

### Clearing Up The Streams

By J. E. Adair, Soil Conservationist

The Long Memorial Methodist Church of Roxboro was without a preacher Sunday due to the N. C. Methodist Conference and the change in assignment of Pastors. Therefore, a number of the Methodist congregation attended other churches. I was among this number and at church I usually sit on a back seat, but Sunday as I was among the last to arrive, I was seated in the very first pew down in the front where I witnessed a very interesting sermon by Rev. Boyce Brooks of the Roxboro Baptist Church. Rev. Brooks' text was the Parable of the Sower.

Rev. Brooks Uses Agricultural Comparison  
As I interpreted the Pastors sermon he stressed the importance of "receptance and response" with emphasis on response. He stated that a person may walk down the streets

of Roxboro and see the doors of the church, may hear the church bells ring and may enter and hear the words of the Lord. But, Mr. Brooks continues, that is not enough. We must have a response if we are to enter the Kingdom of the Lords. This thought was plainly understood by the agricultural minded people in Palestine by the farmers sowing seed in the soil. Mr. Brooks pointed out that the soil must not only be receptive to seed sown but must also be responsive. It must grow and produce fruit and food for God's children to survive as we are dependent on our soil for our existence upon this earth.

#### Four Soil Types Explained By Minister in Saving Souls

(1) The FERTILE SOIL with well prepared seed bed was the first type explained. Seed sown on such soil is highly receptive and will germinate and will grow well and everything being responsive a good yield will be harvested.

(2) The HARD SOIL, which Mr. Brooks gave as an example, a path through a field that so many of us in life use as a short cut. This area is hard but may be plowed with difficulty and it will be receptive to seed sown. The seed will come up but the response will not be so good. Compared to life and the words of the Lord it may be interpreted to refer to the person with a "closed mind."

(3) The THORNY SOIL is a third type that may be fertile, but has scattered throughout its body thorn seed. These seed will be in competition in crowding out the desirable fruits and food that the sower would like to harvest. In life evils may be embedded in the mind that tend to prevent the response of the words of the Lord.

(4) The ROCKY SOIL is the type that has only an inch or two of topsoil and there is the close underlying rock. Such soils as pointed out by the preacher are receptive to the sowing of the seed. The seed will come up but the heat from the close underlying rock will cause the plant to wither and die.

All of the above types of soil were compared to life by the sowing of the Lord's words in the Soul. Not only must there be a receptance, but there is a necessity for a response. It is to enter the Kingdom of the Lords.

Fifth Soil Type Suggested By Conservationist in Saving Our Soils  
Everything that has been said by our Rev. Brooks is all well and good. But as a Soil Conservationist I am suggesting that a fifth soil type be added to advance this thought one step further. For the like of a better name this fifth soil type could be

### Yank Troops Stage Rodeo

Tokyo. — American occupation troops observed Armistice day by staging a rodeo at the Meiji ball grounds.

A Fifth air force aerial circus was thrown in—just as a reminder of the last war.

An estimated 70,000 occupation troops overflowed the stadium to watch probably the first rodeo ever staged in Japan.

Japanese remained in their homes. Their newspaper carried stories telling them transportation would be tied up most of the day in order to carry thousands of United States soldiers to the rodeo.

The Japanese attempted no observance of Armistice day, although it relates to world war I when they were on the winning side.

### Steaks Cost Man After Quarrel

Greenville.—In police court Judge Jimmy Roberts found Edward H. Burditt, travelling salesman, guilty of assaulting Nick Sideris, proprietor of a local cafe, fined him \$25 and required the defendant to pay the cafe six dollars for three steaks he ordered.

Testimony showed that Burditt, his wife and a friend ordered steaks in the cafe, and that when he could not get butter with his order he used profane language and started to leave.

#### JEROME KERN DIES

New York.—Jerome Kern, 60-year-old composer, whose tuneful melodies have captivated America for more than 30 years, died Sunday.

The composer of "Show Boat," "Smoke Gets in Your Eyes" and many others of the nation's best loved songs, died in Doctors hospital at 1:00 p. m.
