Horoscopes

Cancer (June 22-July 22)

Today's Birthday (July 13)

Start out strong this year, then follow through on what you've begun. Accomplish something you've always wanted, not something new. Sort through your past and dust off your best dream in July. Put money down to make it solid in August. Old friends watch to see if you can really do it. Use that as your inspiration all year. Keep it simple to avoid others best in December. An old adversary offers encouragement in February. Everything's downhill after April. Rest in a familiar routine with friends in May. Find the words to tell your story in June.

To get the advantage, check the day's rising: 10 is the easiest day, 0 the most challenging.

Aries (March 21-April 19)

- Today is an 8 - Your life's about to get easier. It may have felt like nobody was on your side. Well, you're about to get the positive attention and reinforcement you so richly deserve. You're looking good, so relax and let it come to you.

Taurus (April 20-May 20)

- Today is a 7 - More money may become available to you, soon. If you're thinking about spending on education, household items or real estate, you could be in luck. You could qualify for a new way of financing what you need. Check it out.

Gemini (May 21-June 21)

- Today is a 7 - You should get more confident, and that will help you make better decisions. You'll look even more intelligent, and that, in turn, helps your self-confidence improve. Meanwhile, finish something you and a partner have been working on.

Cancer (June 22-July 22)

- Today is a 6 - You should feel pretty strong by now. The new image you've worked on should be getting pretty comfortable. Now, focus on increasing your net worth. All sorts of valuables are out there, just waiting to be gathered up.

Leo (July 23-Aug. 22)

- Today is an 8 - You're getting luckier. You may have been worried lately, but that should start to fade. You've cleaned up a lot of old messes, and even if nobody knew about them, the change looks good on you.

Virgo (Aug. 23-Sept. 22)

- Today is a 7 - You may think you've figured out what's possible - and what's not. Well, suspend your old reality, especially where love is concerned. Your sweetheart, a friend or a child could do something today you never thought you'd live to see happen.

Libra (Sept. 23-Oct. 23)

- Today is an 8 - You're about to learn something that takes you by surprise. This is nothing to worry about; it's more likely fun, maybe even thrilling. Your social life should get more active soon, too. So, play!

Scorpio (Oct. 24
