A GAY DECEIVER.

George Gilligan a Bigamist Arrested and Brought to Wilmington for Trial.

George Gilligan, a white man, was brought to here on Thursday from Augusta, Ga., and lodged in jail to answer an indictment charging him with bigamy.

Gilligan came to Wilmington about a year ago from Danville, Va., and secured employment at the Industrial Manufacturing Works. About four months ago he was married to a young woman named Eva Landing, daughter of Mr. L. C. Landing, a carpenter, living in Brooklyn. Shortly after his marriage to Miss Landing a letter was received by a member of the family divulging the fact that Gilligan had a wife living in Virginia, whom he had heartlessly abandoned. Inquiry was made and the fact was fully established, but in the meantime, Gilligan left Wilmington. The young woman he had so cruelly deceived here, soon after his departure went to Charleston, S. C., to visit a married sister, and while there heard that Gilligan was living in Savannah, Ga. A detective was put on his track, and he was finally found and arrested in Savannah Ga.

Gilligan will be tried at the September term of the Criminal Court, and in all probability will be sent to the State penitentiary for a long term.—"Star."

Gossip.

BY E. W. PORTER.

"Only a bit of harmless gossip," said a young lady as she dropped an insinuating remark concerning an acquaintance.

Is gossip ever harmless? Can we tell "idle tales" of others without lowering our own moral standard? And what probabilities are there that others, on whose acts we take the liberty to comment, will not suffer, when viewed from our standpoint, with our ignorance of motive and circumstance?

We do not need to learn from Sophocles that

"A little word is not a little thing,
For it may make and it may mar a king."

If, as one has it, "of every noble thought the silent part is best," how much better is the silent part of all that thought that is less than noble, true, and uplifting?

Of the many clubs, both good and bad, that like mushrooms have sprung up of late, none is more to be fostered than the "Speak-No-Evil Club." "Is it true? Is it kind? Is it necessary?" are questions that its friends are expected to ask themselves before uttering any words regarding another. What a fund of good will and charity would pass down to the next generation, were the world to-day loyally pledged to the just and loving rules of such a club!

If we would only coin more of the gold that comes from silence, how light would be the left hand scale in the great balance of right and wrong; if, when we speak kind, loyal and helpful words alone fall from our lips, how heavy will become the scale of right and truth in the balance!

We want the true manhood and womanhood that is brave enough to silence all gossip to cheer even its unspoken thought, to conquer the low taste of which that thought is born.

"Fear to be base, unworthy things is valor
It may be done to us; to suffer them
is valor."

Its Cruelty. Gossip is rarely clothed with mercy. It opens the bleeding wound. It magnifies and exposes the peculiarities and deformities of those whose rights should be sacred. It forgets the beautiful thought of Shakespeare, when he said:

"Will thou draw near the nature of the gods?
Draw near them then in being merciful,
Sweet mercy is nobility's truest badge."

Reflex influence. They who deal in gossip are untrue to themselves. They soil their own honor more than they tarnish the names of their victims. Says Bossuet: "Honor is like the eye, which can not suffer the least impurity without damage. It is a precious stone, the price of which is lessened by the least flaw."

Plenty of Fruit in New England. General Crop Prospects.

According to the official reports of the U. S. weather bureau the weather of the past week has been very favorable to the interests of the New England farmers. Probably, all things considered, the best of the season. However, more degrees of heat, warmer days and nights, are much desired. The cool, cloudy days, with more or less fog, have caused very slow advancement of the corn and tobacco crops.

In most sections the soil continues in good condition as regards moisture, though rain would be beneficial in parts of Massachusetts and Connecticut. Heavy winds preceding or accompanying thunderstorms have done considerable damage to crops in parts of New Hampshire and Maine; fields and roads have been badly washed by the rains, and several buildings burned by fires resulting from lightning. Nevertheless, over the greater portion of the districts the conditions have been favorable to harvesting of grain and grass.

These crops continue to turn out much better than expected, and generally of superior quality. Corn and tobacco are now very promising, also potatoes, except for southern sections, where they are being dug, are found to be very small.

As a rule, favorable reports of fruits are received from all quarters. In some sections apples may not average as well as anticipated earlier, but as a crop the yield will be good. Pasturage is excellent, and stock will be in fine condition for winter feeding.

