While standing under the waving flags of ROTC's color guard Tuesday, ROTC members and patriotic citizens celebrated the memories and accomplishments of the men and women who

served our country.
During the University's Veteran's Day ceremony at Polk Place, the audience lis tened to a speech given by a decorated World War II veteran, observed the color guard's practices and recognized the services of the veterans.

We wish to thank all our veterans for their sacrifices — for enduring long family separations, physical hardships and personal danger," Air Force ROTC Cadet Mike McGinley said.

Beginning in December, SHS plans to offer a new AIDS test in addition to the currently offered blood tests. Instead of needles and blood work, the new test, called Orasure, uses a swab of cheek cells to test for AIDS.

Unlike the current blood test, results from the new test come back sooner and hare just as accurate.

"The good thing about the Orasure test is that the results are sent back in 72

chours," Godwin said.

Gray said patients did not need to worry about the quality of the results from the new test.

Though students will have to pay for the Orasure test in cash, blood tests from SHS will remain free because they are under state contract. Paying in cash ensures patient confidentiality, she said.
No matter what type of test people

choose, getting tested in the first place is still very important, Godwin said. "Forty percent of the people who are infected with HIV still don't know," she
