President Cleveland's Remarkable Capac-His Home in Delaware-The Weather Burean Investigation a Nasty Mess-The New Commissoner of Pensions-Other

Correspondence of THE MORGANTON HERALD. WASHINGTON, D. C.,) April 10, 1893.

President Cleveland has a remarkable capacity for standing long hours of hard work, and it has been put to a severe test since his inauguration, as it has been the exception rather than the rule when he has been able to retire before 2 o'clock in the morning, and he is always at his desk again of a little undisturbed rest, he, in company with Secretary Gresafternoon and he will not return until to-morrow. His destination he might be followed by some of growth the entire growing season. the importunate office-seekers, anxious to personally present their claims. They went to see

in Wilmington, Delaware. The investigation of the Weathlittle extra whiskey money, and after the sheep were starved out. the stealing was done in daylight, far are the foreman of the press the sheep. room and the Captain of the The climate is also favorable; that the evidence will prove it, sections located at lower altitudes.

party duty and loyalty were ap- cessfully. pealed to by the President. His war record is of the bravest, and the G. A. R., no member of that organization has so tar as known had a word to say against his special fitness for the position. He was born in Vermont, but has resided in Minnesota since 1857, with the exception of the time he served in the army. He will take charge of the Pension Bureau,

about May first. Secretary Morton found not on ly individuals employed by the Agricultural department who were not rendering services in anything like a fair proportion to the salaries they receive, but a whole division of employes who have been for more than a year. This was the quarantine division of the Bu reau of Animal Industry, which Secretary Morton has just abolished. Quite a howl has been rais ed by the republicans because the do no wrong. We propose to de Blaine's brother, although it is difficult to understand why that

Secretary Lamont hasn't been officers who have been calculating to spend the summer at the World's Fair and the various sum mer resorts but no one can deny that it is just to the people who pay these men their salaries, and doubly just to the officers without "pull" who have to perform, in addition to their own, the duties of the butterflies of the profession.

Postmaster General Bissell has decided that no fourth class post but were removable at the pleas and mountainous country, to a ident, and after all it will make there are so many who have served four years or more that by the time they are removed nearly all of the rest will have become results of the results of the rest will have become results of the rest will have become results of the results of the rest will have become results of the rest will have been results of the results of the rest will h movable under the new rule.

thousands of households.

SHEEP-RAISING IN NORTH CAROLINA The Western Part of the State Especially Suited for This Industry.

Written for the Morganton Herald. BY C. H. WIMSON. The sheep-raising industry in

this section is not yet far enough reliable information about the results. The western part of North ity for Standing Long Hours of Hard Carolina composed of the coun-Work-The President and Secretary ties of Mitchell, Watauga and the various lots and parcels Gresham Visit Ambassador Bayard at Ash, is to my personal knowledge in every way suited and has exceptional advantages for raising

feet above sea level, but so mounmountain plateau.

The greater part of the soil is diately resold. decomposed Huronian slate enriched by the accumulation for on it from the dense forests. In until all is disposed of. before 8 o'clock. Feeling the need | many cases the rich soil is found on the mountain sides and summits 4,000, 5,000 and 6,000 feet ham, left Washington Saturday above sea level, producing as fine palatable grass as I have seen anywhere, and by the excessive was not made public for fear that rainfall stimulated to vigorous

The grasses are also fattening, but the nature of the soil is not calculated to successfully carry Ambassador Bayard at his home any but light stock. Heavy cattle and horses poach it, while cattle also injure the pastures by puler Bureau, now being publicly ling the grasses. The soil does conducted after office hours at the not hold the roots so firmly that Department of Agriculture, is a the plant can be pulled off without very nasty mess as far as it has injury to the setting. Sheep, begone, and it promises to grow ing light on foot and cutting the even nastier. The property of grasses, never injure but always the bureau has, according to the benefit them. Over-stocking with testimony, been stolen and sold sheep in this section will hurt the to junk dealers whenever certain of the minor officials needed a latter would spring up quickly

Fresh spring water is plentiful the employees of the bureau be all along the mountain slopes and ing used to load it upon wagons. in the coves of the summits, while About everything seems to have outside of the springs and brooks been included in the thefts, upon | the surface is dry, the friable charone occusion a stone step being acter of the soil readily absorbing taken from the building itself, the excessive moisture, leaving The principal men implicated thus the surface dry and healthful to

watch, but others higher up are the winters are mild, and the sumsaid to have received a portion mers cool, with much less of the of the money, and it is expected animal fly pest than one finds in

Secretary Morton is determined The rich soil and excessive to get to the bottom of the filth moisture has produced a heavy and to see that every guilty man growth of timber, which is the is punished, regardless of who he greatest drawback to making sheep may be or who may be his friends. pastures, but this is compensated Maj. Gen. Schofield and Major by the protection it gives the Gen. Miles have had a squabble country against the practice in at long range over the trouble in sheep husbandry called "ranging" Indian Territory. The quarrel is or "ranching", so attractive to understood to have occured over many inexperienced men, who the carrying out of an order for fail by their misdirected efforts, the detail of an army officer to and discourage all other further investigate the trouble. No U.S. attempts to establish the industry troops will be sent there unless on a proper and legitimate basis.

the Sec. of the Interior requests it. although he is not a member of The Merry War Over Sunday Amusement Still Rages-The Legislature Doing Land Office Business.

> Correspondence of THE MORGANION HERALD. The war over Sunday amuse ments still goes on. Meetings are held and largely attended; resolu tions adopted and passed, and great effort made to get control by both sides. The principles held by the contending parties, though variously worded, might be given in a nut-shelt as follows:

Church party :- You profane the Sabbath which is God's own institution. You take from us the one day in seven which should be practically paid for doing nothing worship of God. It is the duty of devoted to religion and the a government to protect the Sab bath by laws, and whoever will break these laws should be treated as criminals.

chief of the abolished division nothing that will harm any living person or harm ourselves. For immoral entertainments we do not should make the slighest difference. to do. We uphold the teachings speak, with them we have nothing Surely they did not expect that a democratic administration would bath was made for man and not feel called upon to take care of the man for the Sabbath. We uphold poor members of the Blaine fami- that whatever would have a narmful effect on Sunday, would harm doing much talking-he never week. We allow to every man the does—but that he has been doing guidance of his own conscience for some investigating and thinking religious matters. We do not seek more army officers will be detailed on us. We find conflicting creeds: for ornamental purposes. This we would give to every man the may be a little rough on the army liberty to choose for himself. We are contending for the FREEDOM of the human race, not for increasing its fetters.

The State's legislature is immortalizing itself by firing off new laws like showers of rockets, and they now number about 300. Some of the appropriations of money would be very comic if they were not so serious in the up shot. As masters shall be removed, except place which boasts of a sulphur served all or nearly all of a four tract, and the country around a year term. This is a new rule, as nest of cut-throats, is to have a these officials have never been road, built at enormous expense considered to have a fixed term, from this place, through a rugged ure of the department. The lake three or four miles distant. change is understood to have been The government is to bear the expense of this road-many thouno difference in the end, because shadow of reason or excuse for this, sand dollars. There is not even a
