Following a long Indian Summer, with balmy weather, winter weather is taking its place on the calendar, which is keenly felt.

Church Services

The Rev. H. C. Gregory filled his regular appointment at the Methodist church on Sunday morning, "Teach Me Thy Ways" was the theme of his sermon. Sunday evening services were held at the Christian church with the pastor, Dr. E. Newman, delivering an able sermon on "Brotherly Love".

W. M. S. To Meet

The Baptist W. M. S. will meet on Wednesday afternoon at the home of Mrs. E. R. Harris. Program will be in charge of Mrs. Freddie Winfree.

Thanksgiving Day was quietly observed here with stores closed and only Sunday hours kept at the post office. It was a homecoming holiday for students and others returning to be with their families for turkey dinners.

The day this year carried special significance, as Americans throughout the world thanked God for their first peace-time Thanksgiving in four years.

A union Thanksgiving service was held on Thursday night at the Methodist church.

UPSET STOMACHS YIELD INCHES OF GAS AND BLOAT

"I was so full of gas I was afraid I'd burst. Sour, bitter substance rose up in my throat from my upset stomach after meals. I got INNER-AID, and it worked inches of gas and bloat from me. Waistline is way down now. Meals are a pleasure. I praise Inner-Aid to the sky."—This is an actual testimonial from a man living right here in Roxboro.

INNER-AID is the new formula containing medicinal juices from 12 Great Herbs; these herbs cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering—Get Inner-Aid. Sold by all drug stores here in Person County.

Governor Hopes For New Plants In This State

Greensboro.—Governor Cherry expressed the hope that "as we expand old industries in North Carolina and build new ones, we will find new industries developing largely out of our own raw materials here at hand."

Addressing the annual convention of the International Association of Industrial Accident Boards and Commissioners here, Cherry explained the steps North Carolina is taking "to insure continuance of a supply of skilled men and women for the various industrial fields."

He said this state is looking to the establishment of area vocational schools for the training of young people as technicians, specialists, and skilled workers in various crafts. Our state, he said, has a textile school for persons of high school age who desire to perfect themselves in that field.

"We plan to continue in our own way the emergency program of the federal government in giving a lot of skill to a lot of people to do better work with their hands," Cherry said. "It was necessary to produce the materials to win a war and it is necessary to a converted production for the kind of America we will have in years ahead. Our colleges, finishing their training programs for Uncle Sam, are pointing up their programs to meet the needs of a new day."

Although most of the wartime industries that sprung into being in the south are not permanent in nature, Cherry said, they have created
