SOUTHERN RAILWAY COMPANY. (Piedmont Air Line.) THIRD DIVISION.

Condensed Schedule in effect June 16, 1895. Through Schedule published as information only and subject to change without notice to the public.

Table with columns for No. 11, No. 12, and No. 13, listing routes and times between Salisbury, Asheville, and Paint Rock.

SLEEPING CAR SERVICE.

Nos. 37 and 38, Washington and Northwestern Limited, composed of Pullman cars; minimum Pullman rate \$2.00, no extra fare.

Chester & Lenoir N. G. Railroad Schedule (Central Time.)

The passenger train from South leaves Hickory 12:12 p. m. From North it leaves here at 4:10 p. m.

REDUCED RATES.

Cotton States and International Exposition ATLANTA, GA. September 18—December 31, 1895.

Table with columns for FROM, A, B, C, D, E, listing reduced rates for various destinations like Alexandria, Asheville, Burlington, etc.

EXPLANATION.

Column A: Tickets will be sold September 5 and 12, and daily from September 15 to December 15, 1895, inclusive.

SOUTHERN RAILWAY

Is the only line entering the Exposition Grounds, having a double-track, standard-gauge railway from the center of the city of Atlanta to the Exposition Grounds.

Mrs. Dolph Sigmon has returned to her home. Miss Lollie Lenoir visited her sister, Mrs. John Michal, last week.

Those troublesome scalp humors are cured by the use of Ayer's Hair Vigor. Mr. Chas. Geitner attended the fair at Morganton last Wednesday.

Miss Claudia Compton is out again after a few days' illness at Mr. Cooper's. Mr. Gilbert Peeler has gone to Lenoir to work for the Caldwell & Northern Railroad Co.

Mr. John Setzer, of Lincolnton, passed through the city Friday on his way to his farm on Catawba river. Miss Meta Beall, of Greensboro, after a visit in Lenoir, passed through this city on her return home last week.

Mr. and Mrs. George Harper, nurse and baby, and Miss Annie Rankin, of Lenoir, were in town shopping last Tuesday. Hood's Sarsaparilla, taken at this season, will make you feel strong and vigorous and keep you from sickness later on.

Mr. Rufus T. Lenoir, of Yadkin Valley, arrived in the city Thursday morning and is visiting friends and relatives.

A party was given Miss Claudia Compton last Friday night at Mr. A. E. Cooper's. All present say they had a very pleasant time.

People with hair that is continually falling out, or those that are bald, can stop the falling and get a good growth of hair by using Hall's Hair Renewer.

Miss Josephine Batchelor passed through this city Friday evening. She is travelling canvasser for the Messenger of Hope, printed in Charlotte.

Miss Jet Abernethy, Master Ed and little Ruth attended the Morganton Fair and returned Friday evening. Mrs. John Cilly returned with them.

Messrs. W. A. Self, A. A. Whitener, Morgan Hawn and Wesley Martin went to the Fair on bicycles. They got as far as Connelly Springs and took the train.

Mr. W. A. Self was so unfortunate as to have a bicycle run away with him while in Morganton and was badly bruised up. We hope he will soon be all right again.

Dr. S. C. Webb, Liberty, Miss., says: "I have been using Ayer's Pills for over twenty-five years, and recommend them in cases of chronic diarrhoea, knowing their efficiency from personal experience, they having cured when every other medicine in pharmacy failed."

The Morganton Fair.

The local editor went to the fair, very unexpectedly, but was very much pleased with her trip. The dust was terrible, but nobody seemed to mind it much.

The racing was very good. The balloon ascension on Wednesday was good, but Thursday it was splendid. Prof. Steele said he was going 4,000 feet high. The air was exactly right, and the ascent was perfect.

We went to the Deaf and Dumb Home, but only drove around it; also went to the Insane Asylum. This is the grandest place we have ever seen. We were shown over the buildings, into the wash, sewing, ironing and dining rooms; also the kitchen, chapel and greenhouse. The very latest invention in every line is used there and everything moves like clock-work.

The greenhouse, with Mr. Bush in charge, is the prettiest and most neatly arranged thing in its line that we have ever visited. The house is new and the flowers have just been placed in it.