The present conditions and outlook of farming interests of New England are fully up to the average, and farmers are mostly well satisfied.—Boston Globe.

Many years of practice has given C. A. Snow & Co., Solicitors of patents at Washington, D. C., unsurpassed facilities for obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. CAMERON.

Hot! hotter! hottest!!

Crops are looking well, but rust is beginning to show both in corn and cotton. We have very good corn up here, but it does not make so much fuss shooting as Mr. Harrington's, of Harnett.

We suspect that Mr. Thrower got his pumpkin seed from a friend of ours who used to live down on Black River. He had a vine that grew under the corner of his stable (it being some distance from the river) and went across the field, also across the river. He being busy, did not trace it up until very late in the fall. All this time he had a fine sow missing. He crossed over on the vine and followed some distance when he came to a monster pumpkin. He started around it and after journeying for a while he came to a hole in the pumpkin, and looking in, he discovered his lost sow with a fine litter of pigs, apparently several months old and he did not think they were more than half done eating the seed. Mr. Thrower watch your hogs!

Mrs. G. G. Muse, of this place, died on the 11th. inst., and was buried at Carthage on the 12th. She leaves a husband, eleven children and a host of friends to mourn their loss.

Revs. W. G. King and W. F. Watson closed their meeting at Ephesus last Thursday. There were several professions and five additions to the church. Mr. Watson did most of the preaching, and as usual he did it with power.

Hostilities have ceased, the fight was short, it was all home-made ammunition, it was worthless and the fort they proposed to charge, was full of shell, powder and shot.

One of A. C. Campbell's hands was seen this morning crawling out of Herds Creek with a 13 1/2 turtle by the tail. Their burn at Aberdeen has set them to hunting.

Miss Maggie Marks, of Chatham, is visiting the family of Rev. W. G. King. Mamie Lawhon is visiting Sis Cameron.

Now if ye editor sees us dodging around the corners at court please don't follow us.

A well authenticated rumor was current yesterday that a white man named Kelly, one of the persons arrested for the murder of Simeon Conoly in Robeson county, a few months ago, was assassinated by unknown parties Friday last.—Wil. Star.

THE CONOLY MURDER.

Particulars of the Arrest of McDougald, the Alleged Murderer in Oregon.

The Albany, Oregon, Democrat, of the 7th inst., says:

Saturday evening Sheriff Scott returned from Spicer with D. A. McDougald, whom he had arrested in response to a dispatch from W. A. Pinkerton, of the Pinkerton detective force of Chicago. McDougald admitted that he was the right man. The following dispatch, dated at Chicago, July 30th, and signed by Pinkerton, received by the sheriff, explains the whole matter.

"D. A. McDougald, alias Jones, is wanted at Laurinburg, N. C. for the murder of Simeon Conoly, committed April 21st, 1891. The authorities at Laurinburg offer a reward of \$300 for his arrest and detention until papers arrive for his extradition. McDougald is said to be now at Spicer, Linn County, Oregon, going under the name of D. H. McLaurin. His description is 33 years old, 5 feet 10 inches high, light hair and heavy sandy mustache. Since his departure he has dyed his hair black and shaved off his mustache; gray eyes and complexion light, reasonable weight, 160 pounds, rather medium or spare, straight nose with sharp point, face rather narrow; joints of the feet where the big toes join are unmistakably large and shoes are made to fit these joints. Will write you enclosing photos and certified copy of indictment upon which you can arrest him and then communicate with the authorities at Laurinburg, N. C."

Another Murder Reported in Richmond County.

A special dispatch to the Wilmington Messenger dated Hamlet, August 15th says: "A man brought the news here this evening that a man named Cherry shot and killed a negro working in a field near Old Hundred yesterday evening. The negro begged Cherry not to shoot him again after he fired the first shot, but he gave him the other barrel of a shot gun and finished him."

Increase of Crime.

Let any one scan the daily press and see the record of murders, shootings and crimes and then dare to say that crime is decreasing, recently our paper had several such records, and yet it was but a mere bird's eye view—a speck on the horizon of crime. With the growing blood-thirstiness of men and the drunkenness that prevails human life is cheaper in the United States than ever before and possibly the criminal statistics, if fully gathered, would show our country to be only second to Italy.—Wil. Messenger.
