We would be glad to reproduce the very excellent message or Governor Fowle to the Legislature, but want of space forbids. He calls attention to many facts that must be particularly gratifying to every true North Carolinian. The State debt has all been funded in 4 and 6 per cent bonds, and amounts to only \$5. 939,131. As the interest on the \$2,720,000 of 6 per cent. bonds is all met by the rental received fo the State's interest in the N. C R. R., the debt is practically only \$3,219,131 bearing 4 per cent. in terest. The assessed value of all the property in the State is \$227,-000,000, a gain of \$10,000,000 in the last two years. The real value of this property is fully twice as much as the assessed value. The Governor calls attention to the crying need for a uniform system of assessment, the present wretched system or rather want of system working great hardship on certain sections. He earnestly recommends the establishment of a board of equaliza-

On the subject of education the Governor urged the Legislature to increase the school fund and provide for a four months school. The entire educational fund for 1890 was \$718,225. The children of school age number 588,688, the number enrolled is 332,533, and the average attendance 203,100. During the past year 256,155 children within the school age did not attend the public schools. The University received special attention in the message, and the Legislature is urged to make such an appropriation as will make it effective. The Agricultural Department, the Governor says, is very important to the agricultural interests of the state, and the loss of the fertilizer tax would paralyze the department unless an additional appropriation was made. He suggests that ports which show conclusively a fund might be raised by levying a tax of 20 cents per ton on all commercial fertilizer sold in the State, which has been held to be constitutional.

The Agricultural and Mechanical College, which now has 85 pupils enrolled, of whom 72 per cent, are the sons of farmers, was commended to the Legislature and an annual appropriation of \$25.000 was recommended.

The penitentiary, which has heretofore been a heavy expense to the State, is under its present management not only self sus taining, but its earnings had exceeded its expenses by \$92,805.

The Governor recommends that provision be made for the employment of the convicts in the manufacture of jute bagging, as they would not compete with any other State industry and would be of great benefit to the cotton planters by furnishing cheap bagging right at their doors.

The State now pays pensions to 4,051 persons, of whom 2,522 were widows and only 1429 Confederate soldiers.

Since the last meeting of the ventions and discoveries of the Legislature the Department of day. State has issued 1453 grants, covering 134,000 acres of vacant public lands.

The public charities of the State were commented on and liberal extracts were made from the reports of Drs. Murphy, Wood and Miller, the Superintendents of the three Insane Asylums.

The railroad milage of the state had increased from 2,550 miles in 1888 to 3.100 miles in 1890, the assessed valuation increasing in the same period \$3,387,164. The modern magazine may be taken as embodying the literature of the world, as the magazine editor pays the highest prices to novelists, scientists, statesmen, soldiers, and even kings and princes, for the best they can furnish in the literary line. The well-edited magazine becomes an educating influence in the family circle, whose investigated, cannot be over-estimated. Back taxes to the amount of \$15. ooo have been collected from the Raleigh and Gaston R. R., and several other state roads will hereafter be taxed, thus increas-

ing the state revenues. One of the most important recommendations in the message, and one which we hope to see the Legislature act upon is that recommending the repeal of the provision exempting married women from the operation of the Statute of limitations. If the Legislature would go a step further, and make the statute run against minors after the appointment and qualification of a guardian a good step would be taken towards simplifying our titles and preventing vexatious litigation.

The importance of North Carmore than the Cosmopolitan for little more than the cost of that magazine and THE HERALD. Just think of what the combination means? olina's making a creditable exhibit at Chicago was urged upon the of at least \$25,000 was recom-

mended for that purpose. He made the hearts of the Legislators glad by the announcement that the Governor's mansion had all been paid for except a balance due the penitentiary.

the combination means! You obtain your own home journal and a magazine which gives you, in a year 1,586 pages of reading matter by the ablest writers of the world, including over 1,300 pages of illustrations that are unsurpassed in point of interest and execution. Will it not pay you to send a subscrption to this office for THE HEMALD and the Cosmopolitus immediately? Remember, only \$2.50 for the two. Upon the whole, Governor le's message is a very thought- THE HERALD Job Office.

ful document and it will be great assistance to the Legislature in their deliberations on the important subjects of which it

that free passes may influence the

judges in litigation affecting the

railroads If this is not the reason

for the bill, there can be none.

Let us see if this is so. An exam-

ination of the cases reported in

the Supreme Court reports for

1880 and 1800 show that during

those two years thirty-five cases

have been carried to the Supreme

Court by appeal. Of this number

20 were decided in the Superior

Courts against the railroads and

six were won by the railroads. In

19 cases judg-nents against the

railroads were affirmed and in on-

ly 5 out of the 37 did the roads

obtain a final judgment in their

favor, or in other words the rail-

roads gained one case out of sev-

en. There are eleven cases in

which new trials were awarded,

and of the cases finally disposed

of four to one were decided against

the roads. This does not look

like the free passes had very seri-

ously affected litigation against

the cititizen. It should be re-

membered, moreover, that in fully

nine cases out of every ten brought

by a citizen against a railroad

company there is either a com-

promise in which the railroad has

to pay the citizen or the citizen

gets a judgment and there is no

appeal. There is nothing in the

history of the courts of this State

which will go to show that the

citizen does not get full justice

from our judiciary when they sue

or are sued by a corporation. It

judges shall not accept free passes,
