Horoscopes

Today's Birthday (March 29)
 You've always been smart, but this year you're awesome. Take twice as many classes as usual, and excel in them all. Set high goals for yourself in April. Check your resources in May, then launch your study program in June. Concentrate at home in July and schedule a field trip for August. September is tough, but October is easy - that's when you'll win all the arguments. December is fun, February is fascinating. Put what you've learned into action, then catch up on your sleep in March.

Aries (March 21-April 19)
 To get the advantage, catch the day's rating: 10 is the easiest day, the most challenging.

Taurus (April 20-May 20)
 Today is an 8 - All's well that ends well, and this day definitely should end well. Tomorrow's not bad, either. Any chance you could get these days off and make it a really long weekend? If not, just start your romp as early as possible. You'll be in a great mood wherever you are.

Gemini (May 21-June 21)
 Today is a 5 - You may be helping another with a difficult situation, but you don't have to worry about it - most likely, you're not the one who caused this mess. Stay objective even if the other person seems to be looking for somebody to blame. You can do this, but be careful.

Virgo (Aug. 23-Sept. 22)
 Today is a 5 - You may be helping another with a difficult situation, but you don't have to worry about it - most likely, you're not the one who caused this mess. Stay objective even if the other person seems to be looking for somebody to blame. You can do this, but be careful.

Libra (Sept. 23-Oct. 22)
 Today is a 7 - Although you have some good ideas, it may be tough to get them across. A very strong person wants to take control. A direct confrontation won't work, but you might succeed with a more subtle maneuver. Set the stage so that your friend comes to your conclusion naturally. Make it the easiest path to follow.

Scorpio (Oct. 23-Nov. 21)
 Today is a 5 - Follow the money trail and you'll find out who has all the power. It may not be the person you thought it was. You can share what you learn with your sweetheart, but don't tell anyone else. You may be able to use this information to your advantage later.

Sagittarius (Nov. 22-Dec. 21)
 Today is an 8 - You're not the kind of person who finds it easy to talk about long-term commitments. You may find yourself doing just that with a very special person, and soon. It will seem like the most natural thing in the world. Make only promises that you'll be delighted to keep.

Capricorn (Dec. 22-Jan. 19)
 Today is a 5 - Paperwork takes top priority at work and at home. Better go through that stack you've been saving. And you haven't read half your magazines. Fight back before you're buried alive.

Aquarius (Jan. 20-Feb. 18)
 Today is a 7 - A loved one would like the pleasure of your company - for the entire day, if possible. If you can't manage that, at least avoid scheduling any other commitments for tonight. Discuss your vision for the future and share mutual memories. Congratulate yourselves on how far you've come.

Pisces (Feb. 19-March 20)
 Today is a 5 - Don't let financial concerns slow you down. There's no shortage of money; the challenge is to get more of it flowing into your pockets. It won't be there long, anyway. You've got your eye on something neat for your home. Use that as your motivation.
