

MADE MR. LIVINGSTON HOT.

To Hear Government Officials Rejoice Over the Results of the Elections.

WASHINGTON, Nov. 7.—Representative Livingston of Georgia is here to look after the interests of some of the exhibitors at the Atlanta Exhibition.

"I had to go into some of the Government departments to-day," he said, "on business in which my constituents are interested, and it made me hot to see how delighted some of the prominent officers were over the result of the elections. They profess to be Democrats, too. Why, I saw several Government officials who were appointed to office as Democrats shouting themselves hoarse over the result in Maryland and Kentucky, declaring that the result was a vindication of President Cleveland. Such conduct may be all very well for the Mugwumps of the North and East, but it will not go with the Democrats of the South.

Mr. Livingston said that Mr. Cleveland alone is responsible for the mangled condition of the Democratic party to-day, and that the only hope for the party is to put aside the financial and tariff questions and try to unite the Democratic forces under a banner inscribed "A vigorous American policy." He contended that the financial question can only be settled after the foreign affairs of the country have been adjusted.

It is apparent to all who mingle in Administration circles that neither the President nor any of his followers is distressed over the result of the elections. Mr. Cleveland's friends are gladly announcing their belief that the opposition of party bosses in the States to the President was the real factor which caused defeat. They said it was simply a case of a house divided against itself and the house has fallen.

THE SENATOR'S NEW RING.

The Stone Found in Yancey—Senator Pritchard's New Law Partner.

Among the articles of jewelry that Senator Pritchard will wear in Washington during his term is a ring with a beautiful aquamarine set. The stone was found in Yancey county, and presented to the Senator by a Republican admirer living in Mitchell county. The stone was mounted by B. H. Cosby, the Patton avenue jeweler.

Senator Pritchard will go to the national capital after the adjournment of Madison court. He will rent a residence there and remove his family some time in December.

Thos. S. Rollins, one of Asheville's young attorneys who was recently licensed by the Supreme court, has become a member of the law firm of Gudger and Pritchard, the firm name being changed to Gudger, Pritchard and Rollins. Mr. Rollins will have charge of the business at Marshall during Senator Pritchard's absence. He went to Marshall yesterday.—Asheville Citizen.

BLAND ON THE ELECTION.

Free Silver Was Not Up for Judgment Tuesday.

ST. LOUIS, Mo., November 7.—Hon. R. P. Bland explained the result of Tuesday's balloting as follows in an interview:

"The only States which made a free silver canvass were those of Kentucky and Mississippi. The whole power of the national administration was brought against silver in Kentucky, and if it won by any majority or plurality it is a remarkable victory brought about by official influence and patronage.

"Why," added Mr. Bland, "the only distinctive democratic victory of Tuesday is recorded by the Tammany democrats of New York, who have always been opposed to Cleveland and his administration. Free silver was not up for judgment in the elections held Tuesday, but the national administration was."

When Rev. Jas. A. Weston the Rector of the Episcopal church here, a bachelor and the author of Historic Doubts as to the Execution of Marshal Ney, leaves here shortly for a vacation to write the History of his Confederate Regiment, he will turn the key of his recently purchased residence over to the ladies. As the old bachelor proposes to live at home in the future, this will be a good time for his admirers all over the State and country to send whatever household necessities they desire to present him. He has the nice house and two (probably army) blankets to commence house keeping, without a wife. We would suggest that those away from Hickory can send by freight addressed to Mrs. O. M. Royster.

MESSRS. CAMPBELL AND THORNTON.

They Are Taking an Inventory, as It Were, of Things Needed.

Messrs. Campbell and Thornton—after January 1st proprietors of the Central Hotel—are in the city. They arrived yesterday morning on the vestibule from the North and will remain several days. The Observer had the pleasure of meeting Mr. Thornton yesterday and found him exceedingly agreeable. He and Mr. Campbell are here now to "view the landscape o'er," and see what is needed and what is not needed. They will, of course, buy new furnishings and keep the hotel up to its standard in this as well as other respects.

"It is not our intention," said Mr. Thornton, "to make any changes in the running of the hotel. We hope to make the people of Charlotte, the State and the traveling public feel at home, as usual, and there must be familiar faces to greet them."

Mr. Thornton and Mr. Eccles have come to no understanding about the Belmont. Mr. Eccles may or may not let it; and Mr. Thornton may or may not rent it. That's the way the case stands.

Mr. Thornton is a Louisianian by birth and his wife is from Maryland. They have lived North for some years. Southern birth with Yankee snap are hard to beat.—Charlotte Observer, 9th.

ESCAPED FROM JAIL.

