## HOROSCOPES

### Today's Birthday (Dec. 10)

As friendships mature, sometimes dependencies develop. Although you may find these uncomfortable at first, they're not always bad. You provide something you do well, and others do the same thing. It's OK to have a niche, as you're about to discover.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

#### Sagittarius (Nov. 22-Dec. 21)

- Today is an 8 - You're not coming up with all the good ideas, but you do seem to be a magnet for them. Make sure everybody gets credit where it's due, then hurry to try a new way. This one could be quite successful.

#### Capricorn (Dec. 22-Jan. 19)

- Today is a 6 - Conditions will change in your favor, but you might feel like it's taking eons to get there. Actually, it'll take only a couple of weeks. Meanwhile, keep slogging toward victory. Follow a warrior for peace.

#### Aquarius (Jan. 20-Feb. 18)

- Today is a 9 - Did you get today off, too? You may be in a holiday mood, even if you're back at work. You can probably get away with it, too. The boss won't be watching till tomorrow.

#### Pisces (Feb. 19-March 20)

- Today is a 6 - If you could just get through all that paperwork, you might find some time for yourself. That's just what will happen. The fun is coming tomorrow. Better hurry.

#### Aries (March 21-April 19)

- Today is an 8 - If you've been playing the Lone Ranger, you may discover that it's nice to have a sidekick - somebody who can help you come up with good ideas and carry them out. Look around. He or she is nearby.

#### Taurus (April 20-May 20)

- Today is a 6 - Your work is cut out for you, and there's plenty of it. Enough to take on an assistant? Perhaps. First, get the routine down. You can interview helpers tomorrow.

#### Gemini (May 21-June 21)

- Today is a 9 - You always express yourself well, but today you're especially brilliant. You're practically irresistible, too. It's your dry sense of humor that hooks em. Use it wisely.

#### Cancer (June 22-July 22)

- Today is a 5 - You may be peeped, but don't quit yet. You can still scratch a few things off your lists. Something you've been worrying about will be easier to handle today than it will be tomorrow. Find it, then do it.

#### Leo (July 23-Aug. 22)

- Today is an 8 - You have a front-row seat at work, proves to be helpful at home. Actually, working at home is an option you might want to consider if you're not there already.

#### Virgo (Sept. 23-Sept. 22)

- Today is a 5 - Something you learn at work proves to be helpful at home. Actually, working at home is an option you might want to consider if you're not there already.

#### Libra (Sept. 23-Oct 22)

- Today is an 8 - Make contact with all your informants and find out what's happening. Sort through all the gossip, and separate fact from fiction. Having trouble making sense of it? You have a better chance of figuring things out than most.

#### Scorpio (Oct. 23-Nov. 21)

- Today is a 5 - You have an idea of how things should turn out, but there may be a gap between that and where things actually are. Modify your plans slightly, and you'll be more effective tomorrow.
