COMMUNICATIONS.

[Correspondence of the LEADER.]

BROADWAY.

Cotton choppers are in demand.

A great many fish are dying, from
some cause in Upper Cape Fear, and
also in the creeks near here. Numbers
of these may be seen, floating on the
water. We are not well posted in
fishology, but are of the opinion, that
people had as well stop eating fish for
a while.

Walter Yarboro took his mother,
who was very unwell, to the doctor
last week, and when returning home,
the axle of the buggy broke, throwing
them out, and frightening the mule, they
were driving. Walter had a consider-
able tussle with the mule, before it
became quiet. After which, he found
that his mother had put out for home
on foot, which she made on time by
running a part of the way.

Mr. J. E. Holmes' teamster lost a
sack of corn, off of his wagon, the other
day, while coming from Jonesboro.
It is not positively known, whether
"mountain dew" had anything to do
with the loss or not, but it was a per-
fect job, as he has never been able to
find the corn.

The stand of both corn and cotton
is very good, and a greater area plant-
ed to each, than usual.

Wonder why some young men here,
look so down in the mouth, on Monday
mornings? Is it caused by endeavor-
ing to keep a pleasant look on all
through Sunday, and become weary,
and are simply resting their counte-
nances?

Norval.

What is the matter with the fish in
the Cape Fear river? They are floating
down the river, in great quantities, on
top of the water, dead and dying.

Will some one investigate this trou-
ble, and tell us what is the matter.

All fishermen should be informed of
the cause of this fatality, and we sug-
gest that they find out through the col-
umns of the LEADER. Persons should
be careful about eating fish, until this
mystery is cleared up.

Crops are late around here, but look
promising. Some are still planting.

From present indications, the Sun-
day school at Antioch bids fair to be a
prosperous one, under the manage-
ment of the new superintendent.

Hammer.

Fedlar's Hill.

As I have not seen anything in your
good paper, from this vicinity, I will
write a few lines.

The farmers, in this community are
done planting. Wheat and oats will
fall short one half.

The closing exercises of Prof. Har-

den's School, at Goldston, takes place
on the 24th. A large crowd is expect-
ed.

Mr. G. B. Guthrie has just returned
home, from a visit to his son, B. H.
Guthrie, and his nephew, W. A. Guth-
rie, Esq., of Durham. He reports a
pleasant trip. He says that he gained
in weight 20 lbs, while gone. Mr.
Guthrie is 83 years old, never shot a
gun, never drank any coffee, whiskey,
nor anything of the kind, and has never
taken any medicine in his life. He
is healthy, and hearty, and able to see
after his own business.

Much success to the LEADER.

C. M. R.

Salona Mills.

Everything lively, in and around the
mills, as usual.

Lots of sickness, but none very dan-
gerous, as we know of now. Mrs.
Sarah Jane Wicker, who has been
quite sick, is improving.

Miss Mollie E. Kelly, of Raleigh In-
sane Asylum, has been visiting her
parents and friends, the past week,
and she is looking well as ever.

If there is any one that is in need of
Irish potato bugs, please let them call
at Mr. A. A. Kelly's potato patch and
he will gladly supply them.

On May 8th, at the residence of the
bride's father, A. T. Gross, Miss Della
Gross, and Mr. J. M. Thomas, were
united in the holy bonds of matrimony,
Rev. Dr. North officiating. The at-
tendants were as follows: D. F. Thom-
as and Miss Annie Thomas; A. S.
Thomas and Miss Nannie Kelly; J. W.
Kelly and Miss Addie Gross; J. A.
Thomas and Miss Bettie Kelly. Mr.
and Mrs. Thomas have gone to their
future home, in Winston. Long may
they live, and happy may they be, is
our best wish. PEEKABOO.

Chafin.

Chafin being a newly established P.
O., probably it has given some of your
readers some trouble in trying to locate
it. With a view to such, I will en-
deavor to give the location. It is sit-
uated one half a mile west of Cool
Springs church, on the "Pee Dee"
road, at the residence of Mr. J. L. A.
Brown. While giving the location of
office, we should not forget to compli-
ment our new post-mistress, as being
an expert in discharging her new du-
ties.

Farm work is progressing finely.
Crops are looking very badly on account
of the cold snap.

"General green" has fronted the
farmers with such boldness, and has
proven to be so well equipped for bat-
tle, it has caused one of our youngest
farmers to retreat from the field, into
the turpentine woods. Watch for
snakes, John.

A gentleman, who has visited our
community, has reported that he will
be married in the near future, to one
of our girls; whereupon the girl vows,
that he has never named the subject
of marriage to her. Isn't that remark-
able? Now Tommie, I want to give
you a little advice, if you have mar-
ried two wives, and I have never
married at all. Be sure you court a
girl before you "norate" the news,
that you and she are to be married.
What do you think of that, lady read-
ers?

Rev. A. N. Campbell will conduct
the funeral services of the deceased
wife of Mr. Thomas Holder, on the
fourth Sunday of this month, at Holy
Springs church.

We learn that the wife of Mr. Ben
Thomas is lying very low with con-
sumption.

The Lagrippe, that has been so
much spoken of, has arrived here. It
got hold of the writer, last week, and
came very near gripping him to death.

The fleas are not so bad here as they
are in Cameron, but the ticks give us
Hello! Joe.

Best wishes for the success of the
LEADER.

Lie Low.

FAIR HAVEN.

Our farmers have commenced chop-
ping cotton.

Mr. J. G. Foushee has his saw mill
at Glenn's mills in operation.

Messrs. Oldham & Cole are hauling
and rafting logs at the Street landing,
and taking them down the river to
their mill at Carbondon.