Six Negroes Knock the Jailer Down and Get Away.

WINSTON, N. C., Nov. 8.—Six negroes made their escape from the county jail here at 10:30 o'clock today. Township Constable Harris went in the jail after a negro named Price, who was to be tried before a magistrate. Just as the officer opened the cell door to bring Price out, the other prisoners rushed upon him, grabbing the door, and at the same time knocking Mr. Harris down. One grabbed his pistol, but the officer succeeded in getting it back and fired twice at one of the negroes as he went out of the door. One of the negroes who escaped named John McIver, was in jail awaiting trial for attempted rape on a small girl. The others are charged with larceny. There were eighteen prisoners in the jail corridor when the six went out. Officers are hunting those who got away and a report reached here tonight that they have been surrounded in the woods a few miles east of Winston.

A Great Railroad Man.

Col. A. B. Andrews was in Atlanta, and of him the Constitution says:

"Col. A. B. Andrews, first vice president of the Southern Railway, who was here yesterday, is one of the most unique types of the original North Carolinian to be found in the country. He is a great believer in the South, its traditions, its present and its future, and he never tires telling of his native land. He is one of the many who have been overcome by the colossal proportions of the Atlanta Exposition and he says that this necessarily means a great advancement for the Southern States.

He declares that it with the re-organization of the old railroad properties of the South by people who have no purpose save that of building up the country as well as the railroads they have bought certainly may be taken as a turning point in the history of the Southern States. The Atlanta Exposition, he declares, typifies the pluck and courage of the people of this section.

"Colonel Andrew is one of the most convivial men on the globe and loves a good story told by an artist as much as any man. He can also tell a good story as well as any man alive and has a fund of them always on hand."

Next Year Is Leap Year.

Next year will be the last leap year of the century, and another will not occur until 184. The year 1900 will not be a leap year. This unusual occurrence is due to the fact that the addition of one day to each fourth year more than makes up the presumed deficiency in the calendar year, and consequently the world is constantly losing time, as a watch is losing it, and therefore there was danger that in the course of a few thousand years the Fourth of July would come on Christmas.

Senator Blackburn's Fate.

LOUISVILLE, Nov. 12.—The fate of the candidate for the seat of United States Senator Blackburn, of Kentucky, will rest in the hands of the two Populists elected to the house. Complete returns show the following: House—Democrats, 46; Republicans, 52; Populists, 2. Senate—Democrats, 22; Republicans, 16. Joint ballot—Democrats, 68; Republicans, 68; Populists, 2. The Republicans claim that the Populists will vote with them, while many Democrats think the Populist vote will be with them.

HERE'S A WHOLE FAMILY.

Husband, Wife and Children Made Well by Paine's Celery Compound.

The pre-eminence of Paine's celery compound over all other remedies could not be better illustrated than in the case of the Turney family of St. Anthony, Iowa.

Mrs. Turney had recovered her health by the use of Paine's celery compound.

She had suffered from a variety of ills, all due to a nervous system improperly nourished.

As frequently happens the entire family, overcome perhaps by anxiety and care, began to feel "run down" and to suffer with the hardest disease in the world, the trouble they have when they say: "Doctor, I don't feel well."

The advice of their physicians to use Paine's celery compound, the one known remedy that restores lost nervous energy, creates an appetite, purifies the blood and builds up the strength of the entire system, was followed. Mrs. Turney, in a letter to Wells & Richardson Co., who prepare the remedy, soon wrote as follows:

"My husband and three children were as greatly benefited by the use of Paine's celery compound as I was after an unusually hard siege of the grip, with variations of the disease. We regard the compound as a most remarkable remedy."

As the winter comes on many people will begin to suffer from debility, and lack of rallying powers after a slight chill or cold.

There real trouble is a run-down

condition of the nerves and blood, and Paine's celery compound, as in the case of Mrs. Turney and her family will make them well again.

Rheumatism and neuralgia too, grow more dangerous and more painful with cold weather.

This increased pain points to increased activity of these disorders.

There is positive danger in allowing the system to meet the perils of winter handicapped by rheumatism and neuralgia, or any disease that comes from poor blood and bad nerves.

There is the same certainty of getting rid of these two diseases that there is of a complete recovery from sleeplessness, nervous weakness, hysteria, or any other result of impoverished nerves and blood. Physicians today get rid of rheumatism and neuralgia as they do sleeplessness, melancholia and nervous dyspepsia by building up the system and supporting its delicate nerve parts with Paine's celery compound.

Paine's celery compound restores vitality to tired nerves; it feeds every tissue of the body when unusual waste has reduced the weight and strength of the body, as is frequently the case at the close of the heated season. It gives new appetite, and keeps every part of the body, nerves and blood so well nourished that the nervous, exhausted, tired, "run down" feeling from worry and hard work soon disappears. Try it.

