will be given : chance to vote on the issue, and that when it does, North Carolina as : unit may return to the prohibition column.

At least that is the way the writers to the papers from Raleigh and other points where they keep their hands on the pulse of the people are interpreting the fight in the last General Assembly, and the Buncombe

We shall probably hear much about vote. this during the primary campaign next year, as the voters choose the officers for the State. The writers say that there is no doubt that the pendulum has begun to swing back teward prohibition, not only in North Carolina, but also in many parts of the country.
