## Horoscopes

Gemini (May 21-June 21)

### Today's Birthday (June 1).

Have you been having the same old dream, over and over again? Let it be your inspiration this year. Stop resisting the rules, for starters, in June. You'll be surprised how easy things become. By July your wits may have made you wealthy. Hold onto what you earn. It may have to last a while. You may have to travel without a playmate in September, but it'll be interesting anyway. In December a partner could surprise you by doing what you never expected. Earlier contacts prove fruitful in February, just like you planned. Make changes from within in May.

To get the advantage, check the day's rising: 10 is the easiest day, 0 the most challenging.

**Aries (March 21-April 19)**  
- Today is an 8 - You're intelligent and interested in just about everything. Focus on fixing things around the house, and you'll make yourself indispensable. You'll also save a lot of money!

**Taurus (April 20-May 20)**  
- Today is an 8 - Get firmly grounded so you know exactly what you want to do. If you have an outline, blueprint or budget to follow, you'll find the next few weeks amazingly easy - and, productive, too.
