### THE PIEDMONT WAGON WORKS.

One of the principal, if not the chief industrial institutions of Hickory is the Piedmont Wagon Works. It has been established in Hickory for several years and is engaged in the manufacture of wagons, carts, and drays, &c. Not long ago, for the first time, this editor visited the works of this company and Mr. G. Harvey Geitner, the Genl. Manager, very courteously piloted us through the whole establishment. It was quite a revelation. We were not fully prepared to witness such a large and up to date wagon works right here in Hickory. There is an immense lot of timber stored in sheds inside the enclosure on the back side of the main buildings. They do not use timber for wagons until it has been in their own sheds at least 3 years. There is now a large quantity of timber on hand which was stored in 1891 which will not be touched until 1896. The timber they are now working on was stored in 1889. Of course such timber is thoroughly seasoned when it is to be made up into pieces for a wagon. After the pieces are manufactured they are stored away for three and four years before they are finally made into wagons and carts, &c. This is wherein it requires such a large sum of money to run such an establishment. Their last inventory footed up over \$43,000, worth of timber on hand. This timber all comes from the section of country right here, contiguous to Hickory, and is a great blessing to many poor farmers as a market with ready cash for their best timber. The plant is first class and is in superb condition. Mr. Geitner is a good Manager and understands his business.

We have not been apprised by him, but there are surface indications looking somewhat seemingly in the line that a gentleman, a fellow townsman, whom we have esteemed quite highly, feels aggrieved at something we have said about him or some one else, most probably about him, and that quite recently. From outside sources we learn these things. As for what we said personally, that was all in the purest pleasantry and good humor. We meant no offence; and as none was intended, if any was accepted we withdraw all we said about him and trust he will accept our apology. But if he cannot take a pleasantry and just naturally wants to be mean about it and "get mad," sure enough, all he has to do is to give a hint and open the shuttlecocks with all value attachments. But we do hope he won't do it. If a man cannot be a soldier with a brass band accompaniment he is no where. Not in the procession, as it were. We meant no meanness and no harm, but after "thanking" he "thinks" otherwise let her go. We can stand it as long if not "longer" he can.

Let umbrage be taken by those for whom umbrage is intended, and be not goaded by phantasies or what idle persons may say.

The Doctor gets his bi-singer. And she gets her coal. You will learn all about it in our issue of June 13th.

### NOT SO EASILY DECEIVED.

The statement is made that Secretary Carlisle will in his speeches in Kentucky commit by authority the administration to the repeal of the ten per cent tax on the issue of State Banks. The President being formerly opposed to the total repeal of the law, but as an emergency policy they think this movement would ameliorate the people of the South and estop their wholesale demand for the restoration of silver as a free coin of the Nation. This movement may effect its purpose. But we doubt it. And for this reason: The President showed too much hostility to the repeal when he had a congress that could pass the law; and now the next House of Representatives will be Republican and therefore entirely out of the pale of his control. And hence any promises by him are futile, at least beforehand. Besides; the administration has waited too long, are too late, in throwing out this soft soap bait, to prevent the people of the South from going right straight ahead in the grand march for a final, full and free restoration of silver for free coinage and as a money on a parity with gold at a ratio of 16 to 1 or even—yes the latter—15½ to 1. This is the proper ratio and the one on which international agreement will be had, if there is ever any agreement.

France would lose too much by changing from 15½ to 16 to 1. The U. S. would gain by it.

The Hickory PRESS AND CAROLINIAN says J. W. Robinson, of Catawba, has sold to Raymer Bros., of Iredell, several fine-blooded Devon heifers and a bull and a bunch of Southdown lambs. The editors of the PRESS AND CAROLINIAN and the Mercury, one a Democrat and the other a Populist, were both candidates for alderman of Hickory, on the same ticket and both were beaten.—Landmark.

What has the Devon heifers and bull and bunch of Southdown lambs got to do with our getting elected on the same ticket? Had we got on separate tickets one of us might accidentally have got elected. But as we had nothing to do with it neither of us was elected. A man must run himself if he would get there.

Not to be left, held down or hindered, the Pet of the line, the Chester & Lenoir Narrow-Gauge Railroad has stepped over and beyond the confines of being narrow minded about any thing in its line of business and has just furnished itself with a brand new passenger outfit consisting of several elegant new passenger coaches and a couple of parlor or observation chair coaches; and has also furnished its passenger train crews with elegant uniforms. Just received. In this connection we learn our wide awake, Hickory Haberdasher and clothier, Mr. Martin, furnished these suits over all others, Charlotte included. Head us and our railroad off there if you can. But you cant.

Bishop Cheshire is a noble churchman. He is a student of the Articles and Canons of the Church as well as theology in all its orthodoxy. The Diocesan convention made no mistake in electing him Bishop. He is the right man in the right place. May the Lord bless him.

To the Confederate Dead—also the living! Our grief for the one and our sorrow for the other. May the Lord bless the whole gang.

Supreme court Judges are like other common folks—all human.

The Difference between the Democratic party and the Republican party, and all other parties so far as that matter goes, is in a division of the official patronage. The Republican party is one of cohesion and then division whereas the Democratic party is one of cohesion with a hope of division without any chance of division without making enemies. The analysis of the whole question being that while Democrats are anxious and headstrong for office they also at the same time will denounce and renounce fraud and corruption in their own party as quick if not sooner, than they will in the opposition party. These seem to us to be about the true status of the case.

