## ROSELAND ITEMS.

The McAslan brothers from Omaha, Neb., are guests at Roseland Inn. They are here looking over the land with the intention of settlement and engaging in stock raising.

There has been a large sale of Roseland property recently reported at a good advance over former prices. The site so level and attractive is well liked by all comers.

On Tuesday, May 16th, at high noon, the water gate at the Lake Dam was closed, and the lake which has heretofore appeared on the Roseland map, only, has now become an existant fact. It will add much to the beauty and

Dr. Platt, who was in charge of the Roseland property, was seen by the McAslan brothers on Monday. He was driving with two gentlemen when, for some unaccountable reason the horse started to run.

The two gentlemen were thrown to the ground, and Dr. Platt holding the reins and bracing himself against the foot-board, broke it away and was quickly drawn to the bottom of the wagon. His presence of mind, however, did not fail him, and quickly shifting his support to the cross-bar he recovered himself, and very soon brought the animal to a stop without harm or damage, save slight bruises to the occupants and the broken foot-board.

The people felt that the escape was much to be thankful for, for all would greatly regret any harm coming to Dr. Platt.
