Chester & Lenoir N. G. Railroad Schedule

In effect March 23, 1894.

The passenger train from South leaves Hickory 1:12 p. m. From North it leaves here at 5:10 p. m. Mixed train from the South arrives at Hickory 4:30 p. m. Leaves for Lenoir at 6:20 p. m. From North leaves Hickory at 8:40 a. m.

Connects at Hickory and Newton with W. N. C. trains at Lincolnton with C. C. trains east and west; at Gastonia with Southern, east and west; at Yorkville with C. C. north and south; at Chester with C. C. north and south and with the G. C. & N. north and south.

Mr. J. Worth Elliott was at Asheville last week.

Mr. A. A. Shuford returned from Wilmington on the 4th inst.

Capt. R. W. Johnson lost a very fine Jersey milk cow the 3rd inst.

To cure your cold and give you rest, Ayer's Cherry Pectoral is the best.

Mr. D. C. Keever, who was in Ashe county last week, reports snow there Tuesday, the 2nd inst.

The Newton Enterprise has its new power press, and the improved appearance of the paper is conclusive evidence that it does its work well.

The fact that Hood's Sarsaparilla, once fairly tried, becomes the favorite spring medicine, speaks volumes for its excellence and merit.

Attention is invited to the advertisement of Bradfield's Female Regulator, one of the old stand by medicines. It has relieved many a mother of many a pang. Get a bottle and try it.

The use of Hall's Hair Renewer promotes the growth of the hair, and restores its natural color and beauty, frees the scalp of dandruff, tetter, and all impurities.

Mr. D. D. Seitz, an aged farmer living about five miles south of the city, is in so critical a condition that his death coming at any moment would be no surprise. He is eighty years old and has been in delicate health for several months.

Persons residing in Newton or vicinity, wishing copies of the Henry Weidner Memorial pamphlets, will find them at the drug store of Messrs. Smith and Haywood. Price 15 cents copy.

Naturally fair complexions would be the rule rather than the exception, as unfortunately it is at present, if the ladies would wholly abandon cosmetics, and more generally keep the blood pure and vigorous by the use of Ayer's Sarsaparilla, the only reliable blood-purifier.

If we sometimes effervesce in these columns in pleasantries, we feel assured no one will suspicion that our arrows are touched with virus. We never shoot leaden bullets from cover.

Miss Mary Rosebrough has returned home from the Northern markets and is busily engaged unpacking new goods and beautifying her elegant millinery store by their artistic display.

Mr. John Wilson, a farmer of Burke county, Icard township, has been dangerously ill of pneumonia but, under the skillful treatment of Dr. W. L. Abernethy, he is now convalescing.

Miss Sadie Hall's condition is thought to be materially improved. She is being treated by Dr. Baker, an eminent physician, and we therefore have great confidence of her ultimate recovery.

Our young friend, Mr. J. L. Suttlemyre of Burke county, spent a few social moments with us Friday. We appreciated his visit, and asked to be remembered to friends and acquaintances in his neighborhood.

Mr. Ed. Yoder, the fine looking and popular railroad clerk at the freight depot, left the city Thursday evening, the 4th inst., for Washington, D. C., and West Virginia. He will be absent not to exceed two weeks.

The building committee of the Methodist church reported to the quarterly meeting April 1, their purpose to place on their beautiful church lot, before the expiration of summer, 200,000 brick. This move indicates the early erection of the new church building.

Col. M. E. Thornton was at Bridge-water Thursday and Friday of last week. It is the season of the year when angling is one of his most delightful pastimes. He made a most generous allotment of the catch to us, and, we confess, we have never tasted fish of a superior flavor. Thanks, Colonel.

Thursday forenoon, April 4th, while Mr. Simon Bolick was engaged felling trees, one, on striking the ground, rebounded breaking his right leg below the knee. He was taken home and Dr. W. L. Abernethy now attends the afflicted gentleman. Mr. Bolick is young and vigorous and we therefore anticipate no great delay in his recovery.

H. W. Jones and his son P. P. Jones, deputy U. S. marshals, accompanied by Revenue Agent L. C. Bagwell, the night of April 2nd, captured a wildcat still and brought before Commissioner Totten the following named gentlemen found in charge of it: Elijah Holtzelaw, Noah McAlpine, Julius Pennell, Jeff. Pennell and William Lewis. Two gave bond, the others being held inurance vile.

Mr. Devault Heffner, a farmer of Catawba county "to the manner born," dropped into our sanctum Friday morning and subscribed for the PRESS AND CAROLINIAN. Mr. Heffner is 73 years of age, and during the war, served in the 37th Regiment of North Carolina volunteers, commanded by Colonel William Hoke. He will plant four acres of cotton and eighteen of corn. If all the farmers of the South follow his wise example, we have no doubt of a material advance in the price of cotton next fall.