Morganton is a lively, business town, with these two grand State institutions, a large cotton factory, tannery, door and sash factory, "Sally Michael" tobacco factory, etc.

We certainly expect to go up there again soon. The people are very kind. The Salisbury World says as a reward for his saving the wreck of the vestibule train last week by informing the agent of a misplaced switch, the Southern has given Rev. W. H. Bryant a pass over its system for five years. The reward is merited, for had the discovery not been made the consequences would have been disastrous.

CONSUMPTION

TO THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured.

MEDLEY.

A man in Kansas boasts that he owns 1,500 badges of secret orders. The skeleton of an average whale is said to weigh not less than 50,000 pounds.

Habana is the correct name of the capital of Cuba, so says the United States board of geographical names. Chinese paper fans are sent over from Canton at the price of nine francs per thousand—that is, a penny a dozen.

Michigan is entering the lists as a peach growing State. Orchards are being formed of 500, 1,000 and 10,000 trees. In this country alone the sales of bicycles for this year are estimated at half a million. The total number of bicycles in use is estimated at a million.

A tanning concern in Seattle has received in one consignment 115 bales of deer skins, weighing 18 tons, and representing several thousand dead deer. Over 400 diamonds are known to have been recovered from the ruins of Babylon. Many are uncut, but most of them are polished on one or two sides only.

The supply of old powder left from the war has just been exhausted. It has been used in later years simply as saluting purposes. A new powder with little kick but a great deal of bang, will do the honors. Chicago, after all, is to have a tower higher than that built by Eiffel. It is to shoot up 1,100 feet into the air, and to cost \$600,000. Many people in the Western city are said to be much happier since the decision as to the tower was reached.

Immigration increases. In August the arrivals numbered 23,199, which is more than 9,000 increase over August of last year. The total for this year amounts to 212,732, as compared with 166,591 for the corresponding period last year. A Frenchman having an income of \$4,000 a year pays \$1,000 of it in direct and indirect taxes to the government, according to careful investigation. In other words, the French tax-payer must work 86 days in the year solely to earn what is due to the treasury.

In a cemetery in the suburbs of Lowell, Mass., there are five headstones all alike, except the inscriptions. The first one reads, "First wife of John Smith," and the second, "Second wife," and so on until the fifth stone, which reads, "John Smith; at rest at last." President Lincoln once listened patiently while a friend read a long manuscript to him, and who then asked: "What do you think of it? How will it take?" The president reflected a while, and then answered: "Well, for people who like that kind of things, I think its just about the kind of thing they'd like."

A little girl listening to the marriage ceremony of her sister, seemed to be particularly impressed with that part which requires the bride to promise to "love, cherish and obey," and after the ceremony horrified her mother by asking, "Mamma, what made Rev. Mr. — make Ada promise to love cherries and whey?" A refractory Irishman in jail, named Dennis McGinnis, refused to work. The keeper said to him: "McGinnis, you go to work or to the pump." "Niver," replied the Irishman. A second time the keeper ordered McGinnis to work, but he refused to budge an inch. "Now for the last time, McGinnis," exclaimed the keeper, "you go to work or to the pump." "Niver, sir," said McGinnis, straightening up to the full dignity of a man. "Faith, sir, I'll lave the jail first."

The Shemwell Case Again. LEXINGTON, N. C., Oct. 19.—The county commissioners, at their last meeting, passed upon and allowed the State costs in the Shemwell case, some \$3,300. The defendants costs, ordered paid by Judge Boykin, were not allowed. The commissioners say they will not pay Shemwell's costs unless compelled to do so by law. The matter is now in the Superior court.

The New York Sun says: "The black philosopher of Tuskegee, Principal Washington, has made an interesting remark about the Alabama Normal institute. 'At Tuskegee' he says, we teach our students that it is better for them to spend their time and strength in learning to be carpenters, dairymen, truck gardeners, or contractors, than to spend it in making stump speeches.'"

"As an orator, Principal Washington may not rank with Demosthenes or Cicero; but there is more solid sense in him than in lots of white men." Charlotte is to have a crematory to burn garbage. It will cost \$5,000.

Ingersoll and The South.

