VOL. IV. JONESBORO, N. C., WEDNESDAY, JULY 1, 1891. NO. 15

MOUNT VERNON SPRINGS!

UNDER NEW MANAGEMENT.

MOUNT VERNON SPRINGS are equalled by few and surpassed by none in the State for the medical properties of its mineral waters. Some of its cures are almost miraculous. Unlike many mineral waters, the taste is so pleasant, cool, palatable and refreshing that you do not wait a few days before you can enjoy it, but the desire and love of the water increases daily.

Besides the old springs so well established and widely known by their great medicinal properties, there have been other springs recently discovered which contain high medicinal properties. The

Fine Curative Properties

of these waters are increasing in reputation and popularity. The springs are surrounded by great natural beauty, with a high elevation above the sea level, and the

AIR IS PURE AND INVIGORATING.

The Management will employ competent help in each department, and is determined to make a delightful home, dedicated to health, rest and pleasure, where his guests may find every aid, comfort and convenience desired. The proprietor desires to make it a

Resort for both Northern and Southern Guests.

Medical scientists pronounce this place 'Nature's great Sanitarium,' and have volunteered to testify to the virtue of its waters.

Amusements:

A nice new Piano, a good Band of Music, Bowling Alley, Lake Boating, etc., etc. Five hundred feet of Piazza room.
Mt. Vernon Springs is situated in Chatham County, N. C., one mile west of Ore Hill depot, on the Cape Fear & Yadkin Valley Rail Road, within two hours ride of Greensboro and Fayetteville, and is a charming spot to those who seek a place of

Rest and Recreation.

The dining-room has been refurbished and fitted up with an eye single to the comfort and convenience of the guests. The rooms also have been refurbished.
Address,
J. D. BUIE, Manager.
Mount Vernon Springs, Chatham Co., N. C.

Douglass & Shaw,

STREET COMMISSIONER—J. A. McIver.
CLERK—W. E. Murchison.
TREASURER—Redin Bryan.
TOWN MARSHAL—John W. Masemore.

COMMUNICATIONS.

CUMBERLAND.

SLAVIN AND SULLIVAN.

Items, Comments, Etc.

Since Slavin's easy victory over Kilrain, a set-to between the "Austrian" and the "Boston Boy" can reasonably be expected, and the great burning question which now agitates the sporting world is: "How will the fight result?"

We think Sullivan will be defeated. Of course Sullivan's friends hoot at this idea, and maintain that his hitting power is so terrible that nothing human can stand it; but let us glance into history.

In the Sullivan-Kilrain fight at Richburg, Mississippi, the latter stood before Sullivan for seventy-two rounds. Sullivan's physical condition at the time was probably better than it will ever be again. As to Kilrain, neither his condition nor his skill as a boxer approached the perfection to which they attained under Muldoon's recent training; yet, in the fight with Slavin, Kilrain was knocked out in the ninth round and practically defeated in the fourth.

Again. Slavin is about three inches taller with proportionate length of reach, hence we are inclined to think that Sullivan will lose his laurels on the seventeenth round.

In Greenville, Pitt County recently, farmer Carr was tried on a charge of brutally whipping an orphan boy who had been placed in his charge by the Oxford Orphan Asylum.

The judge presiding sentenced Carr to pay a fine \$500, besides a fine of \$300 to the Oxford Orphan Asylum and \$150 to the orphan boy.

While we do not regard the punishment as excessive we cannot help thinking that the judge rather overstepped and transcended his prerogative. It is a judge's duty to deal out substantial justice, but in this case his Honor seems to have felt called upon to administer on the defendant's estate.

Mr. John S. Breece, a successful fruit grower of Carver's township, and one of the most reliable nurserymen in the county, has found it necessary to prop the branches of his pear trees to prevent their breaking down under the abundance of fruit.

The "poor teachers" of North Carolina paid Dr. Talmage \$500 to preach for them on "Big Blunders", at Morehead the other day. We trust they feel as if they had gotten the worth of their hard-earned money.

"'Tis love that makes the world go round," saith the poet. Right you are, old boy, the world would go mighty flat without it.

