

VIRGINIA
From Page 3

"The schools in Virginia don't want to be told anything by anybody," he said. "I, however, represent 79,000 people in Fairfax County and hear a different thing." O'Brien sponsored a similar bill last year that would have set the out-of-state percentage at 33 percent. That bill also failed to make it out of committee. Neither O'Brien nor Reid had great expectations for the bill but had hoped the House of Delegates would consider studying the issue. North Carolina currently caps the number of out-of-state students at 18 percent at the 16 UNC-system schools. And according to Sen. Howard Lee,

D-Orange, there are currently no plans to change that. "I don't think we will be looking at that issue this year," Lee said. "I have been looking into upping that number." Lee said having a higher number of out-of-state students, particularly at the system's flagship universities, was important in maintaining diversity and keeping N.C. schools nationally attractive. But Lee said the state's growing population might inhibit that from ever happening. "Our population is growing and some of those who were out-of-state students are becoming in-state students," he said. "We have an obligation to serve those in North Carolina first."

DISTRICTS
From Page 3

would be more beneficial to voters. "Single-member districts would be easier for constituents because they know exactly who to contact," she said. But Sen. Howard Lee, D-Orange, who represents a double-member district, said he would not support the bill. "Senate Bill 31 is a bad idea because a two-member representative district provides constituencies with higher quality service," Lee said. He said the downside to multi-representative districts is their large size, making travel throughout the whole district cumbersome.

"The only benefit is that single-member districts would be smaller and so it would make traveling to see constituents easier," he said. Sen. Ellie Kinnaird, D-Orange, shares her district with Lee and also opposes the bill. Kinnaird said passage of Bill 31 would make Orange County forever Republican. "We have an evenly divided district," she said. "If it is split into two districts we probably wouldn't get any representa-

tives who are Democrats." Kinnaird added that she has never heard anyone in her district complain about having two representatives. She said she thinks having two representatives is

actually beneficial. "Constituents like having two representatives," Kinnaird said. "They have two people battling for them instead of one."

the fines aren't stiff enough, stating that the rules are clear. He said that a candidate could knowingly ignore the regulations and post fliers all over campus, and that the fines would only add up to a small amount. Trakas suggested that the fine should be raised to either \$5 or \$10, holding candidates more accountable for their actions. "If a candidate is willing to take the risk, they should be slapped with the fine," Trakas said. Several candidates said they were concerned that people working on other campaigns are undermining their efforts by intentionally taking the opposition's fliers and relocating them to unsanctioned spots. Tuchmayer acknowledged that some degree of sabotage likely does occur, but he added that there is nothing the Board of Elections can do unless someone is caught in the act.

SIDE MAN
From Page 3

bilities of taking care of a mentally deranged mother, attempting to reunite his estranged family and breaking away to set out on his own. Jumping back to the '50s, after years of living gig to gig and hanging out with the boys in the band, accomplished jazz trumpeter Gene (Christopher McHale) meets the young, fiery, albeit naive, Terry (Jennifer Rohn) in the practice hall one night. They marry, and as Terry tries to make her house into a home, Gene continues to swing with the boys, Al (Jeffrey Blair Cornell), Jonsey (Ray Dooley) and Ziggy (Ken Strong). Through a series of flash-forwards and flashbacks, Clifford explores his parents' attempt at marriage and the strains of a jazz lifestyle. As her marriage breaks down, Terry turns to the bottle to drown out the sorrows of a life that didn't live up to her expectations. This turn of events allows Rohn to deliver an extremely convincing performance as a drunken, strung-out psychotic on the verge of total breakdown. However, Rohn could have been just as effective with a little bit less of her demented shrieking. "Side Man" is one of PlayMakers' must-see productions of the year. It

speaks of a magical era in which music wasn't only a profession, but a lifestyle. Performances of "Side Man" continue through Feb. 25. Showtimes are at 8 p.m. Tuesday through Saturday and at 2 p.m. Sundays. For tickets or more information call 962-PLAY (7529).
