

BOARD

"This group," Spokesman Kane said, "fully realize the problems of the town board, and they further realize that to carry out effectively any or a part of the suggestions offered, it will require the aid and cooperation of the business people and other citizens. These recommendations are not made in a critical manner, but are expressions from a cross section of the citizens of our community, prompted by complaints and personal observation. We sincerely hope that all or a part of these suggestions may prove helpful to you in making Roxboro a more desirable place in which to live, continue in business, and prove more inviting to new-

comers and strangers." Specific recommendations were: 1. That an effort be made to acquire and put into use suitable parking lots off the principal streets of the town. 2. That parking on Main, from Reams to Abbit, be limited to one hour from 9 a. m. to 6 p. m.; that parking in this area be limited to one side of the street only, the sides used to be alternated weekly or semi-monthly; that bus stops in this area be left where they are; that sufficient signs be erected to inform the public of the changes; that parking on Main, from Reams to the Methodist church, be limited to one hour between 9 a. m. and 6 p. m., and hat parking be permitted parallel to the curb on both

sides of the street in this area, and a loading area be designated on each side of the street. 3. That parking on Reams, from Main west to the vacant lots at the rear of the Pioneer warehouse on the north side and the Wade grocery on the south side, be limited to one side only and one hour only from 9 a. m. to 6 p. m. 4. That zones for doctors and taxis be marked on Court; that two loading zones be laid off on the north side of Court, between Main and Lamar; and that parking on Court, except for doctors and taxis, be limited to one hour from 9 a. m. to 6 p. m. 5. That parking on Depot, from Main to Foushee, be limited to one side only and one hour only from 9 a. m. to 6 p. m. 6. That, if feasible, taxis be required to obtain and use a parking lot off the street; that parking meters be installed in congested areas, to facilitate police checking of the one-hour limit and to relieve parking congestion. 7. That parking violators be fined \$1 for the first offense and more for subsequent offenses; that first offenders be permitted to settle fines at the City office without coming to court; that necessary legal steps be taken to set up such a fining system. 8. That an effort be made to induce merchants to keep their trash in containers until picked up by City trucks; that a systematic trash collection schedule be inaugurated in the business section so that merchants will know just when to expect the trucks. 9. That more garbage containers be obtained for the business section and an educational program launched to get citizens to cooperate in keeping streets clean. 10. That, if possible, a flushing machine for street-cleaning be obtained and put into use immediately. 11. That a periodic fire inspection be held in the fire district every two or three weeks, at irregular

intervals. 12. That owners of disabled automobiles located in residential and business districts be required to move them off the streets after one week. **NEGROES** ation for sale.
