

# Student Supreme Court Upholds Reid's CAA Victory

BY STEVE MAGGI  
ASSISTANT UNIVERSITY EDITOR

Anthony Reid's narrow victory in the Carolina Athletic Association presidential runoff will stand after Wes Galbo's case against Reid and the Elections Board was dismissed by the Student Supreme Court on March 3.

Galbo said the dismissal deprived him of the chance to present his case. "I think we had a solid case. I was disappointed that it was dismissed," he said.

The court did not allow Mohr vs. Karras & Bracey, a case Galbo wanted to use as a precedent in his case, as admissible evi-

dence. An affidavit from former Chief Justice Malcolm Turner said the case had never been heard and therefore should not be allowed as evidence.

Defense counsel Mark Griggs argued that Galbo's case rested on Mohr vs. Karras & Bracey as precedent and that, because that case had been ruled inadmissible as evidence, Galbo's case should be dismissed.

The hearing, which lasted until 1:30 a.m., was adjourned after all defendants and Galbo testified. The court announced its decision to dismiss the case Friday afternoon.

All five members of the Elections Board who testified at the hearing said Galbo

had promised he would not appeal the runoff after the board spent four days attempting to contact write-in candidates. During the hearing, Galbo questioned the Elections Board's efforts to legitimize votes.

Reid said he was relieved by the decision. "I'm glad it's over," he said.

Galbo said he was frustrated by the Elections Board's handling of the situation. "I am disgusted with the conduct of the Elections Board and with their lack of responsibility."

Galbo said the Student Government Code needed to be changed. "This demonstrates the need for clarity in the Student Government Code," he said.

Galbo said he would not appeal. "The whole thing is over," he said.

Reid said that among his first duties as CAA president would be selecting new Cabinet members and planning events for this spring. "We want to have programs in the spring semester," he said.

"We're going to get CAA on the right track," Reid said.

Galbo said his hard feelings toward the Elections Board did not extend to Reid. "I have no hard feelings towards Anthony. I'm sure he will do a good job," he said.

Galbo received 14 more votes than Reid in the original CAA election Feb. 14. When Reid won the runoff Feb. 21 by a count of 1,883-1,869, Galbo decided to take his case to the Student Supreme Court, requesting that the original election results stand, and the results of the runoff be ignored.

## CHANCELLOR

FROM PAGE 1

Committee members have been traveling in smaller groups to meet with candidates out of a concern for candidates' anonymity, Harris said. "None of the people we've talked to want to come to North Carolina to visit the campus. They don't want to do anything that would remotely connect them with this search."

Because of the N.C. Open Meetings Law, candidates cannot come before the search committee as a whole without sacrificing their anonymity, Harris said.

### TUESDAY

3 p.m. Career Clinic: Develop an action plan for selecting a major or choosing a career in the Univer-

Groups of two or three committee members have traveled to interview candidates and then have reported back to the committee during closed session.

The N.C. Open Meetings Law requires public notification of all meetings where a majority of the members is present.

Harris defended the increase in cost caused by this new method of talking to candidates. "It is costing the University more than it did before," he said. "But if the University can select a new leader for — and this figure is just an example — for \$125,000, that would be a steal. That may be the best decision ever made."

### A GUIDE TO WARPED ORDERING:

OS/2 Warp can be purchased in 3 different ways, depending on what you have now and what kinds of programs you want to run. All three come on either 3.5" or CD.

A) I want to keep my existing Windows OR I want to upgrade my OS/2 for Windows 2.1 OR I don't give a hoot about running Windows programs (DOS & OS/2 are just fine).

OS/2 WARP \$69.00

B) I want to upgrade my full OS/2 v2.1 or 2.11 (with WINOS2) to OS/2 Warp v3 (and I sure don't want to go out and buy a copy of Windows and repartition my hard drive!)

OS/2 WARP with WINOS2 - UPGRADE \$69.00

C) I've been in a coma the past 10 years and I'm just now buying one of those new-fangled computers. So I thought, "what the heck", why not just put that Warp stuff on it! The commercial with the nuns is pretty funny.

OS/2 WARP with WINOS2 - NEW LICENSE \$114.00

Prices in effect through 3/31/95.

OS/2 is a registered trademark of IBM Corporation.
