SUBSCRIPTION PRICE. - - \$1.00 THURSDAY, SEPT. 17, 1891. THE legislature of Georgia having refused to accept the home for disabled confederate soldiers which the citizens of Atlanta had provided at a cost of \$100,000, the profits. "Old Hutch," the Chicago ed to hamper the investigation directors of that institution have grain gambler, made a cool \$600,- which it has pretended to be so determined to close its doors, and the poor old maimed veterans will price of wheat took a jump up by reason of a circular issued to Allihave to stay out in the cold until another legislature meets. It is charged, with what truth we cannot say, that the members of the Georgia legislature refused to

make the appropriation that would have been necessary to meet the running expenses of the home for disabled Confederates because they thought that their action would be criticised by some of the Alliance leaders in the North west. If this is true, the spectacle is one which we never expected to see in the South,-a Southern legislature afraid to provide for a few maimed soldiers who fought for the South because they did not want to wound the feelings of the Northern soldiers in Kansas and other Northern and Western States on whom the government is spending more than \$100,000,000 a year in pensions. Whether this was the cause of the action of the Georgia the old veterans out in the cold on account of a sudden spasm of next legislature men of different | favor of the third party. views. The people of the North will despise the cowardice or the niggardliness of the Georgia legislature in this matter just as thoroughly as will the people of the South.

If we believe the reports from Kansas, and we admit they are a little hard to believe, all the Democrats can do in 1892 will be to sit on the fence and see the third party procession go by. President Butler says there seems to be no need of a third party in North Carolina, but if the tele-President Polk says the third who is right, but time will tell. have a great many things that we don't need and need a good many things that we don't have, and so it goes. Political parties are expensive luxuries and this country ported, let her come. This is a free country, and while we would prefer that the third party would it would come on and get down to

THE END OF THE WORLD.

Nated Divine Fundists a tirend fillmaturis A Sun Within You Yours, INDIANAPOLIS, Ind., Sept. 13,-

Great interest has been occusion ed by an announcement by Her. Dr. Joseph S. Jenekes, rector of St. Paul's Church, that the end of the world is close at hand- Dr. Jenekes gave up a Inerative law practice in 1864 at Lonisville, and entered the Christian ministry under a very strong conviction that the end of this age and the inauguration of the reign for a thousand years of the Savious would occur within about 125 years. For several years this was the central fact of his preach ing, but eigenmetances truded some years since to check his andor of conviction, and he found himself drifting toward a looseness of views respecting this important subject. He has recently had a thorough awakening through futurios, and could in favor of an eight the inflornce of a discovery and a pullication. The da covery was that an error in the accepted system of chromology has been lately found, which had made the time of the Judges as governors of Israel 350 inspend of 450 years. "This correction, together with

the twenty seven years that have weakness, elapsed since 1861," says Dr. Jenekes, "bring this most astone ding crises within less them ten \$5,000 during his residence in Washing years of the present time." The to publication is series of studies aske modestly calls them, by Lieut. (). stonal duty at Yale University, Connecticut. The series competses four small volumes, three of which have already appeared and the fourth is in the printer's bands. In these the author powes the position above stated to his own satisfaction by a fund of exhaustive researches derived from history, secular and proface, Milmo chronology, astronomy, and revelation. Convinced by the engend and conclusive reasoning of Prof. Totten and of a number of English and some American writers that these things are true, Dr. Jenekas Bone, Loon. arrays himself positively and unequivocally with the curnest advocates thereof. He samestly and affectionately warms all persons, whoever they may be to less they would, within less than ten years, become ashes under the soles of the feet of the righte-
