It is all over town—

The family of C. A. Ball with other friends coming in two teams from Hardwick, Mass., passed through town Friday on their way to a farm which they are to occupy, a short distance to the southward. They drove all the way from Massachusetts, having been several weeks on the road. They had with them a cow and calf which they purchased on the road.

Our water works plant has been completed to an extent which allows tapping the main, and quite a party were present about noon at the Southern Pines hotel to witness the first tap which was made by Messrs Thurston and Davis for Mr. W. E. Giles for his hotel. The plumbing was done by Mr. F. H. Marcotte who is representing that popular firm—the Southern Plumbing & Heating Co. Raleigh.

Our passenger station is receiving a new coat of paint on top, and some new wording has been added to each end. Improvements come often on the S. A. L. and the order has been given for a new depot and warehouse to be built North of Connecticut avenue, the trolley line also to be extended some distance further north and across said avenue, thus giving the new building a position between the trolley line and the main line of the S. A. L. Railway. Agent Peck informs us that the new building will be used by the trolley line and the public in general—so that still further accommodations may be extended the patrons of the greater Seaboard.
