POLITICS IN NEW YORK.

Tammany Postpones Its Proposd Ratification

AT THE BEHEST OF SENATOR HILL.

Authoritative Statement of New York Democracy's Position Expected After Meeting of the State Committee July 28.—To Bolt the Platform but Not the Nominees—Republicans Disputful of Heavy Gains from Disaffected Democrats.

NEW YORK, July 21.—Quiet reigns in both political camps in this city just now. Both are playing a waiting game. The atmosphere at the headquarters of the Republican State Committee in the Fifth Avenue hotel was not surcharged with anything particularly explosive today. Chairman Hackett was there today to receive reports of his committeemen. Many of them dropped in yesterday and today. They say that for every Republican that will join the free silver brigade where they live, two real Democrats will desert the Chicago Candidates.

The general opinion seems to be, not that the Democrats will stay at home on election day, but that they will make their influence felt practically by a vote for Mr. McKinley, although they may not declare outright that they have bolted the party's nominees. Mark Hanna is expected here by the end of the week. Then the republican headquarters will be selected and the campaign will really begin.

The Democrats will not start their fight until Bryan learns in Madison Square Garden that he has been nominated. Tammany has hearkened to the voice of Hill after all. Leader Sheehan said yesterday that the district leaders were impatient for the organization to make a declaration of principles at once, and that, therefore, a meeting of the executive committee would be called for the purpose of arranging for the ratification of Bryan and Sewall before the State convention acted. The meeting was to have been held Thursday or Friday.

Senator Hill was in the city today for a few minutes, and immediately after his departure on a yatching trip a change in the Tammany programme was announced. The meeting of the wigwam executive committee will not be held until Wednesday next, the day after Senator Hill's state committee has met and spoken.

The formal call for the meeting of the State committee was issued today. The meeting will be held on July 28 at the Hoffman House. Its purpose is to fix a date and place for the State convention, and incidentally to map out a programme to be followed by the convention. The leaders are said to favor holding the convention on September 3 at Saratoga.

The fact that Tammany has yielded and will wait until Hill's committee has spoken is an indication that Hill and Sheehan agree on the policy to be pursued—that is, to ignore the platform and endorse the nominees. Senator Hill and W. T. Sheehan started today on a yatching trip as the guests of Col. Ruppert, to be gone a few days and meantime the State Democracy will await developments. Everybody except the few gold men, of whom William C. Whitney is the more conspicuous example, seems to be waiting a word from the Senator.

The report that Senator Hill is being boomed for Governor is denied by his friends here. Defeat does not add to the popularity of a statesman, and Mr. Hill knows that the chances of electing a Democratic Governor in this State are very slim; but even if a Democrat could be elected it is doubtful if Hill would be the candidate.

The Democrats have no hope of electing the next legislature, which will have selection of his successor. The senate, which holds over, is Republican. It is composed of thirty-six Republicans and fourteen Democrats, a majority of twenty-two for the Republicans. The last Assembly consisted of 103 Republicans and 47 Democrats, a Republican majority of fifty-six. On joint ballot the Republicans had a majority of seventy-eight. Even the most sanguine Democrat does not expect to make gains enough in the Assembly to offset the Republican majority in the Senate. The Democrats in order to have a majority on joint ballot would have to elect eighty-seven Assemblymen, almost two-thirds of the entire membership of the lower house, which they know they cannot

do. It is not likely that Senator Hill who has already been Governor and to whom the Governorship would be no additional honor.

The other aspirants for the gubernatorial nomination are looking after their fences. The active ones are Jacob A. Cantor, who has explained himself as "unalterably opposed to Bryan and Sewall;" J. B. Stanchfield, who is riding on the waves of the Chicago idea, with hopes of landing in the place he covets, and Mayor John Boyd Thacher, of Albany, who, although an uncompromising sound money advocate, has not bolted or taken any other radical steps since the convention.—Washington Post.

Free Pills.

Send your address to H. E. Buckien & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and sick headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by O. M. Royster, Druggist.

Nine Daughters in a Day.

Leonard Hartman, a wealthy contractor of Dubuque, Ia., is very fond of children. He has eleven of his own all boys. He has often expressed the wish that he might have a daughter or two, and yesterday he acquired nine. His brother's widow, Mrs. Crescentia Hartman, arrived on the Spaarndam on Sunday with nine of the prettiest frauleins who ever saw Ellis Island, so the people there said. The youngest is 3 and the eldest is 14 years old.

