Why Should John Sherman Have Returned to Washington at This Time !-Other Gessip. From Our Regular Correspondent.

WASHINGTON, August 9th, 1897. -There are many opinions as to why John Sherman should have returned to Washington and taken charge of the State department at this time. Some say that the old man intends to make a fight to knock out the Hanna-McKinley cabinet after the Ohio election; others that he has a scheme of his own to get even with the adminis tration for the treatment he has received by getting it into some new foreign complication, but the generally accepted idea is that be is in Washington solely to enjoy bossing the State department, a privilege that is denied him when Mr. McKinley and Assistant Secretary Day, are in town.