Whatever may be said of Col. Robert G. Ingersoll's views on the Bible, it can't be denied that he is a man of big heart and a fine sense of justice to his fellowman. At a re-union of the regiment during the war, he said in the course of his address:

"And, let me tell you here today—I am somewhat older than I used to be; I have little philosophy now that I had not at the 9 o'clock in the morning portion of my life—and I do not blame anybody. I do not blame the South; I do not blame the Confederate soldiers." She—the South—was the fruit of conditions. She was born to circumstances stronger than herself, and do you know, according to my philosophy, which is not quite orthodox (laughter), every man and woman in the world is what conditions have made them. So, let us have some sense. The South said: 'We will not submit, this is not a nation, but a partnership of states.' I am willing to go so far as to admit that the South expressed the original idea of the government."

The Darlington, Wis., Journal says editorially of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night with out it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by O. M. Royster, Druggist. 40-4t

Hon. R. W. Davis is a Floridian who is undoubtedly well qualified to speak for the people of his State, and it is gratifying to see him sticking to his recent statement that three-fourths of his fellow-citizens favor the free and unlimited coinage of silver.

Mr. Carlisle gets pay out of the treasury for going to Boston and telling the retired merchants and splinters of that region that the greenbacks ought to be retired.

Chinese Sect of Vegetarians.

The Chinese sect of the Vegetarians, which has recently been prominent in the massacre of missionaries, is a formidable secret society. It was known in the Eighteenth century as the Association of the White Lotus, and led to the plot against the existing Manchu dynasty. It was so hard pressed by the authorities that it sank its identity under a new name, being known as the Do Nothing party, a change which did not deceive anybody. The Vegetarians are sworn to eat no meat and wear no colored clothes. They give their property into the common stock, reserving only the usufruct for their individual support.

Not only are the members of this powerful body the enemies of the existing royal family, but they are also hostile to some of the most cherished Chinese traditions. In 1876 they spread terror in Nanking and Shanghai by cutting off the pigtails of their fellow citizens, going about quietly with scissors up their sleeves and using them whenever they got an opportunity. As the Chinese think that they are hauled into heaven by the hair, these outrages naturally made a great stir.

It will be easily seen that the Chinese emperor can have no great sympathy with the Vegetarians. They are the old enemies of his house. The provincial viceroys have frequently availed themselves of the services of the terrible secret society. This was probably what occurred when the missions were looted and the occupants killed.

Old People. Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents and \$1 per bottle at O. M. Royster's Drug Store. 5

Exhausted Soils are made to produce larger and better crops by the use of Fertilizers rich in Potash. Write for our "Farmers' Guide," a 142-page illustrated book. It is brim full of useful information for farmers. It will be sent free, and will make and save you money. Address, GERMAN KALI WORKS, 93 Nassau Street, New York.

Which Shall It Be? YOUR ORDERS for High Grade Sewing Machines, Bicycles, Vehicles, Baby Carriages, etc., placed with local and retail dealers with three to six middlemen's profits, or with the old reliable CASH BUYERS' UNION, with only one small profit above actual factory cost. Those of the latter price being equal to wheels sold by agents and dealers at \$125.00. We show 150 designs in Baby Carriages—the latest, the handsomest—all new patterns, many direct importations. We handle everything under the sun in the VEHICLE AND HARNESS LINE, BUGGIES, CARRIAGES, PHAETONS, ROAD WAGONS, CARTS, HARNESS, SADDLES, ETC., at prices out of reach of competition.

Uses Mexican Mustang Liniment Sprain cured and crutches thrown away. Bad Gall on his horse's neck cured in 3 days. DURHAM, N. C., Jan. 11, 1895. Lyon Mfg. Co., Brooklyn, N. Y.

Gentlemen:—For fifteen years I have used Mexican Mustang Liniment, and I consider it the best liniment on earth; I am never without it. I recently used it on a bad gall on my horse's neck and it cured it in three days. I had, also, a bad sprain in my leg and had to use crutches several days. As soon as I began to use Mustang Liniment I felt relief, and in a few days was entirely well. I recommend it to any one needing a liniment for horses or for self, with confidence that they will get their money's worth. Yours, JNO. R. HUTCHINGS. Of Carrington & Hutchings, Prop's of Team's Warehouse, Durham, N. C.
