Emergency Call Box Courtesy Phone

Emergency call boxes with direct lines to the University Police Department are located throughout campus. Some may look a little differently from the ones described here, so follow this rule of thumb: **If it has a receiver, pick it up. If it has a button, push it.** You do not need speak for the police to know your location and send help.

The two main types of call boxes are

- the yellow and red ones, which have a door that must be opened and a telephone receiver inside.
- the tall black lamplike ones with a blue light on top at night. To use these, just push the button.

Free Courtesy Telephones are located near the main entrances to almost all the residence halls. From these telephones, you can dial 911 or University Police, 2-6565, and talk to a dispatcher.
