Accept Availability Fee

JIM MERGNER

Due to UNC growth, OWASA wanted to change the terms of an agreement that exempted UNC from fees.

UNC and Orange Water and Sewer Authority have reached an agreement for the payment of water and sewer service availability fees.

The agreement comes after several months of discussion and formalizes a

conceptual agree-ment reached last

"Availability is a one-time Deputy tor Facilities Services Mergner charge - the amount the University will pay for connecting to the system." explained the sig-nificance of service availability fees.

"Availability is a

University will pay for connecting to the system," he said. "If we build a new facility, it has a one-time connecting

Under the previous deal, UNC was exempted from paying for future connections to OWASA's main sewage and water system. The new agreement is meant to address the future water needs of a rapidly expanding UNC main campus.

Carolina Economics Club presents:

Currently, UNC's main campus consists of 13.7 million square feet of existing and approved building floor area. The main campus is projected to reach 14.8 million square feet within the next few years.

Mergner said the new deal will cost UNC substantially more than the one established in 1977.

"There is no question that there is an additional cost to the University," he said. "It's an additional cost to our development."

Mergner said OWASA originally sug-gested the program to UNC officials.

"The subject was brought up by OWASA," he said. cerned about the specifics of the old

sales agreements." Officials said that with the new deal, both OWASA and UNC can look forward to the stability that will result from the agree

ment. UNC officials can continue to plan for expansion with full knowledge of what it will be charged for connecting to OWASA's system in its new facilities.

Mergner said, "Resolving this and putting it behind us is good for everyone
