"We'd have starved to death if it hadn't been for the Red Cross packages," Dimling said. "Our daily menu consisted of ersatz tea or coffee, unsweetened, for breakfast; a small chunk of bread, a dab of margarine, and watery soup for lunch; and some more of the same watery soup for supper. On Sunday afternoons there wasn't any food of any kind.

# Put yourself in his shoes

Suppose there weren't enough money to bring your child into the world? In a tearful letter, Pvt. R.'s wife told him she was going to have a baby. There wasn't enough money to pay for medical care and hospitalization. Helpless, Pvt. R. appealed to the Red Cross. In a few days he received word that they had assisted his wife in applying for emergency maternity and infant care.

Suppose you were wounded, disabled, jobless and discouraged? A Marine Private, he was wounded in the South Pacific and discharged for disability. He went home discouraged at the prospect of making his living again. Unable to take up his former trade, in desperation he appealed to the Red Cross. They put him in touch with the proper agency-he's doing swell, now.

Suppose your mother were ill and without funds? Seaman T. M. received word his mother was desperately ill and without money. He remembered advice he'd heard and went to his Red Cross Field Director who requested the boy's local chapter to arrange for care. They did. Now, anxiety lifted, Seaman T. M. is a better fighting man. Another example of your Red Cross

Suppose your son were taken prisoner? Imagine the anxiety of the parents of Pvt. E. D., who had had no word from him in months. The Red Cross sent a welfare inquiry. And then the International Red Cross reported that he was healthy and well, and was receiving regularly the American Red Cross packages that helped keep up his spirits. Your money gets the packages to him.

Suppose you were dying for want of blood plasma? The shrapnel and fragments from a shell burst riddled Sgt. R. J. M.'s left arm. He was losing blood fast. A medical corpsman administered first aid and Red Cross blood plasma. Then they carried him to the field station and gave him 8 more pints of plasma. Without it, he would

Suppose you'd lost your leg? And you couldn't bring yourself to tell your family? It happened to Sgt. J. T. and now his parents were ng to see him in the hospital. He appealed to a Red Cross worker to break the news for him. It was a tough job, but she did . . . and soon Mom was holding his hand while Dad was telling funny stories-and Sgt. J. T. was smiling happily.

## The Red Cross can't do this work without your help!

The actual cases outlined above illustrate just a few of the thousands of ways in which the Red Cross helps our fighting men-at flome and overseas. But without your help there would be no Red Cross to do this humanitarian work. For the Red Cross is wholly dependent on the money that you and other sympathetic Americans contribute. And after three years of war, the work of your Red Cross is greater than ever.

Think of the suffering you can alleviate by your contribution—and how proud you can be of your part in this work. Won't you give all you can?