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for Consumption, Coughs and Colds, each bottle guaranteed.—Electric Bitters, the great remedy for Liver, Stomach and Kidneys. Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them, and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at O. M. Royster's Drug Store.

Mr. Chas. N. Vance has left Washington and resumed his residence at Black Mountain.

A delegation of New England cotton mill men left Portsmouth on the first inst. to investigate the advantages to be secured by the removal of cotton mills to the South. Stops were made by the party at Charlotte, Henrietta, Weldon and Raleigh. From North Carolina they visited South Carolina, intending a most careful survey of surroundings before returning North.

CONSUMPTION

TO THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy free to any of your readers who have consumption if they will send me their express and post office address. Respectfully, T. A. Slocum, M. C., No. 182 Pearl Street, New York.

NEW LIGHT. A North Carolina Discovery, Cheaper than Gas or Electric Lights. A GREAT REVOLUTION.

Burns with Wicks Same as Gas, and Makes The most Beautiful Light.

We find in last weeks Shelby Aurora, very pertinently, the following which we reproduce entire.

A new illuminant is now giving a beautiful, brilliant and white flame, that promises to rival Welsbach gas, and almost make the incandescent lights pale their ineffectual fires. This new claimant for public patronage is liquefied acetylene, a new gas that is shedding light upon the problem of home and street illumination. The discovery of electric light was wonderful and this new gas, brilliant burning acetylene, promises to do wonders and to be a rival to electric lights, for its brilliancy is only surpassed by its economy.

Under the Wilson process it is claimed that this new illuminant can be manufactured much cheaper than gas or electric light.

This is said to be the discovery of Prof. P. L. Wilson, of Spray, N. C. "While experimenting to reduce certain refractory compounds of aluminum and calcium by the agency of his electric furnace, he found that water and limestone and coal dust produced this new gas and the discovery startled him." The New York Herald says:

An illuminating gas to vie with electricity and completely eclipse the present coal gas is said to be about to come into use. It is also said that gas bills will then be only at the rate of five cents a thousand cubic feet.

Not alone has this discovery of acetylene elements a commercial advantage, but already chemists have begun to speculate on it as a means of revealing the mysteries of the formation of earth and the planets, and the composition of the sun. August Eimer, at the last meeting of the Society of Chemical Industry, in this city, advanced the theory that acetylene gas produces those remarkable solar waves of flame that astronomers observe protruding great distances from the orb into space.

The chemists of the big gas companies in New York and Boston are looking into the gas as a means of increasing the power of coal gas now used. In a liquid form it burns in lamps, only no wicks are necessary, the liquid turning to gas and igniting as soon as it rises in the tube.

Woman-hood has its own special medicine in Dr. Pierce's Favorite Prescription. And every woman who is "run-down" or overworked, every woman who suffers from any "female complaint" or weakness, needs just that remedy. With it, every disturbance irregularity, and derangement can be permanently cured.

It's an invigorating, restorative tonic, a soothing and strengthening nerve, and the only medicine for woman which—once used, is always in favor. In periodical pains, displacements, weak back, bearing-down sensations, and every kindred ailment, it is specific.

Dr. Pierce's Pellets cure constipation, liver-ills, indigestion, dyspepsia, piles and headaches

IT NEVER BECAME A LAW.

The Original of the Assignment Bill Found, Marked "Tabled March 12th"—It Was Authenticated By a Monstrous Fraud on the Presiding Officers of the Two Houses. Special to the Charlotte Observer.

RALEIGH, April 2.—Proof is complete and conclusive that the act to regulate assignments is fraudulent and spurious. The original bill, identical with the one published has just been found among the defeated bills in the old State library, marked "Tabled March 12th." The Senate records show that the bill was never before that body in any shape at any stage.

Threatened in jury to the business of the State will undoubtedly be averted by judicial or legislative action. Honest business men appreciate the position of your paper in declining to join in a partisan cry to excite groundless fears and prejudice about a measure that was drawn by a Democrat, introduced by a Democrat, defeated by Republicans and Populists and authenticated by a monstrous fraud perpetrated upon the presiding officers of both houses of the General Assembly.

RICHMOND PEABSON. The Gastonia Gazette has a new power press. We congratulate the editor on this evidence of financial prosperity.

State Taxes Levied by the Legislature. LARGEST EVER MADE.