"Keep a thing seven years and you will find use for it."—Scotch Proverb: Yes, you will find it at the very bottom of a pile of old junk and plunder as big as the pyramid of Cheops.

We once tried to lay our hand on one of those seven-year-relics. We have not found it yet, but we ruined a suit of clothes for for which we were paying twenty-seven dollars on the instalment plan.

So Rev. Baylus Cade has retired from the sanetum of the Progressive Farmer. This reminds of the boatman's cry "bail us out."

A recent Georgia Legislature has passed a law taxing old bachelors with a view of forcing them to matrimony. This strikes us as very absurd. Upon the principle that like produces like will it not result in the production of more old bachelors?

The Increase of Crime—The Figures.

Crime is in the saddle, and has been so for many years in the United States. And it is not surprising that crime increases faster than the population when we consider the character of our mixed population, made up of all nationalities, and the insufficiency of the courts, the defects of the criminal laws and the free exercise of the detestable and dangerous one-man pardoning power.

The MESSENGER has given twice the record of 1890. In that year in this country, there were 4,290 known murders. This is an actual average of eleven every day in the year. Now how many of these red-handed murderers were punished? We believe 105 were hanged by the courts, and some 107 by lynchings. In all about 232 murderers were hanged out of 4,290. Over 4,000 went free, untouched and unwhipped of justice.

The other years back have bad records. In 1889, there were 3,567 murders reported. In 1888, 2,184; in 1887, 2,835; in 1886, 1,499; in 1885, 1,808. It will seem according to the record of murders that crime has increased at a tremendous ratio. In 1889, there were but four each day, but in 1890, there were eleven. When is this to stop? No doubt the increase is attributable to a considerable extent to the immigration of so many murderers and ruffians from Europe and other parts of the world.—Wilmington Messenger.

Round the Earth by Steam.
This little planet is about twenty-four thousand miles in circumference, and within a score of years we shall probably be able to make over twenty thousand miles of the journey in a palace car.

We should start, say from Boston, and follow the sun to San Francisco. There we shall be switched off on the line which will run through British Columbia to some port in Alaska—a line which even so conservative a man as Charles Francis Adams prophesies will be in operation before the baby who is now cutting his first tooth celebrates his twenty-first birth-day. At Alaska we shall take a short trip by water and reach the eastern terminus of the Siberian Railway in a few hours.

From that point we shall skirt the northern boundaries of China just graze Afghanistan and enter Russia in Europe, stop over at St. Petersburg for a night's rest. Then will come Berlin, Paris and London.

The Czar is pushing the Siberian Railway with great vigor. Half the distance to the Pacific has already been covered. When paying mines are developed in Alaska, as they will be, we shall connect that territory to the States by the continuous whistle of locomotives. With these two lines in operation we can do the twenty-one thousand miles with ease and comfort, and the other three thousand across the Atlantic in five days, or possibly less.

That is something to look forward to.—New York Herald.

Physicians endorse and use Hall's Hair Renewer to cure gray and faded hair.

No matter what may be the ills you bear from indigestion, a dose of Ayer's cathartic Pills will ease you without question. Just try them once and be assured; they have much worse dyspeptics cured. You'll find them nice and amply worth the price.

Many years of practice has given C. A. Snow & Co., Solicitors of patents at Washington, D. C., unsurpassed facilities for obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column, will be of interest to inventors, patentees, manufacturers, and all who have to do with patents.

Editor Whitehead of the "Observer" has an office boy who is of a very inquiring turn of mind. He strolled into the sanctum yesterday with the query? "Mr. Whitehead, how can these astronomers foretell eclipses?"

"That's very simple," said he, wheeling his chair. "It is upon the same principle that you can take that pail and get some fresh water that I've been suffering for this last half hour."

Some years ago we prepared but did not publish, a paper entitled "The Capture of Bull Frogs as a New Industry." Our purpose was to show that the hides might be made into valuable leather and the hind legs shipped on ice to the restaurants of the northern cities.

We have lately read that an extremely tony shoemaker has tried the experiment of patching with all kinds of leather including that made from frog skin, and the batrachian took the prize.

