Should you be a Geography Major?

Do you try to see the big picture? Geographers look for the way places fit together, interact with one another, and are influenced by larger, more global forces.

Can you adapt to technological change? Geographical Information Systems (GIS) have revolutionized the way geographers (and employers) collect, store, analyze, and present spatial information.

For info check our home page at: www.geog.unc.edu/ or contact Profs. Whitmore, Florin, or Greenland Saunders Hall

HOROSCOPES
by Linda C. Black

Today's Birthday (Feb. 5).
An intellectual attraction leads to true love this year. You'll know who the person is by the end of February. Difficulties may keep you apart in March. Overcoming them is expensive, but worthwhile. In April, an older friend has support you've been lacking. Everything that's on your mind in June and find the support you've been needing. You'll also be rewarded for several excellent new ideas. There are lots of changes taking place this year, particularly in June, September and December. The one in June involves love; the one in September involves your money; and the one in December has to do with a friend. Don't listen to a nay-sayer as long as you're headed in the right direction. Everything will turn out fine.
To get the advantage, check the day's rating: 10 is the easiest day; 0 the most challenging; Arise (March 22-April 19).
- Today is an 8 - You can't stand it when people beat around the bush. Today, all you'll have to do is ask if you seem to be getting contradictory answers, don't back off. Just point that out and keep after it until you get the whole story. This could be very entertaining.
Taurus (April 20-May 20).
- Today is a 6 - Your boss or an older person is in a generous mood. Watch out for one who wants to pay you with advice instead of cash, though. Don't take any 10Us. Meanwhile, value your sweetheart's advice highly. He or she can see something you're missing.
Gemini (May 21-June 21).
- Today is a 6 - Ask a Libra friend out to dinner. If you don't have a one, just ask the most attractive person you know. The combination with your sign and Libra is very complimentary. With your hyperactivity, you can burn both off those extra calories. Get out there and play!
Cancer (June 22-July 22).
- Today is a 6 - Information from a private source might not be right. The person who's passing along the gossip got it from somebody else, and you know how those things go. You're pretty good at dishing innuendoes yourself. So don't pass along any information you're not certain about. And don't pay much attention to anything you hear, either.
Leo (July 23-Aug. 22).
- Today is a 7 - If you don't have a marvelous time today, it's your own fault. Everyone you know will be enjoying themselves. It's an excellent day for group activities and meetings. Keep people focused on the subject at hand. Even big changes will be easy with the conditions that are in effect right now.
Virgo (Aug. 23-Sept. 22).
- Today is an 8 - You'll have to stay on your toes to keep ahead of the action today. Instead of getting frustrated, offer some guidance. You can figure out what the objective is, and the best route to get there. In other words, you're the navigator. Don't just sit there and be a passenger in life today.
Libra (Sept. 23-Oct. 23).
- Today is an 8 - You may have to go farther than you expected to get what you want. If it's not available in the local stores, try checking the catalogs. Actually, it may not even have been invented yet. Not to worry. Things are changing so fast that it'll probably be here.
Scorpio (Oct. 24-Nov. 21).
- Today is a 6 - If you don't have any investments, it's time you got some. Things are changing all around you. That's all the more reason to think about your security. Focus on long-term goals today. Otherwise, you're liable to spend everything you've got on something you want now. Resist the temptation.
Sagittarius (Nov. 22-Dec. 21).
- Today is an 8 - You're in for a very interesting day. Your competition has the advantage. Instead of getting into a fight you can't win, go into the situation with an even hand. If you take this stance in a confrontational situation, you'll learn something valuable and make a good impression on the other person.
Capricorn (Dec. 22-Jan. 19).
- Today is a 7 - Somebody's trying to talk your ear off. He or she wants to sell you something. There's only one thing to keep in mind. If this item is going to bring you more money, it's good. If it's going to cost you more money, it's bad. Make that clear and you'll shorten the conversation considerably.
Aquarius (Jan. 20-Feb. 18).
- Today is an 8 - You're attractive to a person whom you find attractive. The two of you might be able to get together for lunch or dinner. The conversation you get into could have interesting side effects. Something that starts out as a friendship could easily develop into more.
Pisces (Feb. 19-March 20).
- Today is a 6 - There is change in the air. You're lucky, forceful and dynamic. You're also good-looking. So what have you got to worry about? Absolutely nothing! Make your life into what you've always wanted to be. Toss out the whatever doesn't work, and get on to whatever does. You know which is which.
