MISS BESSIE FARRELL, 1011 Third Ave., Brooklyn, N. Y., is President of the Young People's Christian Temperance Association. She writes:

"Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women.

The surgeon's duties require clear judgment and a steady hand. A slip or an unnecessary incision may do irreparable damage to the patient.

When he found that coffee drinking caused his hands to tremble, an Ills. surgeon conscientiously gave it up and this is his story:

"For years I was a coffee drinker until my nervous system was nearly States the right to withdraw." If, broken down, my hands trembled so I he said, Mr. Cockran was correct in could hardly write, and insomnia tortured me at night.

Doings of Our National Law-Makers Day by Day.

Aldrich Bill a Target.

After passing the penal code bill the Senate on motion of Senator Aldrich advanced the emergency currency bill to the position of unfinished business, giving it unquestioned right of

Speeches on the currencey bill were made by Senators Culberson (Democrat, Texas), and Nelson, Republican. of Minnesota.

Mr. Culberson outlined a number of amendments he will submit to the bill; one providing that after January 1st, 1909, every national bank shall keep on hand in its own vaults the reserve of lawful money required and repealing the permission to keep a part of the reserve in other national banks; also making it unlawfui to deposit public money in any national bank to be used directly or indirectly by the banks in speculative dealings in stocks and bonds or to supply funds to any operator on the stock exchange to be used in dealings on the exchange and making it unlawful for national banks to make demand or other loans or give credit on their books to operators on any stek exchange to be used in dealings on the exchange.

#### Denounces Aldrich Bill.

Mr. Culberson then denounced the pending currency bill, which he said, would give additional power to those whose machinations and lawlessness support and create such financial disturbances. He contended that the bill would make a market for securities. which was what the "financiers" want.

"Whatever the cause of the finangial crash be," he added, "it was inexcusable and unwarranted by conditions and in some of its phases was eriminal and infamous." Contending that there was no industrial cause for the panic he cited statistics exensively to bear out his contention. When the out-of-town banks were calling for the money from the New York reserve banks, he said, \$251,-000,000 was loaned out on demand

notes on stocks and bonds. What was needed, he continued, was not more currency but honest and legitimate banking unassociated with high finance,

#### Money Power Dominate.

In concluding Mr. Culberson declared that the money power has always dominated legislation from the "packing" of the Supreme Court of the United States in the legal tender case down to the law passed last year, which gave the national banks without interest the use of \$250,000,-000 of public money.

Senator Nelson's speeca was an argument in support of his amendment providing for the guarantee of deposits in national banks.

Declaring that the trouble with the country during the recent currency exigency was not caused by a lack of money, but by the difficulty of keeping it in circulation, Mr. Nelson analyzed the banking conditions last fall and drew the inference that the crisis originated in the East and not in the West.

#### Dalzell Defends Tariff.

An exhaustive speech in defense of hibiting the use of the national flag Republican policies was delivered in the House of Representatives by Mr. Dalzell, of Pennsylvania. He referred to the several political speeches that have been made in the House and said that the most noticeable thing in the discussion had been the measure of credit the Democrats are willing to concede to President Roosevelt.

> The issues in the coming campaign for the presidency, Mr. Dalzell asserted, would be found in the records of the parties and he said: "The Republican party invites the issue upon every ground, on that of its professions, its achievements, its consistency and its loyalty to principles and pledges."

#### Democratic Doctrine. Mr. Dalzell declared that the in-

destructibility of the Union, which Mr. Cockran attributed to Andrew Jackson, was the antithesis of Demoeratie doctrine until 1865. "Until that time," he said,"Democratic doctrine continued to be the doctrine of the Kentucky and Virginia resolutions of Jefferson and Madison, namely, not only that the Union was not indestructible, but that it represented only a compact from which there existed upon the part of individual saying that the indestructibility of the Union was Democratic doctrine in 1861, "then he has stripped the Democratic party of the South, who fought to destroy the Union, of every vestige of claim that in so doing they believed they were acting within their rights." When the people of the South made war on the Union, said Mr. Dalzell, they either believed in the doctrine of the Kentucky and Virdemnation of history.

As to Tariff Revision.

Coming to the subject of the tar-iff, Mr. Dalzell referred to the beneficial effects of protection and declared that under it the United States had grown to be the greatest of manufacturing nations. He did not be-

me normal, no disziness nor heat shes.

"My friend became a Postum enusiast, his whole family using it exists well to recognize the claims of those who think there should be some who brewed the Postum if it did not taste good when served.

#### SPRING HINTS FOR FRUIT PLANTING.

Look over the orchard in spring and if you find any dead trees, mark them for removal later in the season and send in an order for some standard variety to take their place. The way to keep the orehard up is to plant new trees as rapidly as old ones die off. In ordering new ones, be sure to select something a little better, if possible, than those which have died. We have so many choice varieties, nowadays, that one cannot afford to plant anything but the best.

Set out currants and gooseberries if you have none already growing. No country home can afford to be without these delicious fruits. If the old plantation of them seems to be retrograding, make a new one, in some other part of the grounds, and let the old plants give one more crop of fruit before uprooting them.

Strawberries can be set in spring, as soon as the ground opens. If you have old beds of this fruit which were neglected last fall, go over them and cut out at least half of the old plants, using a sharp hoe for this purpose. This will give the old plants a chance to spread a little, and you can expect a fairly good crop of fruit from them. But as soon as the crop has ripened, spade up the bed, and plant something else there, depending on the spring-set plants for berries next season.

Have you grapes? If not, plant some this spring. We have no healthier fruit, and every family owning a lot ought to grow a goodly supply for home use.

Do not fail to set out plenty of raspberries and blackberries to take the places of old exhausted plants. In order to secure good crops of fruit of any kind, it is necessary to have stock that is strong and healthy, and this can only be secured by frequent plantings. Never allow old plants to remain after they begin to show signs of failure.—From "The Country Home," by Eben E. Rexford, in The Outing Magazine for March.

#### Hog Cholera.

The greatest drawback to the hog industry which breeders in this country have to contend with is what is known as "hog cholera" and "swine

plague" Hog cholera is a highly contagious disease and unless checked is liable to carry off a great number of hogs in a very short time.

Mr. A. P. Williams of Burnetts Creek, Ind., tells of an experience which he had with some hogs that had the cholera. "Five years ago," says Mr. Williams, "I was in the employ of Mr. J. D. Richardson, Lafayette, Ind., as his barn foreman. Some fine hogs that I was feeding took the cholera. I gave them Sloan's Liniment and did not lose a hog. Some were so bad they would not drink sweet milk and I was compelled to drench them. I have tried it at every opportunity since and always find it O. K."