Mr. J. G. Foushee has the contract
for repairing the bridge across Deep
River at Glenn's mills.

Wonder if Mr. — would like to
buy some fish, at the price he was of-
fered some at the fish pond the
other day.

Married, May 7, by R. Street, J. P.,
Samuel Maness & Miss Dora Yow.

Cameron.

We have nothing to report. Every-
body seems to be very busy, attending
to their own business, just now.

The fish fever is over, and most of
us are now watching the manœuvres
of "Old Gen. Green." He has been
recruiting very rapidly, since the re-
cent rains, but the Alliance is going
to fight him.

Cotton, a good stand; corn, not so
good, owing to the bud-worm: no im-
provement in the small grain crop,
rust is finishing what the fly left, but
every bitter has its sweet; so if we have
nothing to carry to mill we can stay
at home, scratch taters, and play with
the baby. Vegetables are plentiful,
notwithstanding the frost came, which
the old lady predicted. The other
day, we took the old "critter" by the
arm and led her to our cucumber bed
and actually showed her the fruit on
the vines, it is the first smile we have
had from her since we planted.

The fishing we reported at Walnut
Grove, came off at the appointed time,
but owing to the rain, the crowd re-
paired to Bill Muse's; although it is
said the live bait was plentiful, the
jacks didn't bite worth a cent.

Our friends, Hugh McPherson and
Alex. Turner, are in the brick busi-
ness. The names of the boys is re-
commendation enough.

Mr. A. Hieks and wife are visiting
the latter's father, on Crain's creek.

Miss Ida King is off on a visit to
the family of Mr. J. A. McBryde.

Suggs, alias Miss Ida Lawhon, is on
a visit to her sister, Mrs. W. J. Har-
rington, cause, boil on her hand, so
she could not plow.

Mr. Peter McLean, jr., arrived at
his father's on yesterday, in very poor
health. He has been making his
home in Georgia for the past few
years.

We saw a tick, the other day, coming
up the lane with one of our fattening
hogs in his mouth. Oh, where is
Chatham?

Somebody came from town the other
day, with a new road cart, harness,
whip, and all complete. He says he
is going to beat the fleas traveling.
You are a good guesser, now just
guess once more. [The same Joe, or
we lose our luck.]

Summerville.

Federal Court meets at Raleigh on
the first Monday in June. Silas A.
Salmon of Lillington, will attend as a
juror.

Miss Mary McKay, sister of Dr. A.
M. McKay, of this place, is visiting
here.

The Harnett county magistrates
will meet the 1st Monday of next month
to elect a board of county commis-
sioners, and a superintendent of Public
Instruction. There are several candi-
dates for the latter position.

The closing exercises of the present
session of the Summerville High School,
will be held at the school building, on
Thursday night, June 5. The follow-
ing day, the school will have a basket
picnic at McArtan's mill, this place
having received a unanimous vote of
the pupils. The friends of the school
are cordially invited to attend, both
the closing exercises and the picnic.
Come, Mr. Editor, and bring your

family. The dinner will be served in
a grove near by, which will recall to
your mind many pleasant recollections
of your boyhood days, which I believe,
were mainly spent in that delightful
neighborhood.

Hon. Wm. Williams of Little River
Academy, accompanied by his mother,
spent Sunday here, with the family of
Dr. A. M. McKay. MORE ANON.

General News.

It is said that insurance companies
have paid out \$1,691,696, on account
of death caused by grippé.

Several exchanges mention the fact,
that Ex-Gov. Curtis H. Brogden is an
applicant for appointment, as census
enumerator. Jerusalem, what a come
down!!

Hon. J. G. Carlisle has been nomi-
nated by the Democratic caucus of the
Kentucky Legislature as United States
Senator, to succeed the late Senator
Beck. We had expected this result,
although it was only obtained after a
sharp contest. (He was elected on the
17th.)

We see account of a terrible mine
disaster in Wilkesbarre Pa. in which
24 or 25 miners were buried alive.
Nineteen bodies have been recovered,
and six other miners are known to be
missing. There was a cave-in and af-
terwards an explosion caused by the
carelessness of the mine boss, Allen,
who persisted in lighting his lamp,
despite the remonstrances of his com-
panions, and regardless of the presence
of the explosive gas in the chamber.

A consolidation of the agricultural
wheel and the Farmers Alliance has
been effected in Texas. A meeting
for the purpose was recently held in
Fort Worth, which Col. L. L. Polk
President of the National Alliance
attended.

Each of the orders possessed separate
and independent influence, of much
extent, in the State; and the consolida-
tion will enable them to do a vast
amount of good, or of evil, according
as they may shape their course. Let
us hope for, and expect, the former.

Information reaches us on all sides of
dead fish, in large numbers, seen float-
ing on the surface of the Cape Fear
river, and other streams. It is not known
what causes their death, but it is cer-
tain that it must be in consequence of
some prevailing disease. Such being
the case, should not prudence admon-
ish us to abstain from eating fish of
any kind, until something definite, at
least, can be ascertained. No one in
his sober senses, would care to eat a
piece of cholera infected pork, or
chicken, then why venture upon the
risk of a cholera-infected fish.

A Lady's Perfect Companion.

Our new book by Dr. John H. Dye,
one of New York's most skillful phy-
sicians, shows that pain is not neces-
sary in childbirth, but results from
causes easily understood and overcome.
It clearly proves that any woman may
become a mother without suffering
any pain whatever. It also tells how
to overcome and prevent morning
sickness and the many other evils at-
tending pregnancy. It is highly en-
dorsed by physicians everywhere as
the wife's true private companion.
Cut this out: it will save you great
pain and possibly your life. Send

lars, testimonials, and confidential
