VOL. IV. JONESBORO, N. C., WEDNESDAY, JULY 29, 1891. NO. 19

## MOUNT VERNON SPRINGS

### UNDER NEW MANAGEMENT.

MOUNT VERNON SPRINGS are equalled by few and surpassed by none in the State for the medicinal properties of its mineral waters. Some of its cures are almost miraculous. Unlike many mineral waters, the taste is pleasant, cool, palatable and refreshing that you do not wait a few days before you can enjoy it, but the desire and love of the water increases daily.

Besides the old springs so well established and widely known by their great medicinal properties, there have been other springs recently discovered which contain high medicinal properties. The

### Fine Curative Properties

of these waters are increasing in reputation and popularity. The springs are surrounded by great natural beauty, with a high elevation above the sea level, and the

### AIR IS PURE AND INVIGORATING.

The Management will employ competent help in each department, and is determined to make a delightful home, dedicated to health, rest and pleasure, where his guests may find every aid, comfort and convenience desired. The proprietor desires to make it a

### Resort for both Northern and Southern Guests.

Medical scientists pronounce this place

### Nature's great Sanitarium,

and have volunteered to testify to the virtue of its waters.

### Amusements:

A new Piano, a good Band of Music, Bowling Alley, Lake Boating, etc., etc. Five hundred feet of Piazza room.

Mr. Vernon Springs is situated in Chatham County, N. C., one mile west of Ore Hill depot, on the Cape Fear & Yadkin Valley Rail Road, within two miles of Greensboro and Fayetteville, and is a charming spot to those who seek a place of

### Rest and Recreation.

The dining-room has been furnished and fitted up with an eye single to the comfort and convenience of the guests. The rooms can have been furnished.

Address,

J. D. BUIE, Manager.

Mount Vernon Springs, Chatham Co., N. C.

## Douglass & Shaw,

Attorneys-at-Law.

CARTHAGE, N. C.

Practice in the Federal, Superior and Supreme Courts of the State.

## W. E. MURCHISON,

Lawyer & Notary Public,

Will attend to business in the Superior and Supreme Courts of the State upon invitation. Will not attend Justice's courts (except in Jonesboro and Sanford), without cash in advance.

## DR. J. A. BALLENTINE

DENTIST.

202 Sprague, near LEADER Office, Jonesboro.

## W. H. McNEILL,

Attorney and Counselor-at-Law.

CARTHAGE, N. C.

Will practice in any of the Courts of the State. All business entrusted to him will receive prompt and careful attention.

Office in Court House Building.

## Announcement.

THANKFUL to my many friends in Moore and adjoining counties for their confidence and liberal patronage in the past, I wish to say that I am located in the rooms next door to W. A. Sloan & Co., in Jonesboro, where I can be found when not called off on professional or other important matters.

A. J. MONROE, M. D.

## W. H. HUMBER,

UNDERTAKER and FUNERAL DIRECTOR, Jonesboro, N. C.

Keeps a fine line of Burial Cases in solid walnut and imitation, gloss white, and imitation rosewood; glass face-plates, highly mounted and trimmed. Common coffins also. Professional services rendered when desired.

Calls Promptly Attended To, night or day.

## COMMUNICATIONS.

### BROADWAY.

Rev. D. N. McLaughlin preached an excellent sermon at Salem church last Sunday.

Mr. T. D. Hunter lost a horse a few days ago.

The battle with "Gen. Green" is about over, and as the smoke clears away, we behold substantial evidence that bread will be plentiful here another year. Cotton may be a few days later than it was last year. Wheat is turning out very well from the straw.

Seasons have been exceedingly fine, some places have been too wet, the past week. Can it be that the Ohio "season" man has been monkeying with the rain gates?

Rabid dogs, cats, cows, hogs and sheep have been quite common a little North East of this place. Moonlight strolls and love-making at the gate have been entirely suspended for several weeks. Some cross-grained parents don't care whether the mad dog excitement ever blows over or not. Three couples are about ready for the marriage ceremony and negotiations are pending for many more. You will hear from us later. SAM BOWS.

### BURLOW.

Well, its time for the LEADER again. For the last three times we have written it found its way to the waste basket or some where else. We are confident it did not appear in the columns of the paper.

