**Perfume Stone Portraits!**

GEN. U. S. GRANT.

About a Sabbath day's journey East of the regular travel road that the guides take tourists and Pilgrims over when on their way from Cairo to Jerusalem has been discovered a most wonderful formation of Crushed Rock or Sand, that in the hands of an expert artist can be moulded into the most beautiful Portraits. It being entirely different from any substance yet discovered great attention is being called to it by Geologists, Scientists and Explorers. The region is very wild, and dangerous to those not travelling in the regular Caravans. It is the only Stone that emits a fragrant odor or Perfume that we have any account of, and what is most remarkable no Arab miner can be induced to enter this shaft after midnight, as they are superstitious enough to believe that there have been heard coming therefrom soft strains of music like the playing of harps. Some natives believe that beneath this Spot there exists an Eternal Garden, in which Flowers have been in constant bloom since the Creation. Missionaries and Travellers who have visited that locality state that the fragrance from this wonderful Sand formation fills the air for many miles around, and tourists from every nation and clime carry away small pieces to their homes in other lands as relics of great value. By a process lately discovered this Egyptian Sand can be very beautifully pressed or formed into Tablets of Solid Perfume Stone, and it can be moulded into any form desired by an Artist who is an Expert in Carving on Stone or Cameo. In Egypt they have moulded this Sand into Portrait Medals of the Saviour, and the Apostles; in Turkey the Stone Medallion Portrait of the Sultan is made from this Perfume

GEN. ROBT. E. LEE.

Sand and now in America we are happy to announce that the Egyptian Sand has been formed into the most accurate likenesses of a few noted persons. The Portraits thus far made are the exact size and style of those of Gen. Grant and Gen. Lee printed here. We have now a few Medallions of the following named persons—  
H. W. Beecher, Gen. Grant, Queen Victoria, Pres. Cleveland, J. G. Blaine, Abm. Lincoln, Wm. L. Garrison, Gen. Sherman, Gen. Sheridan, Gen. M. J. Lee, Pope Leo XIII, Gen. McClellan, Alexander the Great!  
and they are Solid Perfume Stone. Wonderful works of Art. It would cost a hundred dollars to get a Portrait cut in marble or cameo like these. They are larger and thicker than a Silver Dollar, and have the appearance of being carved out of Solid Stone. This Egyptian Sand is the same color as the Pyramids of Egypt, and what is most singular, the sand is fragrant and emits a sweet delicate Perfume. When you enter a room containing these Portraits you feel as if you were just entering a Flower Garden in bloom, and this Perfume Sand will penetrate even the clothing you wear. If you hold one of these Portraits in your hand a few minutes it is difficult to wash the lovely odor from the skin, and it has to wear out. They are a great Novelty, and should not be sold for less than \$3 each, as there are so few of them to be had, but if you will show our Catalogue to a few friends we will send you One Medallion Free. You must send us the following Coupon with 10 Cents in Postage Stamp for boxing, mailing and other expenses. (SENT FREE.)

**COUPON ORDER** 8643  
**THIS COUPON ORDER** Is Good for ONE Perfume Stone Portrait. If cut out and sent back to us with TEN CENTS to pay return postage, boxing and other expense. (You can select any one of the Thirteen Persons named above.) This Offer is made only on condition that you promise to show this Circular to a few of your friends. [No. 8643]
