—MANUFACTURERS OF—

THE LONE STAR PUMP,

the best made, double-acting, anti-freezing, anti-packing, with no rubber, gum or leather. Used for wells, cisterns, irrigation or supplying towns with water.

Pomona Hill Nurseries,
POMONA, N. C.

Two and one-half miles west of Greensboro, at Junction of Salem Railroad. The main line of the Richmond & Danville Railroad passes through the Nursery and within 100 feet of the office and residence. Salem trains make regular stops twice daily each way.

Those interested in fruit and fruit-growing are cordially invited to inspect this, the largest Nursery in the South.

The proprietor has for many years visited the leading Nurseries of the North and West and corresponded with those of foreign countries, gathering every fruit that was calculated to suit the South, and being located in the center of the Piedmont Section of North Carolina and with 30 years experience, also the experience of my father before me, I can claim without hesitancy that trees, &c., grown in these Nurseries will do better in any of the Southern or border States than if grown further North or South. Try and be convinced. My stock consists of over

*One Million Fruit Trees,
Vines, &c.,*

of all the leading varieties, both old and new. Apple, Peach, Pear, Plum, Apricot, Cherry, Figs, Japanese Persimmon, Pecan, English Walnut, Grape and all small fruits. Evergreens, Poses, &c.

Correspondence solicited. Send for catalogue. Satisfaction guaranteed. Order direct or give your orders to my authorized agent. Address

The whacking that Secretary Lamar gives the Commissioner of the Land Office, in his recent letter, will probably make the Sparks fly.

According to an exchange, some Iowa burglars recently repented and handed back their plunder. Next we shall hear of Jay Gould giving back some of the telegraph lines, railroads and things he has "burgled".

We have received an invitation to attend the forty-first Annual Convention and Banquet of the Theta Delta Chi Fraternity, to be held in New York on the 16, 17 and 18 inst. Our thanks are returned for the same. Once, in those remote days before we sold ourselves to him whose name we may not mention, gladly would we have joined the festive banqueters. But now, when we plead with the "copy"-devouring fiend at our elbow, he laugheth consumedly, and saith, "What wouldst thou do at a banquet, wretch? Wouldst thou be the skeleton at the feast, after the manner of the Egyptians? Go to! banquets be not for editors."

A SANITARIUM WANTED.

While there is one objection to the ordinary sanitarium for a health resort like Southern Pines, viz: that it brings under one roof a great company of invalids, who are not always helpful or cheerful companions for each other, there are various reasons why such an institution is much to be desired at this place. The principal advantage of a sanitarium would result from its being under the direction of an intelligent and capable physician. Of course he must be skillful, but he must be masterful as well. He must not only prescribe what is best, he must also see that his directions are followed. It is evident that air and sun are the principal healing agencies at this place, and that in order to receive full benefit invalids should spend all the time possible out of doors. In some cases advice and urging are not needed, but more often they are. We defy any invalid to come and stay in this place three weeks, even behind close-shut doors and windows, without receiving some benefit; but of course under such conditions, great results could not be expected. Another advantage of having a doctor in charge would be realized directly after the arrival of the health-seeker. In some cases such change begins in the system that for a few days the invalid seems worse, rather than better. At

such a time an intelligent and candid physician could allay his fears by telling him exactly what was taking place and thus prevent a panic-stricken flight to the North, where death is almost certain, or to some other point where the disease is only soothed, not thwarted.

THE WAY TO GET A COTTON MILL.

The Raleigh News & Observer gives the details of a plan by which State Immigration Agent J. T. Patrick secures the introduction of new manufacturing enterprises in such cities and towns as will co-operate with him. Mr. Patrick is in almost daily correspondence with factory men and capitalists who desire to come to this state to make investments; but the capitalists naturally want some encouragement and evidence of good will. Mr. Patrick's plan is to determine by inquiry what kind of a factory would be most profitable in a certain place, if the citizens want the factory and, if so, how much they want it. For this purpose he has had blank forms prepared, as follows:

It has been determined that—is a good location for a cotton factory. The citizens of—have declared they would like a factory in their town, but they do not want to invest large amounts in one, as they know nothing about the business; but some are willing to make donations that the factory may be established in the town. The form sets forth that the citizens of such town will give one-half acre of land for the site of the factory and will also give certain amounts in money each, ranging from \$10.00 to any amount. They subscribe their names and write down the amounts they propose to give. This list is returned to Mr. Patrick, who submits it to some company seeking investments, and points out the inducements offered by the town of—.

One of these blanks was sent to the town of Mooresville, in Iredell county, and the citizens at once agreed to invest about \$20,000 in a cotton factory and that amount has been subscribed. This list was submitted by Mr. Patrick to Messrs. Godfrey & Co. of Providence, R. I., and they will at once put in all necessary machinery for a first-class cotton factory and commence operations.

Similar enterprises can be established elsewhere if the citizens will actively second Mr. Patrick's efforts in their behalf.

A NEW ENTERPRISE:

A knitting mill, for the manufacture of underwear, is in course of construction near the foot of Queen street, for Mr. Edward S. Tennent, of this city. Machinery necessary for the purpose has been purchased, we learn, and is expected to arrive shortly. This new enterprise will give employment to a number of people, and we hope will prove profitable to the projector.—Wilmington Star.