GOLDEN ROD KILLING HORSES.

A State Veterinarian Says There Is a Deadly Poison in Its Blossoms.

The State Veterinarian of Wisconsin has made the discovery that under the ragged yellow blossoms of the golden rod there is hidden the germs of one of the most dangerous diseases to horses ever known.

The disease which afflicts a horse inoculated with the poison resembles consumption in a man. It is incurable. The horses which eat the tempting plant go into a decline; their blood is destroyed; the tissues lose their strength and waste away. In from three weeks to three months after the disease attacks the animal it is dead.

French Crisis Averted.

PARIS, Nov. 11.—The Rappael this morning says that the great financial houses have decided to place at the disposal of the market from 50,000,000 to 100,000,000 francs in order to facilitate a settlement. The speech of the Marquis of Salisbury delivered in London on Saturday last had a good effect here.

Baron de Rothschild presided today at a conference of financiers, the object of the meeting being to take concerted action by a large subscription of capital to meet the necessities of the situation.

Sad Affair in Surrey.

Information has been brought to light of a horrible affair which occurred a few weeks ago near Stone Mountain, Surrey county. Charles and John McBride, brothers, were met in the road by a party of six toughs. A controversy arose over which should give the road, when the toughs opened fire on the two brothers; some twenty-five shots being fired. When the smoke cleared away Charles McBride was found to be fatally wounded. One ball passed through his bowels.

After the battle in the road the crowd of toughs went to the residence of a dissolute woman living near and demolished things generally. They tore down the chimney, knocked out one side of the house, broke up the bedstead, threw all the clothing and bedding into the yard and made a bonfire of it and then set fire to the house.

Latham, Alexander & Co., on Cotton.

We have received a circular letter from Latham, Alexander & Co., Bankers and Cotton Commission Merchants of New York, under date of 6th inst., in which they state that they "having received many letters of inquiry, concerning the probable total cotton crop of the United States for this year, we sent out on the 26th of October 3500 letters to selected and reliable correspondents—banks, bankers, cotton commission merchants, brokers, proprietors of public gins, railroad officials and planters, covering every cotton growing county in the South, seeking information, believing that the average of the replies we received would likely prove more correct than the estimate of any individual, remote from the cotton fields. In response to our letters we have received 2632 replies up to this date," from which they make these deductions as to the estimated average and state that the weight of bales this season is estimated to be 10 to 12 pounds lighter than last year. They estimate the total crop of the United States for this year at 6,435,000. The average of the guesses of their correspondents as to the total crop foots up 6,680,000 bales. From this statement of this great cotton firm it would seem that they are by no means disposed to disparage the condition of the Southern cotton planter, when it is taken into consideration that the crop of 1894 was 9,901,000 bales of ten to twelve pounds more weight than this year's crop of not more than 6,500,000 bales.

Therefore this is an awful good time to buy cotton, but not a good time to sell if, you can avoid doing so, and meet your obligations.

Very Neat Indeed.

The Charlotte Observer thus comments which we endorse as O. K. It was a neat and commendable piece of enterprise that the Salisbury World perpetrated Wednesday in converting itself from an afternoon to a morning paper and coming out with the full returns of the election.

The New Route to Atlanta and the Southwest—Raleigh and the East.

The Seaboard Air Line route of the famous "Atlanta Special" is the best and most desirable route to Atlanta and the Southwest from all points on the C. and L. R. R. All C. and L. A. L. trains at Lincolnton and Chester for the South, and at Lincolnton for Raleigh, Norfolk, Richmond, Washington and all points North. Try the new line. Through Pullman cars on all trains. For full and complete information address B. A. NEWLAND, Gen. Agt. Pass. Dept., Atlanta, Ga. T. J. ANDERSON, Gen. Pass. Agt., 44-tf. Portsmouth, Va.

PRODUCE MARKET.

Table listing various agricultural products and their prices, including Butter, Eggs, Corn Meal, and Lard.

JELICO COAL FOR SALE!

Orders from parties in any portion of Western North Carolina for the celebrated Jellico coal in car load lots for coal of any grade in size and at the regular mine quotations of prices will be received and filled by M. E. Thornton, Hickory, N. C. Address him for prices and particulars. 36-t-f

ADDISON & COMPANY, GENERAL INSURANCE BROKERS.

607 13th Street, Washington, D. C. Makes a specialty of placing insurance on Tobacco and Tobacco Barns at rates from 15 to 20 per cent. less than those given by local agents.