When Mr. Hartman, who came from Dubuque to meet his brother's family saw the little ones and learned that there was some doubt about his sister-in-law being admitted with so many little mouths to care for, he stepped up and said:

"I'll take care of those girls. They will almost match my boys. I've got eleven of them out West, and they want some subduing influence. Just furnish the 'outfit' with tickets and I'll adopt the whole lot."

Mr. Hartman produced the evidence that he was able to care for the girls, and Dr. Senner allowed them to land. The Hartmans all left last night on a late train for Dubuque. Mr. Hartman is a widower.—[New York Sun.

Last summer, one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredericktown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For Sale by O. M. Royster, Druggist.

Naturalized at 90.

(Kansas City World.) Ned Riordan, 90 years of age, was granted his first naturalization papers by United States Commissioner Nichols yesterday. Riordan has lived in this country 70 years, having come from Ireland when 20 years old. In the civil war he served in the Seventh Missouri Volunteers under Colonel John F. Phillips, now United States District Judge. He is over six feet tall and is remarkably well preserved for the one of his advanced age. At present he is living at the Soldier's Home in Leavenworth.

Rheumatism, which is caused by an acid in the blood, is cured by the use of Ayer's Sarsaparilla. External treatment is of no avail. Until the blood is thoroughly cleansed of all impurities, it is useless to expect the cure of any disease. Has cured others, will cure you.

Troubled With Eczema.

"I have been troubled with eczema for two years and could not get anything to do me any good until a friend told me to try Hood's Sarsaparilla. I began taking it a little over a year ago, and after I had taken the first bottle I could see it was helping me. I have now taken a number of bottles of Hood's Sarsaparilla and I am well."

In the vicinity of Boquet, Westmoreland Co., Pa., almost any one can tell you how to cure a lame back or stiff neck. They dampen a piece of flannel with Chamberlain's Pain Balm and bind it on the affected parts and in one or two days the trouble has disappeared. The same treatment will promptly cure a pain in the side or chest. Mr. E. M. Frye, a prominent merchant of Boquet, speaks very highly of Pain Balm, and his recommendations have had much to do with making it popular there. For sale by O. M. Royster, Druggist.

Easy to Take Easy to Operate

Are features peculiar to Hood's Pills. Small in size, tasteless, efficient, thorough. As one man

Hood's Pills

said: "You never know you have taken a pill till it is all over." 25c. C. I. Hood & Co., Proprietors, Lowell, Mass. The only pills to take with Hood's Sarsaparilla.

M'KINLEY DOES NOT EXPECT TO TAKE THE STUMP.

The Major Says He Knows Very Little of Mr. Bryan—They Were Not Together in Congress—He has no Summer Vacation in Prospect.

CLEVELAND, July 21.—Maj. McKinley talked briefly this afternoon about the coming campaign, and briefly outlined his plans. He said: "Through the heat of the campaign I will pass the time quietly with my wife in our home at Canton. At first we intended to take a summer vacation but have reconsidered the matter. My mail is becoming larger daily, and it must receive proper attention."

"In the event of Bryan's pursuing an aggressive campaign, and carrying the fight into the enemy's camp, will you take the stump?"

"That is a hard question to answer, but I will say that such a course on my part is hardly probable, although one cannot now forecast just what will come up to upset present calculations."

"I do not expect to make many speeches from now on. There are a few addresses that have been promised but outside of these I will only speak informally on occasions when it is necessary."

"With the exception of running down to Alliance to attend the commencement exercises at Mount Union College for a half day, I will be in Cleveland for three or four days this week, as the guest of Mr. Hanna. My only object in coming here was to attend the centennial."

"In what light do you view your opponent for Presidential honors?"

"Well, to be frank, I hardly know Mr. Bryan, outside of what I have read in the newspapers. Of course, I have met him, but only casually, and really could not conscientiously form any opinion until I had come into more personal contact with him. The impression has got abroad that he served in congress with me, but that is a mistake. Mr. Bryan has the reputation of being an eloquent, forcible, and aggressive talker, but outside of that I hardly know anything about him."—Washington Post.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial Bottles Free at O. M. Royster's Drug Store.

From the New Haven Morning News.

Free, unlimited and independent coinage of silver at 16 to 1 would mean a silver dollar worth but 53 cents. It would be the settlement of debts at a basis of 53 cents on the dollar; would ruin industry, deplete capital, and cut wages and savings in half. Can any honest American lend himself to such legalized dishonesty? Can any Democrat endorse the Altgeldism with which the Chicago platform teems? Decidedly not. It is time for the friends of true Democracy to step forward and fight to compass the defeat of such a platform and a Presidential candidate whose socialistic speech upon the floor of the convention was his sole recommendation.

Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the One True Blood Purifier. Its superior merit is an established fact, and merit wins. Hood's Pills are easy to take, easy to operate. Cure indigestion, headache.

Nature's Saloons.

There are certain orchids that secure fertilization of their stigmas by making bees drunk. In no other way could they get these insects to carry the pollen to the proper place. Each flower is a veritable saloon, licensed by nature. The beverage supplied is distinctly alcoholic.

Thirty Thousand Victims.

The Secretary of State has received a report from the United States Minister at Tokio in regard to the recent tidal wave disaster in Japan which caused the death of 30,000 people and left twice that number homeless and starving. It occurred on the evening of June 15th last, the northern littoral of the Island of Hondo for a distance of nearly 200 miles being submerged by a tremendous tidal wave eighty feet in height, which swept irresistibly upon the coast, and only spent its energy after a rush of miles into the interior, and retired, leaving a desolate waste of sand and debris where had stood so many homes and thriving villages. The first meagre report from the scene of the catastrophe gave little idea of its magnitude, but each succeeding budget of news arriving from the north added to the appalling character of the disaster, until at the time of the minister's report, June 25, it was estimated that the mortalities would number more than 30,000. No Americans suffered either in property or person. Japan has sought no foreign aid, but seems able to provide for all its destitute. The imperial family headed the subscription list with 14,000 yen.

The platform adopted by the Chicago Convention is such a declaration of purposes and principles as no consistent Democrat and no lover of the country can conscientiously approve. No man fit to be President or Vice-President of the United States could in honor stand upon it, and it is therefore quite unnecessary to consider what manner of persons have been presented for the suffrages of the people. Because the Recrd has been a firm supporter of Democratic principles, it repudiates, condemns, and spits upon this communistic, populist deliriance.

State Senator Henry L. Martin of Woodford county, Kentucky, the home of ex-Senator Blackburn, declares he will not support the Chicago nominee or platform.

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of blackberry cordial but got no relief. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by O. M. Royster, Druggist.

A. P. T. L.

The American Protective Tariff League is a national organization advocating "Protection to American Labor and Industry" as explained by its constitution, as follows:

"The object of this League shall be to protect American labor by a tariff on imports, which shall adequately secure American industrial products against the competition of foreign labor."

There are no personal or private profits in connection with the organization and it is sustained by memberships, contributions and the distribution of its publications.

- FIRST: Correspondence is solicited regarding "Membership" and "Official Correspondence." SECOND: We need and welcome contributions, whether small or large, to our cause. THIRD: We publish a large line of documents covering all phases of the Tariff question. Complete sets will be mailed to any address for 50 cents. FOURTH: Send postal card request for free sample copy of the "American Economist." Address: William F. Wakeman, General Secretary, 125 West 23rd Street, New York.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. She reaches the full degree of womanly development until she has felt the pleasurable responsibilities of maternity. All this happiness may be marred or turned into misery if the child is not a healthy child. The health of the child depends on the health of the mother, both before and after birth. Heredity is strong, and it is every woman's duty to give her children the best possible chance in life. Nothing that she could possibly give them can be as valuable as health. Wealth cannot be enjoyed without health. Nothing can be enjoyed without health. Health is life. People who are not healthy are only half alive. The child who starts out with a robust body and vigorous, wise health, has everything to be thankful for and nothing to be afraid of. You cannot expect such a child to spring from a weak and sickly mother. Most all of woman's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. All such trouble is as unnecessary as it is terribly distressing. Dr. Pierce's Favorite Prescription will cure all troubles of this nature. There is no guess-work about this statement, and there is no qualification. The "Favorite Prescription" should be used promptly and persistently until the symptoms entirely disappear. In every case, it restores perfect health and strength, and assists in the healthful and regular performance of all the natural functions of the "Female System." It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, assuages the pains and danger of childbirth and insures the health of both mother and child. If you care to know all about the "Favorite Prescription," and to read the testimony of hundreds of grateful women, send at once-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Common Sense Medical Adviser—100 pages, profusely illustrated. Address: World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

Corn

is a vigorous feeder and responds well to liberal fertilization. On corn lands the yield increases and the soil improves if properly treated with fertilizers containing not under 7% actual

Potash.

A trial of this plan costs but little and is sure to lead to profitable culture.

Our pamphlets are not advertising circulars bearing spectacular claims, but are practical works, containing latest researches on the subject of fertilization, and are really helpful to farmers. They are sent free for the asking. GERMAN KALI WORKS, 93 Nassau St., New York.