We have plenty of rain and fine crops. Mr. A. A. Kelly has the finest crop of corn he ever had since he has been farming.

Rev. G. R. Underwood preached an excellent sermon to a very large crowd at Shallow Well on last Sunday morning.

The Mission Band which was to meet at Shallow Well Sunday evening was postponed on account of the rain but will meet 4th Sunday in next month, at 4 o'clock p. m.

Mr. James A. Thomas, and brothers Scott, and Tony, of Winston, are visiting their parents and friends in and around Jonesboro.

All aboard for Wilmington next Saturday for a good time.

Mr. McLeod, of Harnett, owns a queer wagon. He can only take it to Jonesboro just after or in time of a big rain. What is the cause?

For fear this will be lost on the way we will not write any more, but would be very glad to hear from Old Cruth, also Mr. Lie Low and uncle Sam Bows. PEERABOO.

THE Senate sub-committee which is engaged in finding out the effect of the McKinley tariff act on things in general is now at Narragansett Pier, presumably to study what effect the law has had upon the gorgeous bathing suits of the shapely girls who have made that resort famous.

WE don't know how much Sam Small, the ex-newspaper man and present evangelist, knows about it, but he said to a big crowd in New York: "I want to say that no man with the whiskey record of David Bennett Hill will ever get the vote of the South in the democratic National convention."

THE Grant monument in New York hasn't been built, and it is not at all certain that it ever will be, but the announcement is made that the committee will place on sale about the first of September a large engraving showing the monument and grounds as they will appear when the former is completed. An engraving showing the present bare condition of the ground ought to entice more subscriptions.

Mr. Politician: Give, oh give us a rest, at least until cool weather.

THE Ohio campaign this year seems to be a sort of "Billy" and "Jimmy" affair.

"THE true story of Mr. Blaine's illness," is getting just a little monotonous, notwithstanding it is different every time it is printed.

It is not encouraging to old maids, but it is nevertheless true that the marriage rate is constantly decreasing in this and other countries.

IN view of the failure of the European crops, and the prospective high prices for American cereals, it would seem that our greatest present need is, more harvesting and less politics.

WHEN Germany becomes a republic and miser Wilhelm loses his job he might utilize his recent experience by becoming a theatrical "lightning change artist", retaining his present extensive wardrobe.

ACCORDING to Senator Hale reciprocity is to be the main issue in the Presidential fight and the Farmers' Alliance will support the republican ticket. It is but fair to state that Mr. Hale is not what might be called an unprejudiced prophet.

### AN OPEN LETTER

To the People of the South:

If a merchant has goods to sell he does not expect a customer to buy until he sees the quality and price.

If the South has lands, water powers, minerals and timber to sell they cannot be sold unless they are advertised, and unless what they are capable of producing and the quality is shown to those who desire to purchase.

The opportunity presented to the people of each county in the South to advertise its resources, free of cost, at the Southern Inter-State Permanent Display and Exposition is an exceptional one, and no wide awake section can afford to be left out.

Below we give a list of articles and the quantity that can be exhibited. It will cost but very little to collect the articles for exhibition, and all southern railroads are transporting the exhibits free. All that is necessary is to direct to Southern Exposition, Raleigh, N. C.

The following are among the articles that are desirable from each section of the South to place in the Southern Exposition to be held in the city of Raleigh, N. C.

One-half bushel of each variety of the following: Barley, buckwheat, corn, oats, rye, wheat, rice, grass seed, field peas, beans, dried apples, peaches, quinces, prunes, cherries, wild and cultivated berries, nuts and acorns.

Preserved fruits in half-gallon glass jars.

One to ten pounds of each variety of cotton in seed and lint; flax and jute in various stages of manipulation.

Ten pounds of each variety of sugar; one gallon of each variety of molasses and sorghum; honey, one quart or one to ten pounds in comb.

Two pounds of each variety of tobacco.

Ten pounds of each variety of grass; one bundle, six inches in diameter, of each variety of grain in sheaf.

Hops, five pounds; broom corn, ten to twenty five heads; garden peas and beans, one gallon of each variety dried.

Plants and growing shrubs in pots. Spirituous liquors, wines and all kinds of liquids, one quart of each variety. Minerals, building stones, precious

stones, marl and phosphate rock, any size specimens; soils, one foot square as deep as desired, box up so as to retain the same shape as when taken from the ground.

