\*They, you wouldn't give your money to just anyone. Neither can we. Offers expire October 13, 1995. No payment of principal or interest will be required for 90 days. Interest accruing during this 90-day period will be added to the principal and will bear interest which will be included in the repayment schedule. The monthly payment quoted above is an estimate based on a total loan amount of \$1,249 for the Performa 636 CD system shown above. The total loan amount also includes a 6.0% loan origination fee. Interest is variable based on the Commercial Paper Rate plus a spread of 6.5%. For example, the month of August 1995 had an interest rate of 12.21% with an annual percentage rate (APR) of 13.99%. Monthly payments may vary depending on actual computer system prices, total loan amounts, state and local sales taxes, and a change in the monthly variable interest rate. Prequalification expedites the loan process, but does not guarantee final loan approval.
