**Today's Birthday (March 23)**

You're very lucky this year, so take on a challenge. You feel like you can do anything in April, and maybe you can. You're getting unexpected assistance from a distant friend. Budget your money in May, to get more. June starts out well, but complications develop. Choose love over friendship in August, and accept a rematch with an old competitor in November. There's a lucky surprise in December, and by February you'll have learned this year's lesson.

To get the advantage, check the day's rating 10: The most challenging: Aries (March 21-April 19)

Today is a 6 - You're so smart, you might surprise even yourself with an idea you come up with today. It makes a problem you've been dealing with look simple. In fact, you might even feel a little stupid, when you realize how hard you've been making it. You do love a challenge, that's for sure, but you may have to find a new one.

Taurus (April 20-May 20)

Today is a 5 - You're generally very careful with your money, but today it could almost be giving them, easy. Go. Looks like a friend is in need and has a pretty good job story. Remember the old adage about teaching a person how to be a fisherman instead of just giving them the fish? It works better, and saves money for the next time.

Gemini (May 21-June 21)

Today is a 6 - You're pretty smart, but sometimes you tend to get a little nervous. That could happen today, if you're thrust into a position of authority. If you find yourself torqued and stressed, just focus on your overall objective.

Cancer (June 22-July 22)

Today is a 6 - If you can avoid traveling today, it's probably a good idea. You don't have to worry about danger, really, but delays could certainly mess up your plans, and you might get to your destination only to find that what you needed was here. If you're going shopping, let your fingers do the walking first.

Leo (July 23-Aug. 22)

Today is a 6 - Yesterday, you were the one with the communication difficulties, but today it could be the other way around. Offer your objective insights if you notice a friend making matters worse. When emotions get involved, it's hard for people to see clearly. The buttons being pushed today aren't yours, so you can provide the insight that's required.

Virgo (Aug. 23-Sept. 22)

Today is a 6 - An older person wants to order you around today. The only problem is, you know more about what's going on than he or she does. Don't you just hate it when this happens? You have to be diplomatic, firm, gentle, loving and persuasive, to make sure things stay on the right track. But you can do it.

Libra (Sept. 23-Oct. 23)

Today is a 6 - You have great talent, and you ought to exercise it. Somebody else who believes in you can really push you to succeed and make a big difference in your life, but the biggest difference comes when you believe in yourself. Go ahead and do that, even if you still have a few leers to the contrary.

Scorpio (Oct. 24-Nov. 23)

Today is a 5 - If money is still on your mind, perhaps you ought to review your options. List all the possibilities, plus their interests, how many points they charge and whether or not they want your first-born child as collateral. Shop, but don't buy quite yet.

Sagittarius (Nov. 24-Dec. 21)

Today is a 6 - Again we have some sort of stumbling block in the way. Well, they say that stumbling blocks are really steppingstones, it just depends on your attitude and your attitude. Keep that in mind today, and watch where you're going.

Capricorn (Dec. 22-Jan. 19)

Today is a 5 - Paperwork is your theme again today, but this time there's a twist. It looks like you could make money as well as help it out. Fill out all the forms you need for contests and rebates. One of them could turn out to be valuable. The question is, which one? You'll just have to wait and find out.

Aquarius (Jan. 20-Feb. 18)

Today is a 5 - Love and romance go together for most people, but for you, it's more like love and learning. You like to fall in love with the kind of people who love to learn, because they're just like you are. Besides, you can be in love with lots of them at the same time, and that's a great fun.

Pisces (Feb. 19-March 20)

Today is a 6 - The debate continues, whether you want it or not. Looks like this person who's giving you such a pile of trouble has a chip on his or her shoulder. How do you relate to someone who's just itching for a fight? You give a wide berth, that's all.