Under the revenue act the poll tax is \$1.25, the State tax 24 cents, the education 34 cents, the school 16 cents, on incomes and gross profits from property not taxed 5 per cent. and on gross incomes derived from salaries and fees 1 per cent. on excess over \$1,000, and 1/2 per cent. on excess over \$1,000, to \$5,000 and 1/4 per cent. between \$5,000 and \$10,000. The tax on cigars is 5 cents per 1,000 and on cigarettes 10 cents per 1,000. The sewing machine tax is \$500, piano or organ dealers' tax \$250. The tax on drummers is \$100 which shall give exemption from all other license tax. The license for insurance companies is \$100 and a tax of 2 per cent. on gross receipts in this State. State banks are to pay \$50 on \$25,000 of capital and \$2 for each \$1,000 over that amount. Building and loan associations pay tax according to paid-in capital. The tax on railways is 1 per cent. on gross receipts; telegraph and telephone companies, 2 per cent.—Wilkesboro Chronicle.

Aged Methuist Preacher Begins Polishing Glass For a Telescope.

Greenville, Pa., March 30.—Greenville is to furnish the lens for the largest telescope that has ever been constructed. Rev. John Peate, D. D., a Methodist minister seventy-four years of age, has assumed the task. He has just completed arrangements for handling the rough glass that is to be transformed into the great lens at his home in Greenville, and will probably begin work in a few days.

This lens is to be used in a telescope for the Methodist University at Washington. It is to be a monument to Rev. Dr. John Peate much more significant than any costly column that might be erected to the memory of the grand old gentleman.

A plate glass works at Butler took the glass for the lens. Heretofore all telescope glasses of any importance have been cast in France, as well as polished in that country. The lens, when completed, is to be sixty two inches in diameter and seven inches thick.

The Waynesville dispensary, the Courier says, has commenced business.

Advertisement for Scott's Emulsion. Features a large illustration of a man carrying a large fish on his back. Text: "Babies and Children thrive on Scott's Emulsion when all the rest of their food seems to go to waste. Thin Babies and Weak Children grow strong, plump and healthy by taking it." "Scott's Emulsion overcomes inherited weakness and all the tendencies toward Emaciation or Consumption. Thin, weak babies and growing children and all persons suffering from Loss of Flesh, Weak Lungs, Chronic Coughs, and Wasting Diseases will receive untold benefits from this great nourishment. The formula for making Scott's Emulsion has been endorsed by the medical world for twenty years. No secret about it." "Send for pamphlet on Scott's Emulsion FREE." "Scott & Bowne, N. Y. All Druggists. 50 cents and \$1."

Advertisement for J. L. Colay & Son, Joltimont Vineyards, Old Fort, N. C. Text: "PURE NATIVE WINES. DISTILLERY OF FRENCH COGNAC. Awarded First Premium at the Exhibition of New Berne, N. C. 'He, who chooses well his wine, assures his health.' Address them at OLD FORT, N. C."

Advertisement for Hard Cash desks. Text: "\$ SAVE DOLLARS \$ By purchasing one of the Richmond Desk Company's beautiful Roll-top Office Desks. They are being manufactured and sold at astonishingly low prices. You can buy them for a very little HARD CASH. The Desks talk for themselves. FACTORY, RICHMOND, IND., U. S. A."

Advertisement for Rheumatism and Neuralgia Cured. Text: "RHEUMATISM... AND NEURALGIA CURED By the Vici Magnetic Discs. Best authority says that Rheumatism and Neuralgia are caused by clots formed by the acids in the blood. The best known method for dissolving these clots is a gentle current of electricity. The Vici RHEUMATISM CURE consists of two metallic plates charged with electricity. They are placed on the heels, and produce a gentle electric current throughout the body. The Discs will last you a life time, and will positively relieve sufferers from Rheumatism, Neuralgia and kindred diseases. This method is simple and effective. If you are a sufferer, you should have a pair. The price is \$1.00 per pair, sent with full directions, by mail postpaid. Send for a pair, and be relieved of your suffering. THE MAGNETIC DISC CO., Goddin Hall, Richmond, Va. Send Postal Note or Registered Letter. [Please mention this paper.]"

Advertisement for Mexican Mustang Liniment. Text: "Uses Mexican Mustang Liniment Sprain cured and crutches thrown away. Bad Gall on his horse's neck cured in 3 days. DURIAM, N. C., Jan. 11, 1895. Lyon Mfg. Co., Brooklyn, N. Y. Gentlemen—For fifteen years I have used Mexican Mustang Liniment, and I consider it the best liniment on earth; I am never without it. I recently used it on a bad gall on my horse's neck and it cured it in three days. I had, also, a bad sprain in my leg and had to use crutches several days. As soon as I began to use Mustang Liniment I felt relief, and in a few days was entirely well. I recommend it to any one needing a liniment for horses or for self, with confidence that they will get their money's worth. Yours, JNO. R. HUTCHINGS. Of Carrington & Hutchings, Prop's of Beam's Warehouse, Durham, N. C."