A lady at Tooleys Lax. was very sick with bilious colic when M. C. Tisler, a prominent merchant of the town, gave her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says she was well in forty minutes after taking the first dose. For sale by O. M. Royster Druggist. 18-4t

It occurs to us that every person who advocated or is now in favor of what has been called Tariff Reform, in order to be consistent, should be unhesitatingly and very vociferously in favor of the immediate and independent action of this Nation for the free and unlimited coinage of American silver at the ratio of 16 to 1 or 15½ to 1. The principle involved in the one is a concomitant of and an absolute adjunct to the other. Tariff Reform they say is to favor home industries. Just so with regard to independent action in the free coinage of silver. No man in favor of Tariff Reform can be opposed consistently to the free coinage of American silver in America.

Mr. Secretary Carlisle in his big speech at Covington, Ky., last Monday makes the howling bust of basing his whole argument on the presupposed presumption and assumption that there is one single, solitary, lone sane individual in these at present States of the unfructified United States who is in favor of or even dreams of silver monometallism: That is to say, a single silver standard. Mr. Carlisle had best take some crushed ice, soak his shins, and lave his fevered brow. He is a renegade. His advice is not worth a tinkers d-n.

There is something rotten in Denmark or New York or North Carolina or some where. A bill to fix the whiskey limit around the suburbs of Lenoir college passed both houses of the General Assembly making it one mile, and now the bill turns up into a law extending it to two miles. Woe-be to the hypocrites and a few others.

### LAND SALE!

By virtue of a mortgage from E. A. Holden and wife, to R. L. Thomason, and registered in this county, I will sell for cash at public auction, at the Court House in Newton, N. C., on Monday the first day of July, 1895, 4 acres of land in Newton township, adjoining lands of W. A. Propst, Luther Seitz and others, to satisfy said mortgage on which default has been made. K. C. MENZIES, Assignee of R. S. Thomason. May 15th 1895. 21-2t

The Washington Post of the 18th has on its front page a picture of Uncle Sam standing on the U. S., with his hands thrown up in holly horror at the spectacle of Hawaii, Nicaragua, British Guiana, Jamaica, Bermudas, Halifax, Quebec, Esquimaunt, all having big cannon guns directed right square, "muzzle front," at the United States.

This is not pleasant. It should not and will not be the condition of affairs, either this year or some other year. No difference who is President this aspect of affairs can be counted upon as not being in the line of probability or of argument. Still, it is well to keep the subject matter in mind.

The great unlimited free coinage people of these somewhat great unlimited United States seem to be in the ring to win. At least they are at present unlimited in the bold attempt to maintain their unlimited rights unimpaired as to gold and silver for their coin.

The exercises attendant upon the unveiling of the Confederate Monument at Raleigh would have been incomplete without the presence of our own dear unconstructed Rebel, Rev. Maj. Jas. A. Weston. He was not one of the Brigadiers on horse back but he was one of the best Brigadiers on foot back.

Give us some more first class battle ships. A dozen more will not hurt—and in fact will not be enough. Let the United States get in shape—good form. The party which places the United States in the front rank of Naval Nations will "stand in" best with the people.

If the East wants all gold, let them take it. They have it any way. As for the South: give us some silver. We have some and we want some more. But we are willing to split the difference and take it "af" and "af."

Mr. deSalol:—Roxy, old boy? Jenks:—Oh no, not much. Just a little hazy in the couplings.

### A NEW SWINDLE

which the people of the South are resenting, is the efforts of some to sell them imitations for the real Simmons Liver Regulator, because they make more money by the imitation; and they care little that they swindle the people in selling them an inferior article. It's the money they are after, and the people can look out for themselves. Now this is just what the people are doing, and merchants are having a hard time trying to get people to take the stuff they offer them in place of Simmons Liver Regulator—which is the "King of Liver Medicines," because it never fails to give relief in all liver troubles. Be sure that you get Simmons Liver Regulator. You know it by the same old stamp of the Red Z on the package. It has never failed you, and people who have been persuaded to take something else have always come back again to The Old Friend. Better not take anything else but that made by J. H. ZEILIN & Co., Philadelphia.

### FREE HOME TREATMENT.

Dr. Hartman's Cure for Female Diseases—A Generous Offer to Women.

In view of the great multitude of women suffering from some form of female disease and yet unable to find any cure, Dr. Hartman the renowned gynaecologist, has announced his willingness to direct the treatment of as many cases as make application to him during the summer months, without charge. The treatment will be conducted by correspondence. The doctor will prescribe all medicines, applications, hygienic and dietary regulations necessary to complete a cure. The medicines prescribed can be obtained at all drug stores. This offer will hold good only during the summer months. Any woman can become a regular patient by sending a written statement of her age, condition of life, history and symptoms of her derangements. All cases of female diseases, including menstrual irregularities, displacements, ulcerations, inflammations, discharges, irritation of the ovaries, tumors and dropsy of the abdomen, should apply at once and become registered as regular patients. All correspondence will be held strictly confidential. No testimonials of cures will be given to the public except by express wish of the patient.

As is well known, Dr. Hartman is the President of the Surgical Hotel, an institution which has a department of female diseases. He is thus brought to see thousands of such cases every year, the most of whom return to their homes to be treated by correspondence. The principal remedy he relies upon in such cases is Pe-ru-na, which every woman should have, who has any affection of this kind. Those wishing to become patients should address Dr. S. B. Hartman, Columbus, Ohio.

### WOMAN'S HAND BOOK.

The Pe-ru-na Drug Manufacturing Company of Columbus, Ohio, are sending free to any person writing for it, a neat little pamphlet devoted exclusively to the treatment of female diseases written by Dr. Hartman. For free book on cancer address Dr. Hartman, Columbus, Ohio.
