

RESIDENTS
From Page 1

think men and women should have the same privileges." Old East and Old West are considered prime living quarters due to their proximity to both Franklin Street and main campus, hardwood floors and generally larger rooms. And here the battle of the sexes stood: The women wanted in on the historic and relatively lavish residence halls, but the men occupying them wanted to maintain their tightly knit communities and male havens. Herring said if the Department of University Housing had booted his male buddies to make way for women, then he was against it. "We were really concerned about people being forced to move out," the junior said. And Herring said the reason some of the male residents were dead set against women moving into Old East or Old West had nothing to do with

their rich tradition or room style. It was more than that. When the dialogue started about giving women space in the then all-male residence hall, Herring said, they were told it was because UNC women didn't have an equivalent all-female residence hall on campus. Herring said this wasn't a valid reason to him and the other male residents. "The girls should have a nice dorm wasn't a good reason," he said, quickly naming halls like McIver and Alderman as reputable residence halls housing only female occupants. But the disagreement ran deeper. Though the Residence Hall Association held discussions dealing with the issue, Herring said the forums dealt with how to make the transition easier, not with whether it should take place at all. "It was like they already made the decision," he said. And this made some residents feel unappreciated, fueling the feud's fire a little more - a battle that could have intensified when the women showed

up to officially claim their space. But on the day when upperclassmen were set to arrive, the new Old East women said things were fairly calm. The tranquility was due to the logistics of the integration, during which no male residents were displaced from either residence hall. "We were really concerned about people being forced to move out," Herring said. "Since that didn't happen, I think everybody's OK with it." McKeithan noticed there wasn't much animosity in the air when she arrived. "Some of the guys were really helpful," she said. And after the T-shirt incident, McKeithan and Herring again crossed paths on the first floor, both as witnesses and players in a historic change. "It was more about who was here and how it would affect them," Herring explained as McKeithan listened. And soon both Old East residents stood together. A guy. A girl. Together in Old East.

MIXERS
From Page 1

But he stressed that IDs will be checked when Greeks choose to have mixers at bars. Christina Owen, president of Delta

Zeta sorority, said alternatives to the traditional mixer at a fraternity may not have the same atmosphere, but that they will consider other party options. "It will be difficult to have the same environment as before," she said. "Not everyone is going to be supportive right now." Other avenues will be explored for

future mixers, but Gardner said breaking away from tradition will be difficult. "The main thing is that the new policy takes away from tradition," Gardner said. "That's going to be the hard thing." The University Editor can be reached at udesk@unc.edu.

Dilbert

THE Daily Crossword

By Philip J. Anderson

- ACROSS**
- 1 Botch
 - 5 Power group
 - 9 Sahara mount
 - 14 Vast landmass

Want \$25,000+ for college?

The Army Reserve can help you take a big bite out of college expenses. How? If you qualify, the Montgomery GI Bill could provide you with over \$7,000 for college or approved vo/tech training. We'll also pay you over \$107 a weekend to start. Training is usually one weekend a month plus two weeks' Annual Training. By adding the pay for Basic Training and skill training, you'll earn over \$18,000 during a standard enlistment. So, if you could use a little financial help getting through school—the kind that won't interfere with school—stop by or call:

490-6671
BE ALL YOU CAN BE!
