> **Time To Shop** For Service Men Overseas

It's time to start Christmas shopping for friends and relatives serving abroad in the Navy and Marine Corps. Christmas parcels and cards should be mailed during the month of October-November may be too late.

Carelessness in choosing gifts or in sending them, and failure to mail early enough, may mean that the recipient will have little or no Christmas cheer from home.

The earlier packages are mailed, the better the chances that they will arrive before Christmas. Packages should be labeled "Christmas parcels."

Here are some of the suggestions of Navy and Postal officials: Articles should be easily portable and useful in any climate. In the recommended category are toilet kits, watches, notebooks, pipes, wallets, pens or pencils, photographs, etc. Electrical apparatus is of doubtful value. No perishable matter should be included. Food, including cakes, cookies, fruits, etc, should be particularly avoided, as the necessary delay in handling mail under war conditions often causes such gifts to arrive in bad condition. Cancellation of the State Fair Stale or mashed cakes, cookies reduced to crumbs, and spoiled tauga county to the Georgia cial music and talks, and plans vent farm boys and girls of fruit do not make for a Merry

Service Organization; but other organizations may use the funds from the junk they collect and

HOME CLUBS OF THIS COUNTY TO STUDY VICTORY FASHIONS

During the month of October the 500 Home Demonstration trio. Club members of Jackson county will have as their topic for study by the president. and demonstrations, "Fashions for Victory,"

The War Production Board has ster church. set up certain regulations for womens ready made clothes. The club members will study these regulations and will learn how clothes may still be attractive and becoming even though there are certain restrictions in the use of materials for dresses, cours, shoes and other clothing articles.

Government restrictions do not apply to clothes that are made at home, however, the woman who does s w at home will Want to conform to these regulations if she is to we r clothes that are not too out-moded.

In addition to a study of new styles special emphasis will be placed on remodeling and making over old clothes.

Because there is less material in the newer styles of clothing, old parments can easily be cut down and made into attractive new models.

Special attention will be given to care of clothing, spot and stath removal, pressing, washing, ele. Every club member is requested to bring to the meeting one garment that she has already made over to show to her fellow club member, or bring a dress that she would like some

help in remodeling. In addition to the clothing Work club members throughout onstration in the use of whole the renewal date of December 1. month of business driving. Clubs.

Like, gasoline, tire and automobile rationing and other restrictions, North Carolina motorists are due for another change in procedure and habit when they apply for renewal of their 1942 state license plates. The present license plates issued for 1942 in North Carolina will be renewed for 1943 by the use of a tab, to be attached to the lower right hand corner of the rear plate. The tab will be designated with a 43 and carry a serial number. The letter and numerals will

be gold on black, in contrast with colors of 1942 plates. The same fees which now prevail on license time after November 15, when RUBBER BOOTS ON plates will apply to tabs issued for renewal of such plates.