We are further informed that a man in Indiana realizes an income of fifteen thousand dollars per year shipping frog legs to the eastern markets.

Now, what's the matter with making our musical North Carolina swamps a source of revenue? In Sampson and Duplin counties frog catching might prove a remunerative adjunct to the huckleberry business.

PHIL BARTON.
BROADWAY.

Mr. H. B. Thomas lost a fine horse a few days since. Mamie Watson, daughter of our M. M. Watson, has been quite sick but is much better.

The conditions of Mrs. J. R. Thomas is much improved. Crops now look as if they will "get there."

Messrs. R. B. Douglas, N. D. and Daniel Underwood, Mr. Bradshaw, and others went to the mouth of Cedar Creek fishing a few days ago, and caught so many fish that Mr. N. D. Underwood is losing his toe-nails, and I shall not wonder if the others of the party were fondered.

SAM BOWS.

Setting Out a Peach Orchard.

Use trees only one year from the bud and don't buy them from a tree agent but get them from a nurseryman, who will not cheat you. In planting don't set them any deeper than they grew in the nursery. Trim the bruised ends of the broken roots smooth with a sharp knife. Then trim off clean all the branches made in the nursery and cut the stem square off at the height you want to form the head, leaving the tree about the size of an ordinary walking-stick. When growth begins in spring the buds will start all along this stem. Rub off all except three or four at the top, which will make the future head. The next winter these shoots should be shortened one-half, and the same practice followed annually. Plant 16x16 feet and cultivate in a hoed crop. In fall sow crimson clover and plow it under in spring for manure.—W. F. Massey, North Carolina Experiment Station.

THE JONESBORO CASH STORE

OF M. E. SLOAN,

DEALER IN Dry Goods; Notions, GROCERIES Hardware and Furniture.

WE are now offering special inducements to CASH buyers. Examine our stock and prices before you buy. 15-15

North Carolina, Moore County, Office of Clerk Superior Court.

In the Matter of Incorporation of the Jonesboro Iron Works Company:

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY THAT, whereas Melver T. Dalrymple, T. N. Campbell, Jesse L. Godfrey, J. T. Kelly, L. Acres, W. E. Murchison, S. J. Neal, W. J. Kelly, J. A. Nelson, M. J. Thos. r. W. H. Hancock, George H. Caddell, D. H. Arnold and R. F. Thomas, have filed in this office an application for Letters of Incorporation of the Jonesboro Iron Works Company,

And, therefore, pursuant to such application, and according to the provisions of Section 679 of the Code, the said persons and their successors are hereby declared to be a party or body corporate, for the purpose of conducting a machine and foundry business, embracing in its scope the making of molds and moulds, the casting of and from same, the manufacture of machinery and fixtures appurtenant to and connected with such casting, the casting and manufacture of a certain water-wheel known as the "Kelly Turbine Wheel," patented under the laws of the United States, and for the moulding, manufacture and casting of plows, cook stoves, heating stoves, plow points, agricultural implements and all other articles of a similar character, not prohibited by law, under the corporate name of the "Jonesboro Iron Works Company," with a capital stock of three thousand dollars divided into shares of fifty dollars per value each, with privilege of increasing said stock to ten thousand dollars with shares of equal value.

The place of manufacture and business shall be the town of Jonesboro, Moore County, N. C., and the said corporation shall be entitled to use a common seal, to elect officers, to adopt by-laws for its government, and have and exercise all such privileges, and be subjected to all such penalties as is prescribed by law for the regulation of like corporations. The corporation hereby credited shall continue for thirty years unless sooner dissolved in some manner provided by law.

In testimony whereof, I, D. A. McDonald, Clerk of the Superior Court of Moore County, have hereunto set my hand and affixed my official seal at office in Carthage, this 6th day of April, 1891.

D. A. McDONALD, Clerk Superior Court Moore County.

CENTRAL HOTEL, PITTSBORO, N. C., A. DEVENDORF, Proprietor.

Formerly of Schenectady, N. Y., and Atlantic City, New Jersey.
