

Simmons' Friends Form County Club.

The adherents of Senator Simmons, in his candidacy for re-election formed a Simmons club in Charlotte yesterday, beginning with a membership of 1,000 names. Walter S. Pharr was elected president with power to name his own executive committee, consisting of three, who will appoint one vice-president in each of the precincts of the county.

Mr. Shannonhouse moved that every member be constituted a committee of one to preach the Simmons doctrine.

Chairman Morrison called W. C. Dowd to the chair and made what may be termed the key note speech of the newly-formed club.

"Mr. Simmons," he said, has not made himself senator, and is not trying to make himself senator now by trying to tear down or impugn the motives of anybody else. We champion his candidacy on the basis of what he has done, what he is doing, and what he will do. He has been assaulted, abused and mis-represented more than any other North Carolina has ever been. We hear it charged that the greatest leader the democracy of North Carolina has ever had is not a Democrat.

"His record in the United States senate is the record of his party. The single exception is the reciprocity bill on which the party was not committed. Those who charge him with recreancy for his vote against it, forget that in this he voted not only against Democrats, but against republicans, as well, for it was the pet measure of President Taft. That vote, I believe, has been approved by the democrats of North Carolina. Our own Yates Webb voted as he did and he was triumphantly re-elected."

The speaker proclaimed Mr. Simmons the real leader of his party on the senate finance committee, referred to the day when he "led a revolution" at a time when Claude Kitchin's own district was represented by a negro, and urged his hearers not to permit Mr. Simmons to be "lied and slandered out of the hearts of the people of North Carolina."—Charlotte Observer, 14th.

Has Relatives Here.

Hoke Smith, governor of Georgia and a live wire in the politics of that State is a native of North Carolina, being born at Newton. He has relatives here among the McBrayers and Millers.

Mr. W. H. Miller got the future Governor a job in a little Georgia town while he was a young man. Mr. Smith was 17 years old and weighed 180 pounds at the time. Mr. Miller had given up a school in Georgia when Mr. Smith came in and asked him for a job. He recommended him to the school and the young man entered upon his duties. He gave satisfaction and has been giving satisfaction ever since in public affairs in Georgia.—Shelby Star.

"The star of Aycock passed beyond our ken, with surroundings peculiarly fitting. He died as he had lived, with his voice raised in behalf of the boys and girls of our Southland. We will remember him in life from his boyhood days, throughout the various scenes of his eventful career. We will remember him in death, when in a distant city, in a thronged assembly, with every ear bent to catch each eloquent word which fell from his lips, with ten thousand eyes fixed upon him, the curtain fell and he was no more."

Directions for using come in each package. Care should be taken in placing meat with sharp skewers or bones that will pierce the bag.

The bag should not be moved when put into the oven, as the heat makes it very tender. When ready to take out, place a pan under it and draw out gently on to it or the platter on which it is to be served. Open the bag and remove the contents. One mistake which is made by many is that of putting the filled bag into a pan. It should be placed directly on the tray rack, so that the heat has free access to every part of it. If the bag bursts, slide it into another, keeping a pan on the bottom of the oven to catch all the drippings.

These bags may be purchased of any merchant, or he will be glad to keep them as they are becoming more and more popular as they are known.

A Dream.

(By Request)
"Lay up for yourselves treasures in Heaven."

A very rich Christian woman relates the following dream, which may be of service to many of our readers:
She dreamed she had died. An angel received her and led her to the throne of God, that she might be shown the dwelling which had been prepared for her.

The thrice blessed one gave answer to another angel who accompanied her. Next they came to great and beautiful palaces. Each one seemed more imposing than the last had been. "For whom are these beautiful dwellings?" The woman received answer: "Your maid will live here." "Oh," she thought, "if she obtains such a fine house what will mine be?" Only one thing seemed strange to her, that they were always getting farther from the throne which was in the center of the glorious city. However, she calmed her fears with the thought that it was here the same as in large cities upon earth, the grandest mansions lie in the suburbs. Still the farther the two went and the nearer they came to the walls of the city the smaller and less attractive the buildings were, until they paused before a little hut. In astonishment the soul cried out: "What, shall this little shanty be my home?" "That is the best we could build with the material you sent here," quietly answered her companion with decision. "On the contrary, your maid sent gold, silver and precious stones in rich quantity. Her service rendered (in quite fidelity) unto the Lord and not to men, the mite which she gave out of her poverty, the spare minutes she used in quite prayer—all these became costly material, out of which her Jesus (the one most lovely, the idol of her heart) has built such a beautiful dwelling."

Thereupon God's messenger disappeared, leaving her alone in her astonishment. Then she awoke, happy and thankful that it was only a warning dream, and that a time of grace was still given her to prepare for eternity.

"Now if any man build upon this foundation, gold, silver, precious stones, wood, hay, stubble; every man's work shall be made manifest, for the day shall declare it, because it shall be revealed by fire; and the fire shall try every man's work of what sort it is."—1 Cor. 3:12, 14.—Helping Hand.

Her Habit.
"I don't like the woman you made me take out to supper. She has such a way of planning you down."
"That's merely force of habit with her. She's a dressmaker."—Baltimore American.

Unpopular Hygiene.
Having received a hygienic education, the new partner in the bakery strongly recommended a paper wrapper for every loaf of bread delivered. The old partner demurred. "No good," he said. "People won't stand for it. We tried that once and the paper got so dirty before the bread was ready for delivery that everybody canceled their orders."

ONE PIECE DRESSING SACQUE.

Like all one piece models this dressing sacque is very graceful. The sleeve may be loose and flowing, or gathered into a band cuff as preferred. Japanese silk, printed crepe, fannel, cashmere, albatross and similar fabrics are used for these garments and ribbon, braid or bias bands of silk are used to trim.

The pattern (5600) is cut in sizes 32 to 44 inches bust measure. Medium size requires 2 3/4 yards of 36 inch material.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

THE harness on your horses makes their work easy or hard, and so has a great deal to do with their appearance, and the amount of feed they require.

More important still, their work makes a lot of difference in the results of your labor. Poor harness means accidents, balky horses, annoyance, repairs and poor horse flesh. It is just as hard to fit a horse properly as it is a man with a suit of clothes, and in many ways it is more important.

You will find that most teamsters and farmers who realize these facts buy their harness from us. We are headquarters for collars, hames, tugs, traces, chains and all kinds of good buggy and work harness.
