Unfortunately the prices they are now realizing are redicu-lously low, but they have them-selves to blame for that. They could and should get better prices

-The street leading from King to Sterling streets beyond Mrs. Ferree's property is being opened up to travel. A substantial culvert has been constructed over the branch and a fill will be made to bring the road up to the level of the fill on Sterling street. It will be a short way to the depot and a great convenience to the citizens of South Morganton.

-Mr. J. H. Pearson showed us a few days ago some beautiful specimens of granite from a quary which he has just opened on some of his property just outside of town. Mr. Pearson had purchased stone in another county for his new residence, but none of that shipped him was as fine a building stone as that found on his own premises within a few hundred yards of his building site..

A rope had been stretched from bank to bank, and the three men each taking hold of this rope, attempted to pull the awkward craft across the swollen stream. The current was very swift and a stiff wind down the river sent the waves dashing over the side of the boat. They made very good headway until about two-thirds the distance across the stream, when the current and the wind became so strong that they were unable to pull the boat any -A solid train of vestibuled nearer the bank, the slack rope fences.
