- Call for Daily Blue Plate Specials

4015 University Drive
Durham, NC in BB&T Plaza
419-0907

Three ways to prepare for the MCAT over winter break:

1) Take a free full-length practice MCAT

Call us at 1-800-2Review and we'll send you a full-length test to take at home over the holidays. After you take the test we'll give you a score report detailing your strengths and weaknesses and we'll score your writing sample.

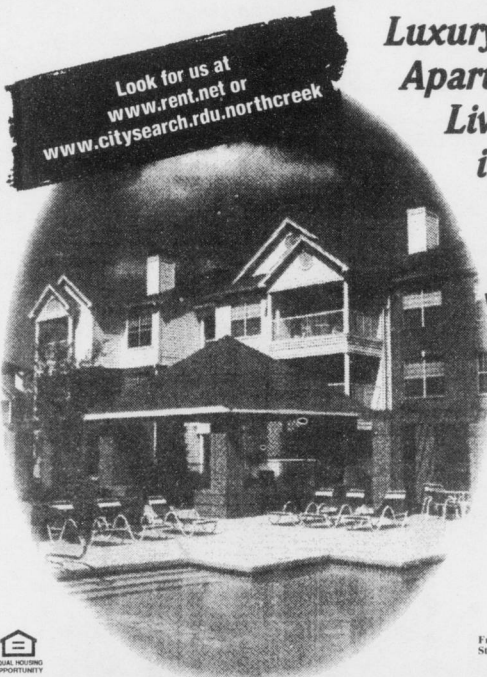

2) Read the right stuff

Too many otherwise strong readers underestimate the difficulty of the Verbal Reasoning section. Start your preparation now by reading MCAT-like material and focusing on the main idea of the essay and the structure of the author's argument rather than on the details presented. What is "MCAT-like material"? Typically, MCAT passages are dry, difficult and academic. However, you don't need to be an expert in paleontology or art history or anything else a passage may be about. What you do need to do is read essays across a broad range of topics and disciplines all at MCAT-level language and difficulty. Call us at 1-800-2Review and we'll send you free information on how to recognize MCAT-like material, where to find these essays and what to do with them once you've found them.

3) Memorize the hormone chart

Generally the MCAT tests your understanding of fundamental concepts and your ability to recognize and manipulate these concepts in many different forms and combinations. Some things, though, you just have to memorize and the hormone chart is one of them. We'll send you a copy in your new student packet when you sign up for the MCAT course.