Wood and timber specimens, if in sawed form, one inch thick, any width and length; if a section is sawed from the tree, to be any size desired; if split from the tree, the section to be large enough to square at least two by four inches, by four feet long.

Manufactured goods, from cotton, wool, flax and silk, each sample, usual width, six yards long; from wood or iron, one specimen of a kind.

Stuffed birds and animals; Indian relics and curiosities; photographic views of buildings, farms and scenery, one of a kind.

The above lists of articles may be added to, both in variety and quantity, according to what is produced, manufactured, or found in each state or community.

The cheapest means of advertising is to have a dozen columns of one issue of your county papers devoted to the advantages that your county can offer to land buyers; and have one to ten thousand printed, and send to us for distribution among the large number of visitors who will attend the Permanent Display, which is continuously open to the public, and the Exposition proper, to be held during October and November. The visitors will expect to see what the South has to offer home seekers and capitalists.

Do not wait until October. Take this up at once, for the Permanent Display is now being arranged in the city of Raleigh. The Permanent Display will be kept open all the year round so that what is sent in at once will be doing your section great good, and you can add to it from time to time as you make collections.

Respectfully,  
J. T. PATRICK, Sec.  
Raleigh, N. C.

### Now is Our Chance.

Elsewhere will be found the open letter of Mr. J. T. Patrick ex-Commissioner of Immigration for North Carolina, now Chief of one of the most important branches of the Southern Inter-State Immigration Bureau. We join with Mr. Patrick in urging the people of our section to see to it that a fine display of products is sent in at once to the Southern Exposition, Raleigh, N. C. Railroads ship everything for exhibition free. We shall be glad to receive from our farmers fine specimens of grain and grasses of every variety, and see that it is sent to Raleigh as directed. Many people seeking homes will visit the Exposition, and those sections which have the most complete exhibits, especially of grain and grass, will reap the largest reward, while the sections which do not heed the advice and show little enterprise by not having any display, need not expect any results from the efforts now being made.

All people acknowledge we are overstocked with idle lands. That we need more manufacturing enterprises, and that new settlers with means add to the prosperity of our native people; but in most sections the people do not in any way try to seek the remedy for hard times that we are all sure would redound to our benefit.

Now, that the chance is offered us of exhibiting what we have to attract people, and without the expenditure of a single cent, we do hope every county in this state will be handsomely shown up. Recollect that it is important to show what kinds of grain and grass grow and thrive in our soil.

The suggestion Mr. Patrick makes as to issuing special editions of the county newspapers is a good one. We will take the advice of Mr. Patrick and make the canvass at once, as there is no time to be lost. The display at Raleigh is to be a "HUSTLER". They propose to show that there is pluck, energy and get up in the South; and

that in two months' time a grand success can and will be made. This is going to be one of the best chances for advertising our resources, and we propose on our part to lend every assistance to have this county and section fully represented.

We say to the business men and our subscribers generally, we do not propose to make any money out of the special edition. If we can get anything like cost we shall be satisfied; for we know that the advertising and building up of this section means the building up of every interest and industry of the county, and the ennobling of every person's property, and the placing of new money, outside money into everybody's hands. Therefore we are willing to do our part.

### Michigan's 24,000,000 Bushel Wheat Crop.

The Michigan monthly crop report for July is the first official estimate of the probable total yield of wheat from this year's crop.

The estimate is 24,681,558 bushels, and this is probably low.

The area is 140,000 acres in excess of that harvested in 1890.

The area planted to corn is 3 per cent. less in the southern counties than in average years, and the condition not up to the average.

Ayer's Cathartic Pills are recommended by the best physicians, because they are free from calomel and other injurious drugs, being composed of purely vegetable ingredients. While thorough in their action, they stimulate and strengthen the bowels and secretory organs.

It is announced in Washington that Wannamaker will materially reduce the appropriation for the fast mail from Washington to Tampa, Fla. This service was established under the Cleveland administration, and has afforded the South Atlantic States a faster and better mail service than they had. Wannamaker proposes by "a penny wise pound foolish" policy to cripple this service, and thereby seriously affect business South.—Winston Sentinel.

### The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into Nervous Prostration.
