A LOT OF GOOD COMES FROM THE EARTH

Sonny was sayin' that ol' bossy cow is jes' a natchel factory for making milk out o' fodder. But I tell him that making good milk begins when mother nature gave us the fertilizer to help the fodder grow. I was referin' to the natchel soda us farmers uses on all our crops.

body knows for sure quite how it got there. But they does know the wonderful things natchel Chilean soda does for crops.

Seems like jes' being natchel makes Chilean soda different from any other kind. Maybe folks won't be able to get all they want this season, but if we're careful with what we get, it may do.
